Retelling A Life Narration And Dialogue In Psychoanalysis:

Retelling A Life Roy Schafer, 1994-04-29 Here is the long awaited new book by the influential always provocative psychoanalyst Roy Schafer It focuses on a vacuum that has developed between psychoanalysis and critical thinkers in the social sciences and humanities Schafer s goal is to weave psychoanalytic discourse into the tapestry of modern trends in intellectual history notably linguistic and hermeneutic approaches to interpretation The manner in which we narrate our lives is the central theme of psychoanalytic discourse and a critical issue for all of us Roy Schafer argues Narrating giving an account presenting a version these terms make up the core vocabulary of the narrative approach From this perspective Schafer offers a new understanding of such diverse issues as men s struggle against sentimentality women and power happiness and failure and analysts sublimated love for their patients Whether he s redefining the self reinterpreting Freud or counteracting the stereotype of the aloof authoritarian and patriarchal analyst Schafer s rich observations will inform and stimulate not only analysts but all those interested in psychoanalytic thought as an intellectual current of our times

Retelling A Life Roy Schafer, 1992-06-10 This new book by the influential psychoanalyst Roy Schafer focuses on a vacuum that has developed between psychoanalysis and critical thinkers in the social sciences and humanities Schafer s goal is to weave psychoanalytic discourse into the tapestry of modern trends in intellectual history notably linguistic and hermeneutic approaches to interpretation

Narration, Identity, and Historical Consciousness Jürgen Straub, 2006-01-01 A generally acknowledged characteristic of modern life namely the temporalization of experience inextricable from our intensified experience of contingency and difference has until now remained largely outside psychology s purview Wherever questions about the development structure and function of the concept of time have been posed for example by Piaget and other founders of genetic structuralism they have been concerned predominantly with concepts of physical chronometrical time and related concepts e g velocity All the contributions to the present volume attempt to close this gap A larger number are especially interested in the narration of stories Overviews of the relevant literature as well as empirical case studies appear alongside theoretical and methodological reflections Most contributions refer to specifically historical phenomena and meaning constructions Some touch on the subjects of biographical memory and biographical constructions of reality Of all the various affinities between the contributions collected here the most important is their consistent attention to issues of the constitution and representation of temporal experience

Narration and Therapeutic Action Jerrold R Brandell, 2018-10-24 Narration and Therapeutic Action raises challenging questions about the limitations of science and of scientific inquiry for the practice of social work In doing so this innovative book calls upon clinical social workers psychologists and psychoanalysts to examine some of the most fundamental assumptions about the clinical process and what is therapeutic about it Written by social work clinicians and theorists the book explores the construction of meaning within the dual framework of psychoanalysis and clinical social work Readers of Narration and Therapeutic Action will find the way

in which clinical illustrations are used to articulate theoretical ideas especially useful You will find chapters ranging from the highly abstract and theoretical to those that consider very specific dimensions of clinical process As contributors examine various aspects of narrative theory and its relationship to psychoanalysis and clinical social work they highlight such themes as important theoretical contributions of psychoanalytic authors including Roy Schafer Donald Spence and the French psychoanalyst Jacques Lacan to the study of narratives how to use various frameworks such as self psychology and multigenerational family systems theory as a structure for analysis of clients narratives narratives and their fit in psychoanalytic developmental theories the evolution of specific narratives in the context of ongoing psychoanalytically oriented treatment the narration of traumatic experiences in dynamic psychotherapy Clinical social workers psychoanalysts and psychologists will find *Narration and Therapeutic Action* filled with answers to important questions about the very nature of what is therapeutic in the psychoanalytic process and why whether existing theory can be used with modification as a guide to the unpacking of the text and if there are specific psychoanalytic theories of development better suited to the meaning making that occurs in the crucible of the psychoanalytic dialogue *Narration and Therapeutic Action* is ideal as a guide and reference for practitioners and students of clinical social work psychoanalysis and clinical psychology as well as for instructors of clinical theory and practice Readers will find abundant evidence of consensus and conflict disparity and complementarity and resonance and dissonance in the contributors diverse viewpoints While this provides readers with support for their preexisting theoretical and clinical assumptions it also offers a broadened perspective on other theories

Aging and Biography Gary M. Kenyon, James E. Birren, Jan-Erik Ruth, Johannes J.F. Schroots, Torbjorn Svensson, 2004-01-01 Personal life narratives can serve as a rich source of new insights into the experience of human aging In this comprehensive volume an international team of editors and contributors provide effective approaches to using biography to enhance our understanding of adult development In addition to providing new theoretical aspects on aging and biography the book also details new developments concerning the practical use of different biographical approaches in both research and clinical work This is a landmark volume advancing the use of narrative approaches in gerontology The Wounded Storyteller Arthur W. Frank, 2022-12-22 Updated second edition A bold and imaginative book which moves our thinking about narratives of illness in new directions *Sociology of Health and Illness* Since it was first published in 1995 *The Wounded Storyteller* has occupied a unique place in the body of work on illness A collective portrait of a so called remission society of those who suffer from illness or disability as well as a cogent analysis of their stories within a larger framework of narrative theory Arthur W Frank's book has reached a large and diverse readership including the ill medical professionals and scholars of literary theory Drawing on the work of such authors as Oliver Sacks Anatole Broyard Norman Cousins and Audre Lorde as well as from people he met during the years he spent among different illness groups Frank recounts a stirring collection of illness stories ranging from the well known Gilda Radner's battle with ovarian cancer to the private

testimonials of people with cancer chronic fatigue syndrome and disabilities Their stories are more than accounts of personal suffering They abound with moral choices and point to a social ethic In this new edition Frank adds a preface describing the personal and cultural times when the first edition was written His new afterword extends the book's argument significantly discussing storytelling and experience other modes of illness narration and a version of hope that is both realistic and aspirational Reflecting on his own life during the creation of the first edition and the conclusions of the book itself he reminds us of the power of storytelling as way to understand our own suffering Arthur W Frank's second edition of *The Wounded Storyteller* provides instructions for use of this now classic text in the study of illness narratives Rita Charon author of *Narrative Medicine* Frank sees the value of illness narratives not so much in solving clinical conundrums as in addressing the question of how to live a good life Christianity Today

The Philosopher's Autobiography Shlomit C. Schuster,2003-01-30 Throughout the ages philosophers have examined their own lives in an attempt both to find some meaning and to explain the roots of their philosophical perspectives This volume is an introduction to philosophical autobiography a rich but hitherto ignored literary genre that questions the self its social context and existence in general The author analyzes representative narratives from antiquity to postmodernity focusing in particular on three case studies the autobiographies of St Augustine Rousseau and Sartre Through the study of these exemplary texts philosophical reflection on the self emerges as a valid alternative to Freudian psychoanalysis and as a way of promoting self renewal and change

The Course of Gay and Lesbian Lives Bertram J. Cohler,Robert M. Galatzer-Levy,2000-08 The authors argue that there is little support for assuming that homosexuality has a biological basis Recognizing the many pathways that lead to same gender sexual orientation the authors conclude that the cause is much less important than understanding the meaning of being homosexual

The Psychoanalytic Zero Koichi Togashi,2020-01-29 Winner of the 2020 Gradiva Award The *Psychoanalytic Zero* A Decolonizing Study of Therapeutic Dialogues is written from the unique perspective of a Western trained Asian psychoanalyst and applies principles of Eastern philosophy to understand the psychoanalytic relationship psychoanalytic processes and their uses and limitations for alleviating human suffering Bringing a unique Eastern perspective to a previously Western dominated discipline and framed within the current relational and ethical trends in psychoanalysis the book enables readers to develop a language for understanding an Eastern ethical viewpoint and explore how this language can change our awareness of psychoanalytic practice and human suffering Chapters are devoted to the Eastern concepts of nothingness emptiness surrender sincerity silence and narrative and issues including existential guilt of being trauma contingency informed consent the sense of being human and uncertainty Discussions are illustrated and illuminated through vivid recreations and careful elaboration of therapeutic case studies with traumatized patients The studies demonstrate the process by which patients regain a sense of being human This enriched perspective will it is hoped help the analyst treat traumatized patients who are unable to relate to others and who do not experience themselves as being

human The Psychoanalytic Zero will enrich an analyst's sensitivity to the appearance of the moment without context the psychoanalytic zero which opens infinite opportunities for continued growth in a psychoanalytic relationship It will be of great appeal to psychoanalysts and psychoanalytic psychotherapists interested in self psychological intersubjective and relational theories

Patient Tales Carol Berkenkotter, 2022-10-10 A look into communicating psychiatric patient histories from the asylum years to the clinics of today In this engrossing study of tales of mental illness Carol Berkenkotter examines the evolving role of case history narratives in the growth of psychiatry as a medical profession Patient Tales follows the development of psychiatric case histories from their origins at Edinburgh Medical School and the Royal Edinburgh Infirmary in the mid eighteenth century to the medical records of contemporary American mental health clinics Spanning two centuries and several disciplines Berkenkotter's investigation illustrates how discursive changes in this genre mirrored evolving assumptions and epistemological commitments among those who cared for the mentally ill During the asylum era case histories were a means by which practitioners organized and disseminated local knowledge through professional societies affiliations and journals The way in which these histories were recorded was subsequently codified giving rise to a genre In her thorough reading of Sigmund Freud's Fragment of an Analysis of a Case of Hysteria Berkenkotter shows how this account of Freud's famous patient Dora led to technical innovation in the genre through the incorporation of literary devices In the volume's final section Berkenkotter carries the discussion forward to the present in her examination of the turn from psychoanalysis to a research based and medically oriented classification system now utilized by the American Psychiatric Association Throughout her work Berkenkotter stresses the value of reading case histories as an interdisciplinary bridge between the humanities and sciences
