Rites Of Obedience:

The Promise of Obedience Leon F. Strieder, 2001 Examines the promise of obedience in the rite of ordination particularly the 1991 addition of a second promise for religious deacons and priests to the bishop The work connects the theological issues of the promise of obedience with their historical development in ordination rituals and religious vows

Confucian Ethics in Retrospect and Prospect Qingsong Shen, Kwong-loi Shun, 2008 *Hiding the Guillotine* Emmanuel Taïeb, 2020-11-15 *Hiding the Guillotine* examines the question of state involvement in violence by tracing the evolution of public executions in France Why did the state move executions from the bloody and public stage of the guillotine to behind prison doors In a fascinating exploration of a grim subject Emmanuel Taïeb exposes the rituals and theatrical form of the death penalty and tells us who watched who participated in and who criticized and ultimately brought an end to a spectacle that the state called punishment France's abolition of the death penalty in 1981 has long overshadowed its suppression of public executions over forty years earlier Since the Revolution executions attracted tens of thousands of curious onlookers But gradually there was a shift in attitude and the public no longer saw this as a civilized pastime Why Combining material from legal archives police files an executioner's notebooks newspaper clippings and documents relating to 566 executions *Hiding the Guillotine* answers this question Taïeb demonstrates the ways in which the media was at the vanguard of putting an end to the publicity surrounding the death penalty The press had ample reason to be critical cities were increasingly being used for leisure activity and prisons for those accused of criminal activity The agitation surrounding each execution coupled with a growing identification with the condemned would blur these boundaries Ranked among the top hundred history books by the website Caf du Web Historizo *Hiding the Guillotine* has much to impart to students of legal history human rights and criminology as well as to American historians *SOCIOLOGY OF RELIGIONS* MIR MOHAMMAD IBRAHIM, 2008-04-17 Considerable number of books and research articles have been published on the concept of religion and comparative religion But rarely has any religious scholar elaborated the contribution of different religions from sociological point of view This well researched and erudite study discusses the concept of religion with special reference to Dr Ali Shariati an eminent sociologist and Muslim scholar of Iran He brought forth the unique dimensions of the comparative study of religions The text provides a complete sociological background of various religions and stresses their contributions In addition different Islamic ideals and thoughts which need to be understood in modernist's religious perspective are discussed For example the concepts of Imamat Ijtihad Enjoining good and forbidding evil and Hajj are dealt from a sociological viewpoint Finally even the less known dimensions of Islamic ideologies are explained The book is intended for the postgraduate students of Islamic Studies Research scholars and postgraduate students of philosophy may also find the book useful In addition any reader who is interested in sociology of religion and in particular the ideology and other aspects of Islam will benefit from this book **A Concert of Charisms** Paul Kevin Hennessy, 1997 Essays that take various

approaches to the tensions that have arisen since Vatican II concerning the original mission and charisms of a religious order and today's actual situations of living within a parish The Church Catechism, and Rite of Confirmation Explained and Illustrated in a Course of Lectures Thomas Tunstall Haverfield, 1818 **The Restoration and Organic Development of the Roman Rite** Laszlo Dobszay, 2010-03-17 **The Concept of Woman, v3** Allen, 1997 The culmination of a lifetime's scholarly work this pioneering study by Sister Prudence Allen traces the concept of woman in relation to man in Western thought from ancient times to the present Volume I uncovers four general categories of questions asked by philosophers for two thousand years These are the categories of opposites of generation of wisdom and of virtue Sister Prudence Allen traces several recurring strands of sexual and gender identity within this period Ultimately she shows the paradoxical influence of Aristotle on the question of woman and on a philosophical understanding of sexual complementarity Supplemented throughout with helpful charts diagrams and illustrations this volume will be an important resource for scholars and students in the fields of women's studies philosophy history theology literary studies and political science In Volume 2 Sister Prudence Allen explores claims about sex and gender identity in the works of over fifty philosophers both men and women in the late medieval and early Renaissance periods Touching on the thought of every philosopher who considered sex or gender identity between A D 1250 and 1500 The Concept of Woman provides the analytical categories necessary for situating contemporary discussion of women in relation to men Adding to the accessibility of this fine discussion are informative illustrations helpful summary charts and extracts of original source material some not previously available in English In her third and final volume Allen covers the years 1500 2015 continuing her chronological approach to individual authors and also offering systematic arguments to defend certain philosophical positions over against others **The Concept of Woman, Volume 3** Prudence Allen, 2017-01-05 The culmination of a lifetime's scholarly work this pioneering study by Sister Prudence Allen traces the concept of woman in relation to man in Western thought from ancient times to the present In her third and final volume Allen covers the years 1500 2015 continuing her chronological approach to individual authors and also offering systematic arguments to defend certain philosophical positions over against others Building on her work from Volumes I and II Allen draws on four communities of discourse Academic Humanist Religious and Satirical as she traces several recurring strands of sex and gender identity from the Renaissance to the present Now complete Allen's magisterial study is a valuable resource for scholars and students in the fields of women's studies philosophy history theology literary studies and political science Genealogies of Religion Talal Asad, 1993-08-18 In Genealogies of Religion Talal Asad explores how religion as a historical category emerged in the West and has come to be applied as a universal concept The idea that religion has undergone a radical change since the Christian Reformation from totalitarian and socially repressive to private and relatively benign is a familiar part of the story of secularization It is often invoked to explain and justify the liberal politics and world view of modernity And it leads to the view that politicized religions threaten both reason and liberty Asad's essays explore

and question all these assumptions He argues that religion is a construction of European modernity a construction that authorizes for Westerners and non Westerners alike particular forms of history making
