Mentor-World Traveler ,1926 "Life Stories of Women Artists, 1550-1800 " JuliaK. Dabbs,2017-07-05 The struggles and achievements of forty six notable women artists of the early modern period as documented by their contemporaries are uniquely brought together in this anthology The life stories presented here are foundational texts for the history of art but since most are found only in rare volumes and few have been translated into English until now they have been generally inaccessible to many scholars Originally published in biographical compendia such as Vasari s Lives of the Artists the writings included here document not only the lives of relatively well known women artists such as Artemisia Gentileschi and Sofonisba Anguissola but also those who have languished in obscurity like Anna Waser and Li Yin Each life story is preceded by a brief introduction to the artist as well as to her biographer and the texts themselves are annotated to provide necessary clarification Beyond their documentary value these stories provide fascinating insight as to how men commonly characterized women artists as exceptions to their sex and attempted to explain their presence in the male dominated realm of art The introductory chapter to the book explores this intriguing gender dynamic and elucidates some of the strategies and historical context that factored into the composition of these lives The volume includes an appended index to women artists life stories in biographical compendia of the period **The Shows of London** Richard Daniel Altick,1978 A berserk elephant gunned down in the heart of London a machine for composing Latin hexameters and the original rock band 1841 these are but three of the sights that London curiosity seekers from every walk of life paid to see from the Elizabethan era to the mid Victorian period Examining hundreds of the wonderfully varied exhibitions that culminated in the Crystal Palace of 1851 this generously illustrated book sheds light on a vast and colorful expanse of English social history that has thus far remained wholly unsurveyed Drawing on a wealth of never before used information Mr Altick traces London exhibitions as they evolved from the display of relics in pre Reformation churches through the collections of eighteenth century virtuosi to the first science museums and public art galleries He also narrates for the first time the history of the panorama and diorama as an influential genre of nineteenth century popular art At every point the London shows are linked to the prevailing intellectual atmosphere and to trends in public taste The material is fresh and fascinating the range from freaks to popular science from the funeral effigies at Westminster Abbey to Madame Tussaud s waxworks impressive Like the exhibitions that best served the Victorian ideal of mass culture The Shows of London is both entertaining and informative *The Works of Benjamin Franklin* Benjamin Franklin,Jared Sparks,1882
