Abstract: Having been at the centre of a century long debate which cast doubt on the nature of Augustine's conversion, one might assume that Augustine's early works (386-96) have now been rescued and given their rightful place. This book suggests that these are now threatened by an equally destructive trend in Augustine scholarship, which, over the last fifty years, has become an almost unquestioned norm of interpretation. This is the idea, fatefully and poignantly depicted by Peter Brown in the chapter of his seminal biography entitled *The Lost Future*, that the early optimistic and philosophical Augustine was dramatically transformed into the mature, pessimistic theologian of the Fall, original sin, and grace by his reading of Paul in the mid-390s. This interpretation of the first decade of Augustine's life has since become such an *idée fixe* in scholarly as well as popular accounts, leaving two very different Augustines: one, the young convert, tired to pursue Wisdom by an optimistic confidence in the rational disciplines of the liberal arts, human free will, and a glorious ideal of perfection; the other, the older and wiser bishop of Hippo, convinced of human fallen ness and of the need for grace to will or to do any good work. This book argues that in order to do justice to Augustine's conversion, to his early theology and understanding of the Christian life, and to the early works themselves, such caricatures must be resisted. It seeks to demonstrate that there is a fundamental continuity in Augustine's thought, which does not undergo any dramatic change when he re-reads Paul in the 390s; that there is only one Augustine, for whom human weakness and divine grace were the central axes of his Christian faith and life from the very beginning.

Keywords: Augustine of Hippo, the Fall, original Sin, grace, continuity, will, conversion

Part One

1. The Context

This chapter considers the biographical, historical, and theological context of Augustine's early works (386-96). It outlines the way in which these works have been read in scholarly debates over the last hundred years, demonstrating that they have generally been marginalised as the rather obsolete philosophical investigations of a new, somewhat naïve, over-optimistic convert, still entrenched in the classical tradition of belief in human free will and perfectibility. These have generally been contrasted with the later, mature works of Augustine — the pessimistic theologian of the Fall, original sin, and human dependence upon divine grace. It considers Peter Brown's analysis of the revolutionary transformation of the early into the later Augustine following his reading of Paul in the 390s, and sets out the argument of the book: that there is no discontinuity or revolutionary transformation of the early into the later Augustine, but rather a fundamental continuity between the two.

2. The Revolution of 386

This chapter argues that Augustine's conversion in 386 is not a radically different conversion from the one he recounts in *Confessiones* 8: that if one is to speak of a 'revolution' in his thought, it is not to be found in his reading of Paul in the 390s, but in his reading of the 'books of the Platonists' in 386, and his discovery in them of a doctrine of God's transcendence which freed him from the materialistic philosophies that had hitherto made it impossible for him to embrace the Christian faith to which he had always sought to be reconciled.

Rethinking Augustines Early Theology An Argument For Continuity:

Rethinking Augustine's Early Theology Carol Harrison, 2006-01-19 Carol Harrison challenges the almost universally accepted interpretation of the development of Augustine's theology. In this book she proposes a new thesis arguing for a fundamental continuity in Augustine's belief and practice from the moment of his conversion and so enhances a major scholarly debate. *Augustine's Early Thought on the Redemptive Function of Divine Judgement* Bart van Egmond, 2018-12-06 Augustine's Early Thought on the Redemptive Function of Divine Judgement considers the relationship between Augustine's account of God's judgment and his theology of grace in his early works. How does God use his law and the penal consequences of its transgression in the service of his grace both personally and through his agents on earth? Augustine reflected on this question from different perspectives. As a teacher and bishop he thought about the nature of discipline and punishment in the education of his pupils, brothers and congregants. As a polemicist against the Manichaeans and as a biblical expositor he had to grapple with issues regarding God's relationship to evil in the world, the violence God displays in the Old Testament and in the death of his own Son. Furthermore, Augustine meditated on the way God's judgment and grace related in his own life both before and after his conversion. Bart van Egmond follows the development of Augustine's early thought on judgment and grace from the Cassiciacum writings to the Confessions. The argument is contextualized both against the background of the earlier Christian tradition of reflection on the providential function of divine chastisement and the tradition of psychagogy that Augustine inherited from a variety of rhetorical and philosophical sources. This study expertly contributes to the ongoing scholarly discussion on the development of Augustine's doctrine of grace and to the conversation on the theological roots of his justification of coercion against the Donatists. **Augustine's Theology of Preaching** Peter T. Sanlon, 2014-07-01 Scholarship has painted many pictures of Augustine: the philosophical theologian, the refuter of heresy, or contributor to doctrines like Original Sin, but the picture of Augustine as preacher says Sanlon has been seriously neglected. When academics marginalize the *Sermones ad Populum*, the real Augustine is not presented accurately. In this study, Sanlon does more than rehabilitate a neglected view of Augustine. How do the theological convictions that Augustine brought to his preaching challenge, sustain, or shape our work today? By presenting Augustine's thought on preaching to contemporary readers, Sanlon contributes a major new piece to the ongoing reconsideration of preaching in the modern day, a consideration that is relevant to all branches of the twenty-first-century church. Augustine on the Will Han-luen Kantzer Komline, 2020 While Augustine's understanding of will is constantly invoked in secondary literature, it rarely receives analysis in its own right. In this book, Han-luen Kantzer Komline provides such an analysis, demonstrating that Augustine's view is theologically differentiated, comprising four distinct types of human will which correspond to four different theological scenarios. **Augustine and the Mystery of the Church** James K. Lee, 2017-09-01 Over the course of the past two centuries, Augustine's ecclesiology has been subject to interpretations that overdraw the distinction between the

visible and invisible dimensions of the church sometimes reducing the church to a purely spiritual invisible reality over against the visible church celebrating the sacraments the empirical community is incidental at best and can be discarded By contrast this book argues that the church is a mystery that is visible and invisible Far from discarding the visible Augustine places greater emphasis on the empirical church as his thought develops This study traces Augustine s ecclesiology from early writings to later works in order to demonstrate this thesis His early thought is heavily influenced by Platonism and tends to focus on the ascent of the individual soul After his study of Scripture in the 390s Augustine gives priority to participation in the visible sacramental community In his mature thought the church is one mystery *mysterium sacramentum* revealed by Scripture with visible and invisible aspects This book explores Augustine s exegesis of biblical images of the church such as body of Christ bride of Christ city of God and sacrifice in order to show how the visible community is intrinsic to the mystery of the church

Reason, Authority, and the Healing of Desire in the Writings of Augustine Mark J.

Boone,2020-01-14 In Reason Authority and the Healing of Desire in the Writings of Augustine Mark Boone explains

Augustine s theology of desire in a cross section of his writings He shows that Augustine s writings consistently teach a Platonically informed yet distinctively Christian theology of desire

The Universal Way of Salvation in the Thought of

Augustine Thomas P. Harmon,2024-06-27 This work examines Augustine s critique of his Roman predecessors to reveal key

aspects of Christ s mediation of the universal way of salvation Porphyry of Tyre had noticed that Christianity can make a claim that pagan religion and pagan philosophy cannot that all types of human being can be saved through the one salvific action of Christ mediated sacramentally through the one Catholic Church Augustine s response to Porphyry is grounded firmly on Christology especially on what Augustine sees to be the unique act of Christ as mediator based in turn on Christ s unique position as true God and true man which in turn is capable of healing the whole man and by healing the whole man also healing each of the parts of the soul Christ himself as concretely universal is capable of saving each and any type of human being no matter which part of the soul rules within him Augustine counters which is not a claim his pagan

interlocutors can replicate In addition to careful considerations of ancient authors like Plato Cicero Varro and Porphyry this book also ranges through Plutarch Shakespeare and contemporary political thinkers like Pierre Manent and Leo Strauss scholars of religion such as Michael Bland Simmons theologians such as Erik Peterson and Ernest L Fortin as well as well known Augustine scholars such as James Wetzel G R Evans John Cavadini Robert Dodaro Mary Keys Michael Foley Rowan Williams Oliver O Donovan John Rist and many others

The Meaning of Protestant Theology Phillip Cary,2019-06-18

This book offers a creative and illuminating discussion of Protestant theology Veteran teacher Phillip Cary explains how Luther s theology arose from the Christian tradition particularly from the spirituality of Augustine Luther departed from the Augustinian tradition and inaugurated distinctively Protestant theology when he identified the gospel that gives us Christ as its key concept More than any other theologian Luther succeeds in carrying out the Protestant intention of putting faith in

the gospel of Christ alone Cary also explores the consequences of Luther's teachings as they unfold in the history of Protestantism

Addiction and the Captive Will Cynthia Geppert, 2024-05-30 Twenty first century neuroscience has discovered that in some severe cases addiction may so constrain human freedom that the will is only able to choose to use substances of abuse At this advanced stage substance use has become the primary driver of salience co-opting and subsuming other moral priorities and human rewards Scholars have investigated Aristotle's concept of *akrasia* as an ancient mirror of this understanding and there have been some preliminary discussions of Augustine's concept of the divided will as it bears on addiction No detailed and comprehensive exploration of the work of Augustine has yet been undertaken as it relates to three contemporary models of addiction the choice learning and brain disease models Augustine's psychological awareness his mastery of ancient theological and philosophical thinking and his enormous and enduring influence on both Catholic and Protestant theology make him an ideal subject for such research This incisive book argues that Augustine's doctrine of the captive will offers a theological parallel of each of these contemporary models of addiction

The Oxford Handbook of the Pelagian Controversy, 2025-06-21 The Oxford Handbook of the Pelagian Controversy delves into the heart of one of Christianity's earliest and most profound theological disputes The Pelagian controversy characterized by fierce debates on topics such as original sin grace and predestination was a pivotal moment in the development of Christian doctrine during the early fifth century unfolding across continents and involving influential figures like Augustine of Hippo Pelagius Caelestius and Julian of Aelclanum Beyond a mere theological and ecclesiastical debate Pelagianism was an historical event which had far reaching consequences even influencing imperial decisions and shaping later evolutions in the West theologically philosophically but also politically and historically While shedding light on the historical intricacies of the Pelagian controversy this Handbook also explores its enduring legacy The discussions surrounding human autonomy sexuality and human limitations continue to shape contemporary theological and ethical discussions With a strong emphasis on methodological precision this comprehensive volume offers a balanced view of the Pelagian controversy avoiding oversimplification highlighting the importance of lost sources and the contributions of lesser known figures and uncovering the reception history of the controversy through the centuries This Handbook is an indispensable resource for scholars and students interested in the history of the West and of Christianity particularly concerning the profound philosophical and theological questions that continue to influence our modern culture
