major public news Yet action to bring about educational change usually exceeds people's understanding of how to do so effectively Sense and Nonsense and the National Curriculum (RLE Edu B). Michael Barber, Duncan Graham, **Science Education** James F Donnelly, Edgar W Jenkins, 2001-01-26 Who wants to change school science education and why What mechanisms exist to effect change What implications do they have for teachers professionalism These are the principal questions explored in this book The authors focus on strategies for effecting change including decentralized and statutory mechanisms and the use of systems of assessment The authors question the effectiveness of centralized programmes in improving the quality of students science education They suggest that this arises from a failure to acknowledge the contribution that the science teaching profession must make to reform They argue that sustained and effective change embodying improvements in standards depends upon promoting the initiative **National and Transnational Elite Influences on Education** Romuald Normand, Lejf Moos, Luís Miguel Carvalho, 2025-06-28 This collection focuses on transformations in the governance of education paying attention to the trans nationalisation of educational policies and the emergence of new actors in education It focuses on the knowledge and instruments of government that shape education systems at different scales of governance The book is a contribution to this field of research focusing on the new roles and responsibilities of elites inside and outside the education state It offers in depth case studies based on an international comparison examining the dynamics at work in the production and circulation of knowledge the interplay of interests and power and the ability of elites to define and lead public action programmes The research and reflections presented in this book will help students researchers practitioners and policy makers to better understand the transformations in decision making at a time of globalisation and nationalism in education
