

Rift and Revolt in Hungary is "a notable book," says Robert R. Bowie, Director of the Harvard Center for International Affairs, in his foreword to the volume. "Comprehensive, analytical, and lively, it brings new insights to the turbulent events in Hungary since World War II even to an informed reader who followed those events closely as they took place. Its author is peculiarly qualified to write such a volume: international lawyer and political scientist, professor and public servant, he experienced Communist rule in Hungary from the inside. Arrested by the Hungarian Security Police, interrogated according to the usual methods, condemned for conspiracy and high treason, he spent five years of his life in Budapest prisons."

Rift And Revolt In Hungary:

Rift and Revolt in Hungary Ferenc Albert Váli, 1961 Study of post World War Hungarian history Rift and Revolt in Hungary Ferenc A. Váli, 1961 **The Real Special Relationship** Michael Smith, 2023-07-18 Gripping deeply researched and authoritative the history of one of the closest intelligence and security relationships in the world The Special Relationship between the United States and Britain is touted by politicians when it suits their purpose and as frequently dismissed as myth not least by the media Yet the truth is that the two countries are bound together more closely than either is to any other ally In *The Real Special Relationship* Michael Smith reveals how it all began eighty years ago when a top secret visit by four American codebreakers to Bletchley Park in February 1941 ten months before the US entered World War II marked the start of a close collaboration between the intelligence services of the two nations When that war ended and the Cold War began both sides recognized that the way they worked together to decode German and Japanese ciphers could be used to counter the Soviet threat They laid the foundation for the behind the scenes intelligence sharing that has continued despite rivalries among the services and occasional political conflict and public disputes between the two nations through the collapse of the Soviet Union 9 11 the wars in Afghanistan and Iraq and to the threats of the present moment Smith who served in British military intelligence brings together a fascinating range of characters from Winston Churchill and Ian Fleming to John F Kennedy Ronald Reagan Margaret Thatcher and Edward Snowden Supported by in depth interviews and a broad range of personal contacts in the intelligence community he takes the reader into the workings of MI6 the CIA the NSA and all those who strive to keep us safe Sir John Scarlett former chief of MI6 has written the introduction and Michael Hayden former director of the CIA and the NSA has provided the foreword **Hungary and the superpowers** Janos Radvanyi, 1972 **Transitions and Non-Transitions from Communism** Steven Saxonberg, 2013-02-14 A unique comparative study examining why some communist regimes remain in power whilst others have fallen **Imre Nagy** János M. Rainer, 2009-08-30 After nearly three decades of dutiful service to the Communist Party Imre Nagy led the popular uprising against the Soviet authorities during the 1956 Hungarian Revolution Two years later he was disgraced and executed How did the formerly loyal Party servant become one of its most ardent critics How did he reconcile his own beliefs with the demands of the Party for so long and what finally drove him to take a stand And how should we understand his legacy for the modern democracy of Hungary This definitive biography of the Communist leader traces his life from his conventional petty bourgeois childhood in south west Hungary through his tremendous political achievements and ultimate dramatic failure The first complete portrait of this complex and contradictory figure Imre Nagy is vividly brought to life as an enigmatic figure whose actions shaped Hungary's destiny in 1956 and ever since **Reports and Documents** United States. Congress, 1964 **Problems of Communism**, 1962 *The First Domino* Johanna Cushing Granville, 2004 A Fascinating Analysis Based on Newly Declassified Documents from the Former USSR and Communist Bloc On October 23 24 and November 3 4 1956 the

Soviet Union invaded Hungary to reassert strict communist rule The First Domino International Decision Making during the Hungarian Crisis of 1956 is the first analytical monograph in English drawing on new archival collections from East bloc countries to reinterpret decision making during this Cold War crisis Johanna Granville selects four key patterns of misperception as laid out by Columbia University political scientist Robert Jervis and shows how these patterns prevailed in the military crackdown and in other countries reactions to it Granville perceptively examines the statements and actions of Soviet Presidium members the Hungarian leadership U S policy makers and even Yugoslav and Polish leaders According to Granville Soviet first secretary Nikita Khrushchev zigzagged ineptly between policy options with apparently little or no analysis of costs and risks permitting Moscow s Eastern European satellites at times to subtly manipulate the Kremlin s decision making Granville s discussions of Polish policy Yugoslav actions and the arduous process of normalization after the uprising show that the Soviets were preoccupied with stemming what many of them construed as a Western encouraged attempt to undermine Eastern Europe s communist regimes Granville concludes that the United States bears some responsibility for the events of 1956 as ill advised U S covert actions may have convinced the Soviet leaders that the United States was attempting to weaken Soviet hegemony over Eastern Europe although the Eisenhower administration actually intended only to sow confusion and dissatisfaction This masterful study leads to the conclusion that the Hungarian Crisis in 1956 was most likely sustained by self perpetuating misperceptions and suspicions among key countries In short Granville s multi archival research tends to confirm the post revisionists theory about the cold war it was everyone s fault and no one s fault It resulted from the emerging bipolar structure of the international system the power vacuum in Europe s center and spiraling misconceptions

Central Europe Since 1945 Paul G. Lewis, 2014-01-14 Central Europe here Poland the German Democratic Republic Czechoslovakia and Hungary is at the centre of international attention since the Soviet collapse An understanding of its postwar history is critical to an appreciation of the challenges facing its present rulers This is an engrossing account of the installation development operation and eventual downfall of its very different communist regimes and the transition to the freedoms and uncertainties of the post Soviet world The book covers political economic social and cultural change emphasising the crucial relationships with the USSR throughout

State Sovereignty E. Kurtulus, 2005-11-26 State sovereignty is the foundation of international relations This thought provoking book explores the gap between seeing sovereignty as either absolute or relative It argues that state sovereignty is both factual and judicial and that the loss of sovereignty exists only at the margins of the international society With many interesting real world examples of ambiguous sovereignty examined this is an important argument against those who are quick to claim that sovereignty is under assault

The State against Society Grzegorz Ekiert, 1996-09-30 Classical images of state socialism developed in contemporary social sciences were founded on simple presuppositions State socialist regimes

were considered to be politically stable due to their pervasive institutional and ideological control over the everyday lives of their citizens impervious to reform and change and representative of extreme political and economic dependency Despite their contrasting historical experiences they have been treated as basically identical in their institutional design social and economic structures and policies Grzegorz Ekiert challenges this notion in a comparative analysis of the major political crises in post 1945 East Central Europe Hungary 1956 63 Czechoslovakia 1968 76 and Poland 1980 89 The author maintains that the nature and consequences of these crises can better explain the distinctive experiences of East Central European countries under communist rule than can the formal characteristics of their political and economic systems or their politically dependent status He explores how political crises reshaped party state institutions redefined relations between party and state institutions altered the relationship between the state and various groups and organizations within society and modified the political practices of these regimes He shows how these events transformed cultural categories produced collective memories and imposed long lasting constraints on mass political behavior and the policy choices of ruling elites These crises shaped the political evolution of the region produced important cross national differences among state socialist regimes and contributed to the distinctive patterns of their collapse The East European Economy in Context David

Turnock, 2003-09-02 Since 1989 the former communist countries of Eastern Europe have witnessed a profound and dramatic upheaval The economic coherence of this region formerly maintained through the adoption of the Soviet system of government has fractured In The East European Economy in Context Communism and Transition David Turnock examines the transition from communist to free market economies both within and between the states of Eastern Europe As well as containing an informative survey of the impact of communism The East European Economy in Context provides Political profiles of individual countries A clear study of the contrasts between northern and balkan groups Summaries of regional variations in the transition process An exploration of the new state structures and resources Discussion of political stability inter ethnic tensions and progress in economic change **Background Notes** United States. Department of State. Office of Public Communication, 1979 Series of short factual pamphlets on the countries of the world Social Control in Europe Herman Roodenburg, 2004 This two volume collection of essays provides a comprehensive examination of the idea of social control in the history of Europe The uniqueness of these volumes lies in two main areas First the contributors compare methods of social control on many levels from police to shaming church to guilds Second they look at these formal and informal institutions as two way processes Unlike many studies of social control in the past the scholars here examine how individuals and groups that are being controlled necessarily participate in and shape the manner in which they are regulated Hardly passive victims of discipline and control these folks instead claimed agency in that process accepting and resisting and thus molding the controls under which they functioned In both volumes an introduction outlines the origins and the continuing value of the concept of social control The introductions are followed by two substantive sections The essays in

part one of volume 1 focus on the interplay of ecclesiastical institutions and the emerging states those in part two of volume 1 look more explicitly at discipline from a bottom up perspective The essays in part one of volume 2 explore the various means by which communities generally working class communities in nineteenth and twentieth century Europe were subjected to forms of discipline in the workplace by the church and by philanthropic housing organizations It notes also how the communities themselves generated their own forms of internal control Part two of volume 2 focuses on various policing institutions exploring in particular the question of how liberal and totalitarian regimes differed in their styles of control repression and surveillance

One Day That Shook the Communist World Paul Lendvai, 2010-12-16 On October 23 1956 a popular uprising against Soviet rule swept through Hungary like a force of nature only to be mercilessly crushed by Soviet tanks twelve days later Only now fifty years after those harrowing events can the full story be told This book is a powerful eyewitness account and a gripping history of the uprising in Hungary that heralded the future liberation of Eastern Europe Paul Lendvai was a young journalist covering politics in Hungary when the uprising broke out He knew the government officials and revolutionaries involved He was on the front lines of the student protests and the bloody street fights and he saw the revolutionary government smashed by the Red Army In this riveting deeply personal and often irreverent book Lendvai weaves his own experiences with in depth reportage to unravel the complex chain of events leading up to and including the uprising its brutal suppression and its far reaching political repercussions in Hungary and neighboring Eastern Bloc countries He draws upon exclusive interviews with Russian and former KGB officials survivors of the Soviet backlash and relatives of those executed He reveals new evidence from closed tribunals and documents kept secret in Soviet and Hungarian archives Lendvai's breathtaking narrative shows how the uprising while tragic delivered a stunning blow to Communism that helped to ultimately bring about its demise One Day That Shook the Communist World is the best account of these unprecedented events

[The Communist States in Disarray, 1965-1971](#) Adam Bromke, Teresa Rakowska-Harmstone, 1972 The Communist States in Disarray 1965 1971 was first published in 1972 Minnesota Archive Editions uses digital technology to make long

unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions. Through a survey and analysis of recent developments in the communist states and in their relations with one another and with other nations this volume provides a revealing picture of a changing communist world. Indeed as the book makes clear it is no longer appropriate to think of the communist countries as one world since a major development during the period covered in this study has been the disintegration of the communist monolith and the reemergence of separate national entities in Eastern Europe. The sixteen chapters by fifteen contributors provide studies of the individual communist states as well as several chapter length discussions of general trends and patterns. The contributors also project the likely course of developments for the rest of the 1970s. Throughout the book the twin themes of an aggregation of the Sino Soviet conflict and the spread of nationalism point to the conclusion that the communist states are now in disarray. The contents:
