RISK David Gumbrell, 2025-02-28 39 reflections to improve your decision making in the classroom and beyond Go on You can do it Are teachers becoming ever more compliant as a profession By just quietly getting on with things there is a danger of losing that

spark that attracted you to your career in the first place However if you feel empowered to take more risks to take back control of how you teach then you have the chance to reignite your passion for the job This book follows on from David Gumbrell s text LIFT arguing that when you are feeling more resilient you have the courage and confidence to take more risks You can also calculate that risk more rationally thereby making it less risky and more likely to result in success As this cycle continues you become more invigorated more inspired and thus more engaging as a teacher A beautifully written book with David s characteristic use of rich metaphors and thoughtful narrative This book will certainly help you make bolder and better decisions in the classroom and beyond Adrian Bethune **FDA Consumer** ,1990 *Solid Ground* T.W.

Lewis,2025-03-04 Using time tested principles Solid Ground offers a blueprint for success In Solid Ground award winning entrepreneur Tom Lewis shatters the myths in today s culture about how to achieve success By reminding us of the time tested principles that seem to have gotten lost like personal character hard work goal setting helping others and faith Solid Ground explains and celebrates the real building blocks of a successful career and life Lewis offers both a road map and a compass for finding True North Following these principles will put your life on solid ground and will increase your chances for finding success and happiness In this book Lewis shows you how to harness the power of these principles The Power of Personal Character The Value of Hard Work The Magic of Goal Setting The Benefits of Self Awareness The Goodness of Helping Others Find Your Talent Make Good Decisions Take Smart Risks Keep Your Drive Alive Manage Your Career Achieve Success Discover Purpose Create Meaning Embrace Wisdom Appreciate Happiness **The Politics of Good Intentions**

David Runciman,2009-02-09 Tony Blair has often said that he wishes history to judge the great political controversies of the early twenty first century above all the actions he has undertaken in alliance with George W Bush This book is the first attempt to fulfill that wish using the long history of the modern state to put the events of recent years the war on terror the war in Iraq the falling out between Europe and the United States in their proper perspective It also dissects the way that politicians like Blair and Bush have used and abused history to justify the new world order they are creating Many books about international politics since 9 11 contend that either everything changed or nothing changed on that fateful day This book identifies what is new about contemporary politics but also how what is new has been exploited in ways that are all too familiar It compares recent political events with other crises in the history of modern politics political and intellectual ranging from seventeenth century England to Weimar Germany to argue that the risks of the present crisis have been exaggerated manipulated and misunderstood David Runciman argues that there are three kinds of time at work in contemporary politics news time election time and historical time It is all too easy to get caught up in news time and election time he writes This book is about viewing the threats and challenges we face in real historical time **The Trainer's Handbook of Leadership Development** Karen Lawson,2011-08-02 The Trainer s Handbook of Leadership Development offers facilitators human resource professionals and consultants a wide variety of tools and techniques for developing

leadership competencies and characteristics Drawing on research from such giants in the leadership field as Warren Bennis Ken Blanchard James Kouzes and Barry Posner the book's thought provoking activities are designed to create real and lasting behavior change The Trainer's Handbook of Leadership Development features the proven activities and tools that will involve and inspire participants to develop the skills and characteristics that will equip them to lead us into the future Karen has brought together a powerful collection of tools competency models exercises and training necessary for developing leaders in today's workplace I recommend this book for anyone who is implementing a leadership development program within their organization It could easily be used to build the entire program from scratch Louis Carter CEO Best Practice Institute What a gem of a book Karen Lawson has written Drawing on research by leadership gurus Karen presents 45 competencies and characteristics critical to leadership excellence She mines each of these facets for a solid definition and the significance of each Although many authors shy away from discussing leadership qualities such as authenticity and empathy Karen deals with them directly She presents activities that future leaders can use to explore personal leadership qualities This book is 24kt gold If you are a leadership development professional this book is sure to become your gold standard when searching for creative yet practical ways to help develop others into outstanding leaders of the future Elaine Biech editor The ASTD Leadership Handbook and author The Business of Consulting Developing the complex skills of leadership is critical for personal and organizational success If you are responsible for helping others build these skills this book deserves a spot on your bookshelf or maybe your desk because you will use it often Kevin Eikenberry author Remarkable Leadership Unleashing Your Leadership Potential One Skill at a Time [Think Like a Mathematician](#) Anne Rooney, 2021-07-15 Mathematics is all around us It is the universal language that allows us to work with numbers patterns processes and the rules that govern the entire universe Math enables us to understand our surroundings and model and predict phenomena This insightful and comprehensive volume answers a series of compelling mathematical and life related questions in an entertaining and informative way showing inquisitive readers how math is the basis for just about everything they experience in their daily lives
