Risky Business Canadas Changing Science Based Policy And Regulatory Regime:

Canadian Energy Policy and the Struggle for Sustainable Development G. Bruce Doern, 2005-01-01 In recent years energy policy has been increasingly linked to concepts of sustainable development In this timely collection editor G Bruce Doern presents an overview of Canadian energy policy gathering together the top Canadian scholars in the field in an examination of the twenty year period broadly benchmarked by energy liberalization and free trade in the mid 1980s and by Canada s ratification of the Kyoto Protocol in 2002 The contributors examine issues including electricity restructuring in the wake of the August 2003 blackout the implications of the Bush Administration s energy policies energy security northern pipelines and Aboriginal energy issues provincial changes in energy policy and overall federal provincial changes in regulatory governance They also demonstrate that since per capita energy usage has actually increased in the past several years sustainable development remains very much a struggle rather than an achievement When the Kyoto Protocol and its requirements for reductions in greenhouse gas emissions are factored in the Canadian record is especially dubious in basic energy terms Canadian Energy Policy and the Struggle for Sustainable Development is key to understanding many of the issues in Canada s endeavour to live up to its energy related environmental responsibilities **Canadian Science,**

Technology, and Innovation Policy G. Bruce Doern, David Castle, Peter W.B. Phillips, 2016-06-01 An extensive and in depth account and explanation of Canada s changing policies for science technology and innovation **Risky Business** G. Bruce Doern, 2000 The essays in this volume ask what risks Canadians might be exposed to as fiscal pressures strain the capacity of regulators in areas such as food drugs pesticides fisheries and the environment Canadian Nuclear Energy Policy CRUISE

Conference on the Future of Nuclear Energy in Canada (1999 : Ottawa, Ont.), 2001-01-01 Focusing on the federal government but with special attention given to key changes in Ontario the analytical core of this book identifies five key nuclear energy choices and challenges that face the federal government and other Canadian policy makers *Strategic Science in the Public Interest* G. Bruce Doern, Jeffrey S. Kinder, Jeff Kinder, 2007-01-01 The past twenty years have seen considerable shifts and struggles in government science that is in the way the state funds supports regulates conducts and uses scientific and technological activity Focusing on federal labs and agencies *Strategic Science in the Public Interest* explores how these labs have been located within and often buried by the larger commercially focussed federal innovation agenda G Bruce Doern and Jeffrey S Kinder examine four labs whose mandates deal with the Alberta oil sands environmental technologies wildlife research and mining and metals respectively The authors use these cases to explain why a better middle level approach to analysis is needed for strategic public interest centred government science They illustrate the importance of understanding the variety as well as the similarity of federal science and technology labs and agencies and of instituting policies that reflect this diversity The growing importance of Related Science Activities RSA is also explored as well as the core trade offs between commercial and public goods science in their mandates and their internal capacities **How**

Ottawa Spends 2004-2005 G. Bruce Doern, 2004 Drawing on the work of academics and other experts from across Canada Carleton University's School of Public Policy and Administration's annual book takes a focused and robust look at an era where a political coronation seemed inevitable but high expectations had to be managed downwards almost immediately A less than buoyant fiscal surplus escalating concerns about liberal ethics and corruption and a growing volatility in public opinion are examined as are Canadians increasingly uncertain views about the new Liberal leadership versus the old Liberal Party's ten year hold on power A new Conservative Party and a suddenly feisty New Democratic Party are also a central part of the new 2004-2005 Canadian political and policy milieu The Science of Bureaucracy David Demortain, 2020-01-21 How the US Environmental Protection Agency designed the governance of risk and forged its legitimacy over the course of four decades The US Environmental Protection Agency was established in 1970 to protect the public health and environment administering and enforcing a range of statutes and programs Over four decades the EPA has been a risk bureaucracy formalizing many of the methods of the scientific governance of risk from quantitative risk assessment to risk ranking Demortain traces the creation of these methods for the governance of risk the controversies to which they responded and the controversies that they aroused in turn He discusses the professional networks in which they were conceived how they were used and how they served to legitimize the EPA Demortain argues that the EPA is structurally embedded in controversy resulting in constant reevaluation of its credibility and fueling the evolution of the knowledge and technologies it uses to produce decisions and to create a legitimate image of how and why it acts on the environment He describes the emergence and institutionalization of the risk assessment risk management framework codified in the National Research Council's Red Book and its subsequent unraveling as the agency's mission evolved toward environmental justice ecological restoration and sustainability and as controversies over determining risk gained vigor in the 1990s Through its rise and fall at the EPA risk decision making enshrines the science of a bureaucracy that learns how to make credible decisions and to reform itself amid constant conflicts about the environment risk and its own legitimacy **Educational Regimes and Anglo-American Democracy** Ronald A. Manzer, 2003-01-01 Manzer's comparative political study of schools in Australia Canada New Zealand the United Kingdom and the United States focuses on five fundamental problems in the historical development of Anglo American educational regimes the original creation of systems of elementary education in the nineteenth century as publicly provided and publicly governed the transformation of secondary schools in the early twentieth century to match the emerging structure of occupational classes in capitalist industrial economies the planning for secondary schools in the development of the welfare state after the Second World War the accommodation of social diversity in public schools from the 1960s to the 1990s in response to increasingly strong assertions of ethnicity language race and religion not only as criteria for equal treatment but also as foundations of communal identity and more **Resistance Is Fertile** Wilhelm Peekhaus, 2013-03-13 For decades government industry and the mainstream media have extolled the virtues of biotechnology

downplaying its negative side effects and claiming that it can improve everything from our health and diet to our environment and economy Focusing on agricultural biotechnology *Resistance Is Fertile* challenges this dominant rhetoric by offering a critical analysis of the role of capital and the state in the development of this technoscience Wilhelm Peekhaus analyzes the major issues around which opponents of agricultural biotechnology in Canada are mobilizing resistance namely the enclosure of the biological commons and the knowledge commons which together form the BioCommons What emerges is an empirically and theoretically informed analysis of topics such as Canada's regulatory regime the corporate control of seeds the intellectual property system and attempts to construct and control public discussions about agricultural biotechnology

Temporary Work Leah F. Vosko, 2000-01-01 It explores how and to what extent temporary work is becoming the norm for a diverse group of workers in the labour market taking gender as the central lens of analysis
