Rise And Fall Of A Middle Power Canadian Diplomacy From King To Mulroney:

The Rise and Fall of a Middle Power Arthur Andrew, 1993-01-01 I Age of Innocence 1945 1956 1 The Dear Department 2 The Middle Power Model II Middle Age 1956 1968 3 Under New Management 4 Special Relationships 5 Mike Pearson PM III Age of Reasons 1968 1984 6 Enter Trudeau Frowning 7 Sharp Impressions 8 Spies and Soldiers 9 Exit Trudeau with Gestures IV Decision Times 1984 and All That 10 Zeitgeist 11 Other Options 12 And a New Earth **Canada's Department of External Affairs: Coming of age, 1946-1968** John Hilliker, Donald Barry, 1990 The second volume of the official history of the Department of External Affairs Coming of Age covers a period of remarkable expansion and achievement in Canadian external relations Statesmen, Strategists, and Diplomats Patrice Dutil, 2023-06-15 Foreign policy is a tricky business Typically challenges and proposed solutions are perceived as disparate unless a leader can amass enough support for an idea that creates alignment And because the prime minister is typically the one proposing that idea Canadian foreign policy can be analyzed through the actions of these leaders Statesmen Strategists and Diplomats explores how prime ministers from Sir John A Macdonald to Justin Trudeau have shaped foreign policy by manipulating government structures adopting and rejecting options and imprinting their personalities on the process Contributors consider the impact of a wide range of policy decisions increasing or decreasing department budgets forming or ending alliances and pursuing trade relationships particularly as these choices affected the bureaucracies that deliver foreign policy diplomatically and militarily This innovative focus is destined to trigger a new appreciation for the formidable personal attention and acuity involved in a successful approach to external affairs **Of Peace and Power** Karsten Jung, 2009 More than 50 years after Canada played an instrumental role in its inception peacekeeping has once again returned to the center of the national foreign policy debate Having participated in every peacekeeping operation set up during the Cold War and lived through the fundamental changes the activity has undergone in the 1990s Ottawa is currently struggling to define a viable approach to peacekeeping for the 21st century As a timely contribution to this effort the study reveals the overt and subtle ways in which Canada's commitment to peacekeeping has contributed to the promotion of vital national interests in the past and might continue to do so in the future The Middle Power Project Adam Chapnick, 2011-11-01 The Middle Power Project describes a defining period of Canadian and international history During the Second World War Canada transformed itself from British dominion to self proclaimed middle power It became an active enthusiastic and idealistic participant in the creation of one of the longest lasting global institutions of recent times the United Nations This was in many historians opinions the beginning of a golden age in Canadian diplomacy Chapnick suggests that the golden age may not have been so lustrous During the UN negotiations Canadian policymakers were more cautious than idealistic The civil service was inexperienced and often internally divided Canada's significant contributions were generally limited to the much neglected economic and social fields Nevertheless creating the UN changed what it meant to be Canadian Rightly or wrongly from the establishment of the UN

onwards Canadians would see themselves as leading internationalists Based on materials not previously available to Canadian scholars The Middle Power Project presents a critical reassessment of the traditional and widely accepted account of Canada's role and interests in the formation of the United Nations It will be read carefully by historians and political scientists and will be appreciated by general readers with an interest in Canadian and international history Diplomatic Departures Kim R. Nossal, Nelson Michaud, 2007-10-01 During the nine years that the Conservatives under Brian Mulroney held power in Ottawa Canadian foreign policy underwent a series of important departures from established policy Some of these changes mirrored the major transformations in global politics that occurred during this period as the Berlin Wall was breached the Cold War came to an end and a globalized economy emerged But some of the changes were the results of initiatives taken by the Conservative government The first major scholarly examination of the foreign policy of this period this collection explores and analyzes the many departures from traditional Canadian statecraft that took place during the Mulroney Conservative era free trade with the U S a continentalized energy policy initiatives over the environment and the Arctic the withdrawal of Canadian forces from Europe and the transformation of peacekeeping into peacemaking The Struggle for Canadian Copyright Sara Bannerman, 2013-02-23 First signed in 1886 the Berne Convention for the Protection of Literary and Artistic Works is still the cornerstone of international copyright law Set against the backdrop of Canada's development from a British colony into a middle power this book reveals the deep roots of conflict in the international copyright system and argues that Canada's signing of the convention can be viewed in the context of a former British colony's efforts to find a place on the world stage In this groundbreaking book Sara Bannerman examines Canada's struggle for copyright sovereignty and explores some of the problems rooted in imperial and international copyright that affect Canadians to this day *Australian Foreign Policy in Asia* Allan Patience, 2017-12-12 This book sets out to discuss what kind of middle power Australia is and whether its identity as a middle power negatively influences its relationship with Asia It looks at the history of the middle power concept develops three concepts of middle power status and examines Australia's relationships with China Japan and Indonesia as a focus It argues that Australia is an awkward partner in its relations with Asia due to both its historical colonial and discriminatory past as well its current dependence upon the United States for a security alliance It argues this should be changed by adopting a new middle power concept in Australian foreign policy **Canada's Department of External Affairs, Volume 2** John Hilliker, Donald Barry, 1995-04-04 In 1946 with its own minister for the first time the Department of External Affairs embarked on a period of impressive growth and assumed responsibility for a broader range of foreign policy issues than ever before Under the expert guidance of Lester Pearson for a decade the department enjoyed popular and parliamentary consensus about international interests The election of the Diefenbaker government in 1957 deprived the department of Pearson's experienced ministerial direction and exposed it to new priorities and new ways of doing things At this time foreign policy consensus began to erode As well there was pressure to respond to

the administrative revolution inaugurated by the Royal Commission on Government Organization the Glassco Commission appointed in 1960 After Pearson returned to office as prime minister in 1963 questioning by the public and also by the governing party and the cabinet became more fervent Coming of Age concludes in 1968 as indications of a challenge to the principles underlying Canadian foreign policy emerged from a new generation of ministers a challenge that would produce major changes after Pierre Trudeau became prime minister *Unlikely Diplomats* Isabel Campbell, 2013-11-18 In 1951 Canada sent troops to western Europe to support its NATO allies The brigade helped Canada establish its international status In private however Canadian officials and military leaders expressed grave doubts about NATO s strategies and operational plans Despite these reservations they sent military families overseas and implemented personnel policies that permanently changed the distribution of the defence budget and the character of the Canadian Army This original account of the evolution of the Canadian Army from a small training cadre to a truly national force offers a new perspective on military policy and diplomacy in the Cold War era
