Risk Taking A Guide For Decision Makers:

Risk Taking Herbert S. Kindler, 1990 Risk is everywhere and often avoiding one risk backs us into another The issue for people in organizations is not whether to take risks but how to take reasonable risks The first edition of this book presented a systematic way of evaluating risks and a three step process for making decisions in risky situations The revision looks at the anatomy of decisions in a new way and integrates new studies and information developed over the 8 years since the original publication

Structured Decision Making Robin Gregory, Lee Failing, Michael Harstone, Graham Long, Tim McDaniels, Dan Ohlson, 2012-03-19 This book outlines the creative process of making environmental management decisions using the approach called Structured Decision Making It is a short introductory guide to this popular form of decision making and is aimed at environmental managers and scientists This is a distinctly pragmatic label given to ways for helping individuals and groups think through tough multidimensional choices characterized by uncertain science diverse stakeholders and difficult tradeoffs This is the everyday reality of environmental management yet many important decisions currently are made on an ad hoc basis that lacks a solid value based foundation ignores key information and results in selection of an inferior alternative Making progress in a way that is rigorous inclusive defensible and transparent requires combining analytical methods drawn from the decision sciences and applied ecology with deliberative insights from cognitive psychology facilitation and negotiation The authors review key methods and discuss case study examples based in their experiences in communities boardrooms and stakeholder meetings The goal of this book is to lay out a compelling guide that will change how you think about making environmental decisions Visit www.wiley.com/go/gregory to access the figures and tables from the book
