An Economic History of Ireland Since Independence Andy

Bielenberg, Raymond Ryan, 2013 This book traces the evolution of the Irish economy since independence looking at how the state sought to shape regulate and deregulate economic activity to deal with the challenges posed by the wider international environment

Showcasing Globalisation? Nicola Jo-Anne Smith, 2005 This book examines in depth what is perhaps the test case for globalization the Irish Republic Not only is Ireland hailed as the most globalized economy in the world but its transformation into the Celtic Tiger in the 1990s is seen to demonstrate how nations can flourish in the new global economy By implication if other countries are to emulate Ireland's success they too must submit to the exogenous forces of globalization

From the Bog to the Cloud Patrick Bresnihan, Patrick Brodie, 2025-10-24 The green digital transition is underway But what does this transition look like when dictated by the energy and resource demands of monopoly tech How has this situation come to be And where is it being resisted This provocative book uncovers the hidden intersections of land resource extraction and climate policy in the transition to greener and smarter economies Challenging eco modern and techno solutionist approaches the book links narratives of sustainability with colonial histories and uneven development arguing that tech driven transitions replicate exploitative patterns of imperial capitalism Using Ireland as a focal point the authors show how the history and depth of the country's postcolonial dependency on multinational investment especially US technology companies comes into friction with disparate land based struggles Thinking with these movements the book offers a critique of dependent models of development and proposes an anti imperialist approach to environmental politics

Routledge International Handbook of Irish Studies begins with the reversal in Irish fortunes after the 2008 global economic crash The chapters included address not only changes in post Celtic Tiger Ireland but also changes in disciplinary approaches to Irish Studies that the last decade of political economic and cultural unrest have stimulated Since 2008 Irish Studies has been directly and indirectly influenced by the crash and its reverberations through the economy political landscape and social framework of Ireland and beyond Approaching Irish pasts presents and futures through interdisciplinary and theoretically capacious lenses the chapters in this volume reflect the myriad ways Irish Studies has

responded to the economic precarity in the Republic renewed instability in the North the complex European politics of Brexit global climate and pandemic crises and the intense social change in Ireland catalyzed by all of these Just as Irish society has had to dramatically reconceive its economic and global identity after the crash Irish Studies has had to shift its theoretical modes and its objects of analysis in order to keep pace with these changes and upheavals This book captures the dynamic ways the discipline has evolved since 2008 exploring how the age of austerity and renewal has transformed both Ireland and scholarly approaches to understanding Ireland It will appeal to students and scholars of Irish studies sociology cultural studies history literature economics and political science Chapter 3 5 and 15 of this book is available for free in PDF format as Open Access from the individual product page at www.routledge.com It has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

A Taste of Progress Nelleke Teughels, Peter Scholliers, 2016-03-09 World exhibitions have been widely acknowledged as important sources for understanding the development of the modern consumer and urbanized society yet whilst the function and purpose of architecture at these major events has been well studied the place of food has received very little attention Food played a crucial part in the lived experience of the exhibitions for visitors who could acquaint themselves with the latest food innovations exotic cuisines and traditional dishes for officials attending lavish banquets for the manufacturers who displayed their new culinary products and for scientists who met to discuss the latest technologies in food hygiene Food stood as a powerful semiotic device for communicating and maintaining conceptions of identity history traditions and progress of inclusion and exclusion making it a valuable tool for researching the construction of national or corporate sentiments Combining recent developments in food studies and the history of major international exhibitions this volume provides a refreshing alternative view of these international and intercultural spectacles

When Small States Make Big Leaps Darius Ornston, 2012-08-15 At the close of the twentieth century Denmark Finland and Ireland emerged as unlikely centers for high tech competition In *When Small States Make Big Leaps* Darius Ornston reveals how these historically low tech countries managed to assume leading positions in new industries such as biotechnology software and telecommunications equipment In each case countries used institutions that are commonly perceived to delay restructuring to accelerate the redistribution of resources to emerging enterprises and industries Ornston draws on interviews with hundreds of politicians policymakers and industry representatives to identify two different patterns of institutional innovation and economic restructuring Irish policymakers worked with industry and labor representatives to contain costs and expand market competition Denmark and Finland adopted a different strategy converting an established tradition of private public and industry labor cooperation to invest in high quality inputs such as human capital and research Both strategies facilitated movement into new high tech

industries but with distinctive political and economic consequences In explaining how previously slow moving states entered dynamic new industries Ornston identifies a broader range of strategies by which countries can respond to disruptive challenges such as economic internationalization rapid technological innovation and the shift to services **Leaving the North** Johanne Devlin Trew,2016 The first book to survey the history of Northern Ireland migration from partition in 1921 to the present including the personal stories of individuals who emigrated to many destinations abroad some of whom later returned **Ireland Since 1939** Henry Patterson,2008-02-26 A compelling narrative of contemporary Ireland from one of its most highly respected historians The Ireland of today is a place poised between the divisiveness of deep seated conflict and the modernizing pull of material prosperity Though each state s history is strikingly divergent the mirroring ideologies that fuel them are remarkably symbiotic With Ireland Since 1939 one of the most distinguished Irish historians working today casts a fresh and unpredictable eye to Ireland s history from World War II up through the present to show how by putting aside its North South conflict Ireland can look forward to a prosperous economic future Industry and Policy in Independent Ireland, 1922-1972 Frank Barry,2023-09-07 This book revisits the history of industry and industrial and economic policy in independent Ireland from the birth of the state to the eve of EEC accession Though there were several manufacturing employers of significance and smaller firms in operation in almost every major branch of industry the Irish Free State was predominantly agricultural at its establishment in 1922 Industrial development was high on the nationalist agenda as would be the case across the entire developing world in the later post colonial era Despite decades of protection and a substantial increase in the size of the manufacturing sector Ireland remained under industrialised when it joined the European Economic Community in 1973 Over the previous decade and a half however the foundations of later convergence had been laid Ireland was an early adopter of what would come to be known as dual track reform The policy of attracting outward oriented foreign direct investment was initiated before substantial trade liberalisation began By 1972 there had been a significant diversification in export categories and export destinations and in the nationality of ownership of the leading manufacturing firms Some of the most successful indigenous companies of the future were also beginning to emerge In these and other respects the foundations of the economic progress that would be made over the course of EEC membership were already discernible notwithstanding the post accession collapse of most protectionist era businesses The analysis is supplemented by a unique firm level database that allows for the identification of the leading manufacturing firms in operation at any stage from the early 1900s through to 1972 The database extends by more than 50 years the period for which estimates of the significance of foreign owned industry can be provided *Transforming conflict through social and economic development* Sandra Buchanan,2016-05-16 Transforming conflict through social and economic development examines lessons learned from the Northern Ireland and Border Counties conflict transformation process through social and economic development and their consequent impacts and implications for practice and policymaking with a range of

functional recommendations produced for other regions emerging from and seeking to transform violent conflict It provides for the first time a comprehensive assessment of the region s transformation activity largely amongst grassroots actors enabled by a number of specific funding programmes namely the International Fund for Ireland Peace I II and III and INTERREG I II and IIIA These programmes have been responsible for a huge increase in grassroots practice which to date has attracted virtually no academic analysis this book seeks to fill this gap In focusing on the politics of the socioeconomic activities that underpinned the elite negotiations of the peace process key theoretical transformation concepts are firstly explored followed by an examination of the social and economic context of Northern Ireland and the border counties The three programmes and their impacts are then assessed before considering what policy lessons can be learned and what recommendations can be made for practice This is underpinned by a range of semi structured interviews and the author s own experience as a project promoter through these programmes in the border counties for more than a decade The book will be essential reading for students practitioners and policymakers in the fields of peace and conflict studies conflict transformation peacebuilding post agreement reconstruction and the political economy of conflict and those interested in contemporary developments in the Northern Ireland peace process

The Slow Failure Mary E. Daly, 2006-02-23 Focusing on both Irish government and society Daly places Ireland s population history in the mainstream history of independent Ireland Her book is essential reading for understanding modern Irish history

BOOK JACKET Ireland's History Kenneth L. Campbell, 2013-12-05 Ireland s History provides an introduction to Irish history that blends a scholarly approach to the subject based on recent research and current historiographical perspectives with a clear and accessible writing style All the major themes in Irish history are covered from prehistoric times right through to present day from the emergence of Celtic Christianity after the fall of the Roman Empire to Ireland and the European Union secularism and rapprochement with the United Kingdom By avoiding adopting a purely nationalistic perspective Kenneth Campbell offers a balanced approach covering not only social and economic history but also political cultural and religious history and exploring the interconnections among these various approaches This text will encourage students to think critically about the past and to examine how a study of Irish history might inform and influence their understanding of history in general

Unhappy the Land Liam Kennedy, 2015-10-26 In Unhappy the Land Liam Kennedy poses fundamental questions about the social and political history of Ireland and challenges cherished notions of a uniquely painful past Images of tragedy and victimhood are deeply embedded in the national consciousness yet when the Irish experience is viewed in the larger European context a different perspective emerges The author s dissection of some pivotal episodes in Irish history serves to explode commonplace assumptions about oppression victimhood and a fate said to be comparable only to that of the Jews Was the catastrophe of the Great Famine really an Irish Holocaust Was the Ulster Covenant anything other than a battle cry for ethnic conflict Was the Proclamation of the Irish Republic a means of texting terror And who fears to speak of an Irish War of

Independence shorn of its heroic pretensions Kennedy argues that the privileging of the gun the drum and the flag above social concerns and individual liberties gave rise to disastrous consequences for generations of Irish people Ireland might well be a land of heroes from C chulainn to Michael Collins but it is also worth pondering Bertolt Brecht s warning Unhappy the land that is in need of heroes Ireland on the World Stage William Crotty,David E. Schmitt,2014-06-03 For 2nd and 3rd year courses in Irish Politics European Politics or Comparative Politics International Relations or Economic Development This book provides an up to date analysis of Ireland s place on the world stage exploring its international relations evolving economic power changing relationship with the EU its political role in the world and its changing relationship with England and Northern Ireland The book traces Ireland s development from a rural and isolated country to one that has emerged as an influential player on the international stage It looks at the continuing difficulties with the North Ireland s role of prominence in Europe and the way in which it has benefited from economic globalisation *Frank Aiken* Bryce Evans,Stephen Kelly,2014-04-14 Revolutionary statesman polymath Frank Aiken cuts a colossal figure in twentieth century Irish history However he remains a controversial figure regarded as a war criminal by some and a principled proponent of National liberation by others In this engaging biographical collection contributors scrutinise Aiken s thoughts and actions at several critical junctures in modern Irish and world history taking readers through the War of Independence Civil War the birth of the new state the Second World War the Cold War and the modern Northern Ireland Troubles Divided into two sections Nationalist and Internationalist and based on an unrivalled breadth of testimony from academics family members rivals and colleagues this study ultimately details the footprints Aiken left on the national and international political stage Aiken owed his early eminence to military rather than political leadership he was commandant of the 4th Northern Division of the IRA during the War of Independence and was driven to undertake the most daring and spectacular feats of the Irish Civil War He went on to become the Chief of Staff of the Anti Treaty IRA but was expelled for backing de Valera s plan for a Republican government the beginnings of Fianna F il Thereafter his instrumental role was to be political a Minister for Defence Finance and External Affairs over the course of the following decades he was to oversee much success and controversy in the burgeoning state This biography represents the first deserving assessment of a monumental personality in 20th century Irish History **Ireland's Invasion of the World** Miki Garcia,2015-03-02 For much of Ireland s history her people have been emigrating and the Irish Diaspora today is estimated to be over 100 million people fifteen times the current population of Ireland For the most part they scattered not as colonizers but as migrants they took their culture and identity with them and made a mark on their adopted county They fought wars formed societies shaped cultures created new identities and made history This book looks at the Irish contribution to the history of all five continents recalling unsung heroes tragic tales and forgotten legacies **Ireland** Joseph Coohill,2024-08-01 From the first prehistoric inhabitants of the island to the Windsor Framework for Northern Ireland this uniquely concise account of Ireland and its people reveals how modern Irish society is

the product of a rich multivalent history Combining factual information with a critical approach Coohill covers all the key events including the Great Famine Home Rule the Good Friday Agreement and Brexit Newly revised and updated this highly accessible and balanced account will continue to provide a valuable resource to all those wishing to acquaint themselves further with the complex history of Ireland and Irish people
