Globalization Gernot Kohler, Emilio José Chaves, 2003 The majority of people around the world are experiencing oppressive and destructive forces which manifest themselves in starvation income polarisation joblessness stress violence and so on What is the nature of these forces If we call them globalisation can there be good globalisation as well as bad globalisation Is this a new phenomenon or

just a continuation of history as it has always been This book brings together a wide range of expertise addressing these problems from a world systems perspective Democracy and National Identity in Thailand Michael Kelly

Connors,2003-09-02 This book seeks to illuminate how Thai elites have used democracy as an instrument for order and discipline Drawing on interviews numerous Thai language sources and critical theory the author reveals a remarkable adaptation of the idea of democracy in the Thai context Connors shows how elites have drawn on Western political theory to design projects to create modern citizens He argues that it is possible to see the idea and practice of elite liberal democracy in Thailand and elsewhere as a key ideological resource in the project of securing hegemony over undisciplined populations In this perspective the ideas of civil society civic virtue social capital and democracy itself are all part of the weaponry deployed in an effort to create good citizens who act as guardians of the elite defined common good *From People's War to People's Rule* Timothy J. Lomperis,2000-11-09 Timothy Lomperis persuasively argues the ironic point that the lessons of American involvement in Vietnam are not to be found in any analysis of the war by itself Rather he proposes a comparison of the Vietnam experience with seven other cases of Western intervention in communist insurgencies during the Cold War era China Indochina Greece the Philippines Malaya Cambodia and Laos Lomperis maintains that popular insurgencies are manifestations of crises in political legitimacy which occur as a result of the societal stresses caused by modernization Therefore he argues any intervention in a people s war will succeed or fail depending on how it affects this crisis The unifying theme in the cases Lomperis discusses is the power of land reform and electoral democracy to cement political legitimacy and therefore deflect revolutionary movements Applying this theory to the ongoing Sendero Luminoso insurgency in Peru Lomperis makes a qualified prediction of that conflict s outcome He concludes that a global trend toward democratization has produced a new era of people s rule *Social Change and Planning , Power, Protest and Participation* Subrata K. Mitra,2021-09-05 This book first published in 1992 examines the attitudes of local elites the hinge between Indian state and rural society towards protest and participation in development illuminating arguments about the nature of the state as well as the development process It looks at the role of local elites in India both as the representatives of the state and of the rest of rural society and explains their importance in the country s development The book deals with the elites contribution to the credibility of the state and examines the strategies through which they manipulate the allocation of resources and influence the pace and direction of social change It contrasts the rural elites in two areas one more economically advanced than the other The elites in the first area were shown to be capable of combining institutional participation with radical protest whilst in the other they tended to rely on state channels to achieve reform The author concludes that despite the different settings both groups were informed active and responsive to political conditions This contrasts with the conventional view that local elites of the dominant castes oppress the lower ones by obstructing reforms for reasons of self interest Over-stating the Arab State Nazih N. Ayubi,1996-12-31 The author s objective within this book

is to place the Arab world within a theoretical and comparative framework that avoids both orientalist and fundamentalist insistence on the utter peculiarity and uniqueness of the region. The book focuses in detail on eight Arab countries.
