Rethinking Multiculturalism:

Rethinking Multiculturalism Bhikhu C. Parekh, 2002 Bhikhu Parekh argues for a pluralist perspective on cultural diversity Writing from both within the liberal tradition and outside of it as a critic he challenges what he calls the moral monism of much of traditional moral philosophy including contemporary liberalism its tendency to assert that only one way of life or set of values is worthwhile and to dismiss the rest as misguided or false He defends his pluralist perspective both at the level of theory and in subtle nuanced analyses of recent controversies Thus he offers careful and clear accounts of why cultural differences should be respected and publicly affirmed why the separation of church and state cannot be used to justify the separation of religion and politics and why the initial critique of Salman Rushdie before a Fatwa threatened his life deserved more serious attention than it received Rejecting naturalism which posits that humans have a relatively fixed nature and that culture is an incidental and culturalism which posits that they are socially and culturally constructed with only a minimal set of features in common he argues for a dialogic interplay between human commonalities and cultural differences This will allow Parekh argues genuinely balanced and thoughtful compromises on even the most controversial cultural issues in the new multicultural world in which we live Rethinking Multiculturalism Bhikhu Parekh, 2005-10-31 This important

and much acclaimed book rapidly became a classic on first publication In it Bhikhu Parekh shows that the Western tradition of political philosophy has very limited theoretical resources to cope with cultural diversity He then discusses how it can be revised and what new conceptual tools are needed The core of the book addresses the important theoretical questions raised by contemporary multicultural society especially the nature and limits of intercultural equality and fairness national identity citizenship and cross cultural political discourse The new second edition includes a substantial additional chapter addressing key issues Rethinking Multiculturalism Bhikhu Parekh, 2005-10-31 This important and much acclaimed book rapidly

Ulrich,2007 International order is one of the most challenging issues in political ethics today and its place within the multifaceted field of politics is frequently debated The diverse phenomena resulting from globalisation particularly in the wake of the end of the so called Cold War urge us to think about our world in terms of a single political entity Besides the existing international institutions however it is still open to question what this entity should be and what concrete political practices should correspond to it In the essays collected in this book political scientists sociologists philosophers theologians and policy advisors explore how political practices can be institutionally localised without necessarily becoming incorporated into structures of governance Political ethics as presented in this book seeks to address the particular practices of power justice and peace of citizens themselves and to assess their relevance for the shaping of international insti Governance in Multicultural Societies Gurharpal Singh,2017-09-08 In the last decade the study of multiculturalism has become an established field in political and social theory This in depth and engaging volume focuses on public policy and the dilemmas faced by the governments of increasingly diverse societies Offering a theoretically and empirically rich collection of essays from some of the leading specialists in the field it fills the gap between the social and political theory of multiculturalism and institutionally based national case studies The book is distinctive in combining a robust theoretical introduction to recent developments in multiculturalism with a critical evaluation of contemporary public policy in a variety of countries in Europe South Asia Southeast Asia the Far East and South Africa It incorporates a strong comparative dimension both within and across the case studies with a regional focus enabling comparisons of regional national and international experience

Future of Multicultural Britain Pathik Pathak, 2008-08-27. Global politics are deeply affected by issues surrounding cultural identity. Profound cultural diversity has made national majorities increasingly anxious, and democratic governments are under pressure to address those anxieties. Multiculturalism, once heralded as the insignia of a tolerant society, is now blamed for encouraging segregation and harbouring extremism. Pathik Pathak makes a convincing case for a new progressive politics that confronts these concerns. Drawing on fascinating comparisons between Britain and India, he shows how the global Left has been hamstrung by a compulsion for insular identity politics and a stubborn attachment to cultural indifference. He argues that to combat this, cultural identity must be placed at the centre of the political system. Written in a lively style, this book will engage anyone with an interest in the future of our multicultural society.

Beyond the Canon M. Grever, S. Stuurman, 2007-10-11. *Beyond the Canon* deals with recent politicized processes of canonization and its implications for historical culture in a globalizing and postcolonial world. The volume discusses the framing and transmission of historical knowledge and its consequences for the construction of narratives and the teaching of history in multicultural environments.

Doing Diversity Differently in a Culturally Complex World Megan Watkins, Greg Noble, 2021-10-07. *Doing Diversity Differently in a Culturally Complex World* explores the challenges facing multicultural education in the 21st century. It argues that the ideas fashioned in the 1970s multiculturalism are no longer adequate for the culturally complex world in which we now live. Much multicultural education celebrates superficial forms of difference and avoids difficult questions around culture in an age of transnational flows and hybrid identities. Megan Watkins and Greg Noble explore the understandings of multiculturalism that exist amongst teachers, parents, and students. They demonstrate that ideas around culture and identity don't match the complexities of the social contexts of schooling in migrant-based nations such as Australia, the UK, the USA, Canada, and New Zealand. *Doing Diversity Differently in a Culturally Complex World* draws on comprehensive research undertaken in Australian schools. It examines how a diverse range of schools address the challenges that superdiversity poses, considering how the strengths and limitations of each school's approach reflect wider logics of traditional multiculturalism. In contrast, the authors argue for a transformative multiculturalism involving a critically reflexive approach to understanding the processes, relations, and identities of the contemporary world. With a Foreword by Fazal Rivzi, Emeritus Professor, University of Illinois at Urbana-Champaign, USA, and Professor of Global Studies in Education, University of Melbourne, Australia.

The Radical Critique of Liberalism Toulia Nicolacopoulos, 2008. Working through the theories of prominent liberal theorists John Rawls, Jeremy Waldron, Charles Larmore, and Will Kymlicka, the author demonstrates that an adequate appreciation of the deep structural flaws of liberal theory presupposes the application of critical reconstructionism.

Multicultural Citizenship Jean-François Caron, François Boucher, 2024-11-29 Multicultural Citizenship Legacy and Critique allows the philosopher an opportunity to consider the evolution and transformation of Will Kymlicka's theories from Multicultural Citizenship A Liberal Theory of Minority Rights Canonical in the field of multiculturalism Will Kymlicka's work developed an original way of recognizing and accommodating ethnic groups and national minorities through liberal democratic principles This new volume brings together expert scholars to evaluate the impact of Kymlicka's book on their own views and the field's general progression over the past three decades and brings Kymlicka to face new questions challenging multiculturalism and re-evaluate the main ideas of his original theory by reflecting on its development Through engagement with the contributors chapters Kymlicka ends this edited collection with proposals for new ways of understanding multiculturalism at a time of rising anti immigration populism and nativist movements This book offers a modern outlook on multiculturalism with contributions from a diverse group of authors as well as Will Kymlicka himself and will be of great interest to scholars and students of migration nationalism minority rights sociology law and politics

Herder's Political Thought Vicki A. Spencer, 2012-04-28 Johann Gottfried Herder was a philosopher and important intellectual presence in eighteenth century Germany Herder's Political Thought examines the work of this significant figure in the context of both historical and contemporary developments in political philosophy Vicki A Spencer reveals Herder as one of the first Western philosophers to grapple seriously with cultural diversity without abandoning a commitment to universal values and the first to make language and culture an issue of justice As Spencer argues both have made Herder a source of inspiration for the pluralist turn of contemporary political philosophy Contending that in an era of globalization it is no longer possible to ignore Herder's crucial insights on the relationship between cultural membership and individual identity Spencer demonstrates how these ideas can help us understand and perhaps resolve the linguistic and cultural political struggles of our times

Migration and Integration Tom Farer, 2019-11-21 Clarifies assesses and proposes answers for all of the politically toxic issues associated with large scale migration of persons from the Global South to the Western liberal democracies
