Accounting for Culture Caroline Andrew, 2005-03-30 Many scholars practitioners and policy makers in the cultural sector argue that Canadian cultural policy is at a crossroads that the environment for cultural policy making has evolved substantially and that traditional rationales for state intervention no longer apply The concept of cultural citizenship is a relative newcomer to the cultural policy landscape and offers a potentially compelling alternative rationale for government intervention in the cultural sector Likewise the articulation and use of cultural indicators and of governance concepts are also new arrivals emerging as potentially powerful tools for policy and program development Accounting for Culture is a unique collection of essays from leading Canadian and international scholars that critically examines cultural citizenship cultural indicators and governance in the context of evolving cultural practices and cultural policy making It will be of great interest to scholars of cultural policy communications cultural studies and public administration alike *Le Theatre*, 1902

Éléments de droit public et administratif Émile Masseux Victor Foucart, 1856 *The Studio*, 1903 Rapport sur l'évaluation des conditions du débat public relatif à la fin de vie Jean-Yves Le Déaut, 2015-03-05 Le présent rapport est d'une nature un peu exceptionnelle parmi les travaux de l'OPECST car il aborde ici un sujet en l'occurrence l'accompagnement de la fin de vie non pas pour apporter un éclairage sur des enjeux de fond qui relèvent des compétences de la commission des

affaires sociales mais pour valuer les conditions de l'organisation du débat public national ayant pris par une réforme dans ce domaine. Telle est la tâche qui a été confiée à l'OPECST par l'article L 1412-1-1 du code de la santé publique, article 46 de la loi du 7 juillet 2011 relative à la bioéthique. Tout projet de réforme sur les problèmes éthiques et les questions de société soulevés par les progrès de la connaissance dans les domaines de la biologie, de la médecine et de la santé doit être précédé d'un débat public sous forme de débats nationaux. Ceux-ci sont organisés à l'initiative du Comité consultatif national d'éthique pour les sciences de la vie et de la santé après consultation des commissions parlementaires permanentes compétentes et de l'Office parlementaire d'évaluation des choix scientifiques et technologiques. La suite du débat public le comité tablit un rapport qu'il présente devant l'Office parlementaire d'évaluation des choix scientifiques et technologiques qui procède de son évaluation. Le présent rapport après avoir confirmé que les conditions de la saisine étaient remplies rappelle l'esprit dans lequel le législateur a voulu que l'évaluation soit conduite avant de débattre les pistes qui ont été examinées pour tenir compte des enseignements du débat public considéré. Ces réflexions aboutissent des propositions d'amendements dans la perspective du prochain examen prévu à partir du 10 mars 2015 de la proposition de loi de MM Alain Claeys et Jean Leonetti créant de nouveaux droits en faveur des malades et des personnes en fin de vie.

Liberté de conscience des agents publics et laïcité Pierre Langeron, 1986-01-01 T00:00:00+01:00 L'auteur examine comment le principe de laïcité se dégage en même temps que l'État s'affirme. Il étudie la façon dont l'État garantit la liberté de conscience de ses agents et comment il la limite.

Zambia Country Assistance Review Gladstone G. Bonnick, 1997-01-01 This book draws on country case studies to focus on the environmental implications of economywide policy reforms undertaken at the sectoral or macroeconomic level. Although the emphasis is upon economic policies other noneconomic measures are also relevant such as social institutional and legal actions. The main feature of most policy reforms directed at various levels of economic decisionmaking are price changes designed to promote efficiency and reduce waste. This report reinforces the view that policies that address price related distortions can contribute to both economic and environmental goals. win win policy reforms. A recurring theme in the case studies is that the potential for achieving parallel gains in conventional economic social and environmental goals is often present when economywide reforms attempt to improve macroeconomic stability increase efficiency and alleviate poverty. However in important cases these potential gains cannot be realized unless complementary environmental and social measures are carried out. La gestion du changement en contextes et milieux organisationnels publics Bachir Mazouz, Stéphanie Gagnon, 2020-03-27 T00:00:00-04:00 La superposition et la juxtaposition de formes administratives diverses complexifient grandement la gestion du changement au sein des organisations publiques. Au contraire des entreprises privées où il existe plusieurs modèles permettant d'y arriver les dirigeants

publics avancent selon leurs expériences qu'il serait primordial de plutôt prendre en compte les spécificités de l'organisation au sein de laquelle le changement est effectué afin de réussir le changement organisationnel. Les auteurs circonscrivent la gestion du changement en milieux organisations publics l'aide d'une grille d'analyse comportant trois spécificités touchant le contexte public l'organisation publique et les enjeux légitimant le changement **User, observer, programmer et fabriquer l'espace public** Jean-Yves Toussaint, Monique Zimmermann, 2001-01-01 Les connaissances portant sur la pratique d'aménagement des espaces publics se focalisent souvent soit sur celle des habitants soit sur les pratiques de programmation formelle et technique. En mettant en relation ces divers éléments cet ouvrage collectif veut contribuer à l'amélioration des connaissances sur la programmation et l'usage des espaces publics. La valorisation scientifique de la pratique d'aménagement originale de Lyon permet d'aborder l'embranchement de ces diverses connaissances et de comprendre comment il oriente la fabrication des espaces publics place faite aux habitants modes de programmation et de décision formalisations architecturales et techniques. Le recours au concept d'espace public conduit en outre privilégier la multiplication des points de vue et l'association de compétences hétérogènes liées la complexité de cet objet la fois politique économique sociale technique et organisationnel.
