Shipps,1990 The tracer s goals are to identify the source of a quotation to find or to produce detailed citation based on a reliable edition of the work to find an authoritative text of the passage being traced and to do all this in the shortest time possible and with the least possible amount of effort **Get Goodness** Mike Hickey,2011-06-16 From the preface This book looks at virtue as the power to do good from the theological philosophical and poetic perspective From a theological perspective Long ago Anselm defined theology as faith seeking understanding f 1 a definition which has endured to the present day It would be difficult if not impossible for anyone to try to understand virtue or goodness without looking through some lens of faith Get Goodness was written in part because my own faith was seeking understanding Second this book will look at virtue and goodness from a philosophical perspective because the word philosophy from the Greek philos sophia means love of wisdom f 2 As we will find in this book the virtue of love has been understood by most theologians and philosophers before me to be the essence of each and every virtue Therefore we must first love wisdom before we are able to practically discern distinguish deliberate and decide prudently in any effort to understand how virtue is the power to do good Third this book will be suffused with poetry because poetry is a language that goes beyond logic thought and reason It is a language of the spirit and a language of human life love observation and experience Any poem is an attempt to try to understand the experience of the world and the universe around us in spiritual terms None of us should be seeking virtuous perfection in orienting ourselves to the good in this life we should only be seeking change The journey is the goal *Borrowed Narratives* Harold Ivan Smith,2012 What do Dexter King Condoleeza Rice Mackenzie King Corazon Aquino Eleanor Roosevelt Bill Cosby Tony Dungy Theodore Roosevelt George H W and Barbara Bush Caroline Kennedy Arthur Ashe Lady Bird Johnson Colin Powell and C S Lewis have in common They all have significant grief experiences that have shaped their lives in dramatic ways stories that have also shaped our lives Grieving individuals through borrowing narratives look for inspiration in biographic historical and memoir accounts of political and religious leaders celebrities sports figures and cultural icons In a time of diminishing trust in heroes and sainted leaders who will speak to us from their grief In a diverse society grief counselors and educators need to identify and mine the experienced grief s of historical personalities for resources for reflection and meaning making This book will help readers find read evaluate extract and adapt historical biographical materials create bio narrative resources for use in grief counseling and grief education explore the wide diversity of experienced grief in biographical narratives identify ways to harness grief narratives for personal reflection *Surveying the American Tropics* Maria Cristina Fumagalli,Peter

Hulme, Owen Robinson, Lesley Wylie, 2013-07-01 A collection of essays from distinguished international scholars that explore the idea of a literary geography of the American Tropics **Race, Republicans, and the Return of the Party of Lincoln**

Tasha Philpot, 2009-12-22 Whether their slogan is compassionate conservatism or hawkish liberalism political parties have always sought to expand their electoral coalitions by making minor adjustments to their public image How do voters respond to these often short term campaign appeals Race Republicans and the Return of the Party of Lincoln is Tasha Philpot's insightful study of how parties use racial images to shape and reshape the way citizens perceive them Philpot has produced a timely provocative and nuanced analysis of political party image change using the Republican Party's attempts to recast itself as a party sensitive to issues of race with its 2000 and later 2004 national conventions as case examples Using a mixture of experiments focus groups national surveys and analyses of major national and black newspaper articles Philpot finds that if race related issues are important to individuals such as blacks the ability of the party to change its image without changing its political positions is far more difficult than it is among individuals who do not consider race related issues important e.g. whites This book makes a major contribution to our understanding of party image in general and political parties use of race in particular Bravo Paula D McClain Duke University This book does an excellent job of illuminating the linkages between racial images and partisan support By highlighting Republican efforts to play against type Philpot emphasizes the limits of successfully altering partisan images That she accomplishes this in the controversial yet salient domain of race is no small feat In short by focusing on a topical issue and by adopting a novel theoretical approach Philpot is poised to make a significant contribution to the literatures on race and party images Vincent Hutchings University of Michigan Tasha S Philpot is Assistant Professor of Government and African and African American Studies at the University of Texas at Austin **Time and Tax: Issues in International, EU, and Constitutional Law** Werner Haslechner, Georg Kofler, Alexander Rust, 2018-12-20 Time is a crucial dimension in the application of any law In tax law however where an environment characterized by rapid change on the national European and international levels complicates the provision of accurate legal advice timing is particularly sensitive This book is the first to analyse the relationship between time and three key areas of tax treaties EU law and constitutional law issues such as legal certainty and individual rights Among the numerous timing issues arising out of applying tax rules the book addresses the following time limits within which relief must be requested statutes of limitation for claiming a tax refund transitional issues relating to changes in tax treaties attribution of profits and expenses to a moving or closed down business effect of tax related CJEU decisions and EU directives compliance of exit tax regimes with free movement limits of retroactivity under principles protected by the EU Charter and the ECHR and conflict between efficiency of taxation and individual rights Derived from a recent conference organized by the prestigious ATOZ Chair for European and International Taxation at the University of Luxembourg the book brings together contributions from leading tax experts from various areas of tax practice academia and the judiciary Among other issues the book notably

expands on how economic theory can inform a constitutional analysis of the timing of taxation There is no other work that concentrates so usefully on the difficulties associated with applying tax rules whether arising from treaties jurisprudence or policy to changing circumstances over time This book will quickly prove itself to be an indispensable resource for European tax lawyers policymakers company counsels and academics

Intelligence for an Age of Terror Gregory F. The Fallacy of Assignable Gender Transcendent Publications,2007-09-05 Humans often encounter expectations that they behave differently from the people they are Many left handed people have trod lightly on this path When internalized such conflicts can be profoundly disconcerting and must be resolved Each transgendered person contending with her or his suppressed gender identity exists in a continual state of such conflict That person is and is not the child adolescent and adult she or he has learned to be Experience and reflection will ultimately prove that essential identity is far different from education and endeavor Even inevitably recurring brief secret

episodes of release merely reconfirm the transgendered persons implacable obsession rather than providing respites from it. Such a conflict will not because it cannot resolve itself. The focus of *The Fallacy of Assignable Gender* is gender identity conflict. The work begins with an intimately personal account of a forty year struggle with that conflict. The condition is examined from the perspectives of medical science, religion, political theory, the arts, and others. Perhaps as compelling as the nature of the condition is society's reaction to it. Fifteen common mischaracterizations share an apparent determination by those who proffer them to ignore or reject what has been learned at great cost. Each straw man is explored and refuted. A four step plan is presented whose goal is elimination of gender identity suppression. Whether the reader's interest is personal or professional, ending the social and economic scourge of suppressed gender identity will require a broad concerted effort. Its undertaking is long overdue.

Friendgrief Harold Ivan Smith, 2018-09-17 This book not only examines friendgrief from a theoretical and clinical framework but also Smith offers fascinating vignettes from the lives of well known friendgrievers such as Elton John, Diane Sawyer, Ralph Abernathy, C. S. Lewis, Harry Truman, Tommy Lasorda, Jimmy Carter, Fritz Mondale, Bill Clinton, Calvin Trillin, and Alan King. The author includes moving narratives of numerous individuals who have never gained notoriety but have become seasoned friendgrievors.

Life Before Life Jim B. Tucker, 2005-09 Child psychiatrist Dr Ian Stevenson describes what researchers at the University of Virginia Medical Center have learned by studying young children's reports of past life memories.

Before Jim B. Tucker, M.D., 2021-04-13 A fully updated 2 in 1 edition with a new introduction by the author combining Dr Jim B Tucker's bestselling books about children who remember past lives *Return to Life* and *Life Before Life*. These two books contain first person accounts of Jim B Tucker's experiences with a number of extraordinary children with memories of past lives and expands on the international work started by Tucker's University of Virginia colleague Ian Stevenson. Tucker's work has been lauded by the likes of parapsychologist Carol Bowman and Deepak Chopra and has been described by some as quantum physics. His goal in each case of a child reporting memories of previous lives is to determine what happened, what the child has said, how the parents have reacted, whether the child's statements match the life of a particular deceased person, and whether the child could have learned such information through normal means. Tucker has found case studies that provide persuasive evidence that some children do in fact possess memories of previous lives. Thought provoking and captivating the stories in *Before* urge readers, skeptics and supporters alike to think about life, death, and reincarnation and to reflect about their own consciousness and spirituality.
