Materialist Feminisms:

Materialist Feminisms Donna Landry, Gerald McLean, 1993-10-08 *Materialist Feminisms* investigates the crucial theoretical and political debates that have determined the course of British and American feminism over the last thirty years. As intellectual terrain has shifted during these decades from Marxism to cultural materialism and poststructuralist literary theory, questions of race and ethnicity, sexuality, postcoloniality, and green politics have converged and sometimes collided with the categories within feminism. But it analyzes many of the most important texts and movements of contemporary cultural theory. Offering not so much a unified history as an analysis of important moments within these debates, this book examines the work of such feminist theorists as Michelle Barrett, Judith Butler, Rosalind Coward, Donna Haraway, bell hooks, the m/f collective, Tania Modleski, Jacqueline Rose, Gayle Rubin, Hortense Spillers, and Gayatri Spivak. *Materialist Feminisms* includes new exemplary readings of feminist detective, African American, and postcolonial fiction, three kinds of textures currently fetishized in the literary marketplace: What might the success of these kinds of writing signify about politics and desire in contemporary Anglo American culture? Demonstrating how the poststructuralist critique of essences and identities need not end in a complete paralysis of political action, as has sometimes been claimed, *Materialist Feminisms* argues that feminism, socialism, and deconstruction are not theoretical dead ends but names for unfinished business.

Materialist Feminism Rosemary Hennessy, Chrys Ingraham, 1997 During the 1980s, capitalism triumphantly secured its global reach, and anti-communist ideologies hammered home socialism's inherent failure. The New Left increasingly moved into the professional middle class, and many of feminism's earlier priorities were marginalized. Identity politics, often formulated in terms of social reconstructionism or multiculturalism, has increasingly suppressed materialist feminism's systematic perspective, replacing it with discourse analysis or cultural politics. *Materialist Feminism: A Reader* argues against the retreat to multiculturalism for keeping invisible the material links among the explosion of meaning-making practices in highly industrialized social sectors, the exploitation of women's labor, and the appropriation of women's bodies that continues to undergird the scramble for profits and state power in multinational capitalism.

[Materialist Feminism and the Politics of Discourse](#) Rosemary Hennessy, 2012-10-11 *Materialist Feminism and the Politics of Discourse* confronts the impasses in materialist feminist work on rethinking woman as a discursively constructed subject. The book looks at the problem of examining critically the social dimensions on which theories of discourse are premised: how such theories understand materiality, the relation between women's experience and feminist politics, and that between history and discourse. Rosemary Hennessy considers the work of Kristeva, Foucault, Laclau, and Mouffe and argues for a materialist feminist re-articulation of discourse as ideology. Concerns over identity and difference are incorporated into a rewriting of materialist feminism's analysis of women's oppression across capitalist and patriarchal structures. In adapting postmodernist theories in this way, Hennessy develops a project of social change where feminism, while maintaining its specificity, is necessarily aligned with other emancipatory movements.

Fractured Feminisms Laura Gray-Rosendale, Gil Harootunian, 2012-02-01 This advanced analysis of gender issues in higher education represents a significant new turn in feminist thinking Fractured Feminisms resists and reshapes boundaries by investigating how gender studies intersection with race and ethnicity class postcoloniality sexuality globalization interdisciplinarity technology studies and administration exposes the silenced other of feminisms themselves These crucial conversations about feminisms depend upon facing the perplexing rhetorical problems within feminist debates yet work within these fractures to discover newly emerging productive feminist practices This book contends that it s important to better understand the ways in which feminist rhetorics both empower and constrain and the kinds of identities feminisms afford as well as deny

Material Feminisms Stacy Alaimo, Susan Hekman, 2008-01-02 Harnessing the energy of provocative theories generated by recent understandings of the human body the natural world and the material world *Material Feminisms* presents an entirely new way for feminists to conceive of the question of materiality In lively and timely essays an international group of feminist thinkers challenges the assumptions and norms that have previously defined studies about the body These wide ranging essays grapple with topics such as the material reality of race the significance of sexual difference the impact of disability experience and the complex interaction between nature and culture in traumatic events such as Hurricane Katrina By insisting on the importance of materiality this volume breaks new ground in philosophy feminist theory cultural studies science studies and other fields where the body and nature collide

Mattering Victoria Pitts-Taylor, 2016-08-30 Feminists today are re imagining nature biology and matter in feminist thought and critically addressing new developments in biology physics neuroscience epigenetics and other scientific disciplines *Mattering* edited by noted feminist scholar Victoria Pitts Taylor presents contemporary feminist perspectives on the materialist or naturalizing turn in feminist theory and also represents the newest wave of feminist engagement with science The volume addresses the relationship between human corporeality and subjectivity questions and redefines the boundaries of human non human and nature culture elaborates on the entanglements of matter knowledge and practice and addresses biological materialization as a complex and open process This volume insists that feminist theory can take matter and biology seriously while also accounting for power taking materialism as a point of departure to rethink key feminist issues The contributors an international group of feminist theorists scientists and scholars apply concepts in contemporary materialist feminism to examine an array of topics in science biotechnology biopolitics and bioethics These include neuralplasticity and the brain machine interface the use of biometrical identification technologies for transnational border control epigenetics and the intergenerational transmission of the health effects of social stigma ADHD and neuropharmacology and randomized controlled trials of HIV drugs A unique and interdisciplinary collection *Mattering* presents in grounded concrete terms the need for rethinking disciplinary boundaries and research methodologies in light of the shifts in feminist theorizing and transformations in the sciences

Women's Studies Linda Krikos, Cindy Ingold, 2004-08-30 This truly monumental work maps the literature of women's studies, covering thousands of titles and Web sites in 19 subject areas published between 1985 and 1999. Intended as a reference and collection development tool, this bibliography provides a guide for women's studies information for each title along with a detailed, often evaluative review. The annotations summarize each work's content, its importance, or contribution to women's studies, and its relationship to other titles on the subject. Core titles and titles that are out of print are noted, and reviews indicate which titles are appropriate as texts or supplemental texts. This definitive guide to the literature of women's studies is a must-purchase for academic libraries that support women's studies programs, and it is a useful addition to any academic or public library that endeavors to represent the field. A team of subject specialists has taken on the immense task of documenting publications in the area of women's studies in the last decades of the 20th century. The result is this truly monumental work, which maps the field, covering thousands of titles and Web sites in 19 subject areas published between 1985 and 1999. Intended as a reference and collection development tool, this bibliography provides a guide for women's studies information for each title along with a detailed, often evaluative review. The annotations summarize each work's content, its importance, or contribution to women's studies, and its relationship to other titles on the subject. Most reviews cite and describe similar and contrasting titles, substantially extending the coverage. Core titles and titles that are out of print are noted, and reviews indicate which titles are appropriate as texts or supplemental texts. Taking up where the previous volume by Loeb, Searing, and Stineman left off, this is the definitive guide to the literature of women's studies. It is a must-purchase for academic libraries that support women's studies programs, and a welcome addition to any academic or public library that endeavors to represent the field.

Feminism and Method Nancy A. Naples, 2013-10-16 Naples draws on different research topics, such as welfare, poverty, sexual identity, and sexual abuse, to illustrate some of the most salient dilemmas of feminist research: the debate over objectivity, the paradox of discourse, the dilemma of standpoint, and the challenges of activist research. By linking important feminist theoretical debates with case studies, Naples illustrates the strategies she developed for resolving the challenges posed by postmodern, Third World, postcolonial, and queer studies.

Women in Power in the Early Modern Drama Theodora A. Jankowski,1992 **Colonial Discourse and Post-Colonial Theory** Patrick Williams,Laura Chrisman,2015-08-12 This popular text provides an in depth introduction to debates within post colonial theory and criticism The readings are drawn from a diverse selection of thinkers both historical and contemporary *Tax Policy, Women and the Law* Ann Mumford,2010-11-04 Tax policy frequently targets the choices that women face in many aspects of their lives Decisions regarding working away from home having children marrying registering a partnership or cohabiting with a partner all entail tax consequences The end of the twentieth century saw progress in women s legal and social equality but many governments began to increase their reliance on the tax system as a means of influencing the choices that women make The juxtaposition of this instrumentalist deployment of tax with persisting economic inequality for women is the starting point for this book Employing a range of theoretical approaches and grounding its investigations in sociological theory and cultural philosophy it provides the foundation for a comparative contextual consideration of the issues that arise at the intersection of women tax policy and the law Lesbian Materialism Morgane Cadieu,Annabel L. Kim,2023-01-01 Yale French Studies 142 explores the contemporary relevance of an alternative strand of feminism as theorized by Monique Wittig This volume of Yale French Studies foregrounds Monique Wittig 1935 2003 a writer who left France to live and teach in the United States in a diverse range of multidisciplinary conversations in literary studies

history and gender and sexuality studies to demonstrate how Wittig's theoretical and literary work remains an indispensable resource for thinking and creating in the twenty-first century. Editors Morgane Cadieu and Annabel L. Kim flip the materialist lesbianism that Wittig's collection of essays *The Straight Mind* centers and describes as being the core of Wittig's work to deal instead with lesbian materialism, thereby making lesbian the method and materialism the object and allowing Wittig's work to realize its full range. The volume reinterrogates the official historiography of French materialist feminism, expands the intellectual framework within which Wittig's work is usually considered, insists on the language-centric materialism that emerges from Wittig's writing as a way of joining the political with the literary, and attends to the way this literary material inspires material responses and creations within the plastic arts. Underlying the entire volume is a keen sense of the materiality of Wittig's archives housed at the Beinecke Rare Book and Manuscript Library at Yale University as a site of lesbian thought in Wittig's radical sense of the term: a fugitive positionality. *Deleuze and the Schizoanalysis of Feminism* Cheri Carr, Janae Sholtz, 2019-10-21

The schizoanalytic method and the lines of flight that it has inspired align with contemporary feminist concerns and practices in productive and revealing ways in this ground-breaking collection. To address the relevance of schizoanalysis for contemporary developments in new materialism, affect theory, transnational feminism, political ontology, feminist critiques of globalization and capitalism, feminist pedagogy and ethics, the overarching questions explored are: What can schizoanalysis do for feminist theory? What would a feminist schizoanalysis look like? Is it possible to perform a schizoanalysis of feminism? How do schizoanalytic feminist alliances create new ways of understanding the future of sexuality and bodily transformation, political resistance, new subjectivities, and ethical relationships? Highlighting the strength, richness, and diversity of feminist perspectives, this collection shows how issues of re-conceiving desire, theorizing embodiment and materiality, interrogating the status of sexuality and difference, decentering feminist practice to be inclusive of transnational and de-colonial concerns, critiques of binary logic and gender transversal politics, and the need for new political visions in light of advanced capitalism are all enhanced by this alliance.
