Men Who Lost Singapore, 1938-1942

Ronald McCrum,2018-04-27

The British military failure against the Japanese invasion of Singapore in 1942 is a well documented and closely examined episode While attention is frequently drawn to the role of the Colonial Governor and his staff during this period the participation of the civil authorities has not been subjected to the same rigorous scrutiny In this book Ronald McCrum undertakes a close examination of the role and the responsibilities of the colonial authorities both in the lead up to the war and during it He contends that the colonial government by pursuing different priorities needlessly created distraction and confusion Additionally the poor even hostile relations that developed between the local government and the British military hierarchy impeded a joint approach to the growing threat and affected the course of this campaign McCrum displays how the tawdry management of civil defence matters led to unnecessary loss of civilian life

In 1938 noting that the bulk of the Indian population formed a e landless proletariat and despairing of the ability of the factionalized Indian community to unite in pursuit of common objectives activist K A Neelakanda Ayer forecast that the fate of Indians in Malaya would be to become e Tragic orphanse of whom India has forgotten and Malaya looks down upon with contempte Ayer s words continue to resonate as a minority group in a nation dominated politically by colonially derived narratives of e racee and ethnicity and riven by the imperatives of religion the general trajectory of the economically and politically impotent Indian community has been one of increasing irrelevance This book explores the history of the modern Indian presence in Malaysia and traces the vital role played by the Indian community in the construction of contemporary Malaysia In this comprehensive new study Carl Vadivella Belle offers fresh insights on the Indian experience spanning the period from the colonial recruitment of Indian labour to the post Merdeka political economic and social marginalization of Indians While recent Indian challenges to the political status quo a regime described as that of e benign neglecte promoted Indian hopes of reform change and uplift the author concludes that the dictates of political discourse permeated by the ideologies of communalism offer limited prospects for meaningful change

A History of Malaysia

Barbara Watson Andaya,Leonard Y. Andaya,2001-01-01

Malaysia s multicultural society supports one of the most dynamic economies in Asia This completely revised new edition of the standard text first published twenty years ago traces the history of the country from early times to the present day The authors give particular attention to the evolution of Malay polities and their close links with indigenous groups who lived on the oceans and in the deep jungles of the region from Sumatra to Borneo This provides the background to the establishment of the

Malay port of Melaka which was conquered by the Portuguese in 1511 foreshadowing the establishment of a British colonial regime in the late nineteenth century Although the large numbers of Chinese and Indian migrants who arrived to work in the tin and rubber industries contributed to economic expansion colonial policies did not encourage communal interaction The authors trace the process by which post independence leaders in Malaya attempted to counter the legacy of ethnic hostility while answering Malay demands for an affirmation of their rights and a stronger commitment to Islam The incorporation of the Borneo states of Sarawak and Sabah into the Federation of Malaysia in 1963 rendered the goal of welding a nation from areas that were geographically separated and culturally disparate even more problematic The intense emotions attached to issues of race were made tragically evident in the racial riots of May 1969 which this book sees as a watershed in modern Malaysian history As Malaysia enters the twenty first century the government is determined to oversee the transition to an economy focused on manufacturing and advanced technology and to eliminate poverty and the association between occupation and race While several recent studies deal with the impact of colonial rule and Malaysia s spectacular economic transition this book is unique because it tracks developments from early times and identifies continuities as well as change Combining the authors specialist knowledge of precolonial sources with the most recent contemporary research this new edition reinforces the position of *A History of Malaysia* position as a standard reference for all those interested in the historical processes which led to the emergence of this culturally varied and economically energetic country

The United States and the Malaysian Economy Shakila Yacob, 2008-05-27 This book explores the relationship between the United States and the Malaysian economy concentrating on the period 1870 to 1957 with particular focus on trade flows and foreign direct investment This is the first book to examine in depth US economic involvement in colonial Malaya Exploring the relationship between the United States and the M

Indians in Malaya George Netto, 1961 *Empire and Film* Lee Grieveson, Colin MacCabe, 2019-07-25 This important new volume reconstructs the forms of production distribution and exhibition of films made in and about the colonies It then ties them to wider theoretical issues about film and liberalism spectacle and political economy representation and rule The result is one of the first volumes to examine how imperial rule is intimately tied to the emergence of documentary as a form and indeed how the history of cinema is at the same time the history of Empire

BRIAN LARKIN Barnard College This superb collection of new scholarship shows how cinema both communicated and aided the imperialist agenda throughout the twentieth century In doing so it shows film can be understood as one of the tools of empire as much as the technology of weaponry or modes of administration a means of education and indoctrination in the colonies and at home

TOM GUNNING University of Chicago At its height in 1919 the British Empire claimed 58 countries 400 million subjects and 14 million square miles of ground *Empire and Film* brings together leading international scholars to examine the integral role cinema played in the control organisation and governance of this diverse geopolitical space The essays reveal the complex interplay between the political and economic

control essential to imperialism and the emergence and development of cinema in the late nineteenth and first half of the twentieth century Contributors address how the production distribution and exhibition of film were utilised by state and industrial and philanthropic institutions to shape the subject positions of coloniser and colonised to demarcate between civilised and primitive and codify difference and to foster a political economy of imperialism that was predicated on distinctions between core and periphery The generic forms of colonial cinema were consequently varied travelogues mapped colonial spaces actuality films re presented spectacles of royal authority and imperial conquest and conflict home movies rendered colonial self representation state financed newsreels and documentaries fostered political and economic control and the education of British and colonial subjects philanthropic and industrial organisations sponsored films to expand Western models of capitalism British and American film companies made films of imperial adventure These films circulated widely in Britain and the empire and were sustained through the establishment of imperial networks of distribution and exhibition including in particular innovative mobile exhibition circuits and non theatrical spaces like schools museums and civic centres *Empire and Film* is a significant revision to the historical and conceptual frameworks of British cinema history and is a major contribution to the history of cinema as a global form that emerged amid and in dialogue with the global flows of imperialism The book is produced in conjunction with a major website housing freely available digitised archival films and materials relating to British colonial cinema www.colonialfilm.org.uk and a companion volume entitled *Film and the End of Empire*

Simons, C.C. Hughes, 2012-12-06 In the last few years there has been a great revival of interest in culture bound psychiatric syndromes A spate of new papers has been published on well known and less familiar syndromes and there have been a number of attempts to put some order into the field of inquiry In a review of the literature on culture bound syndromes up to 1969 Yap made certain suggestions for organizing thinking about them which for the most part have not received general acceptance see Carr this volume p 199 Through the seventies new descriptive and conceptual work was scarce but in the last few years books and papers discussing the field were authored or edited by Tseng and McDermott 1981 Al Issa 1982 Friedman and Faguet 1982 and Murphy 1982 In 1983 Favazza summarized his understanding of the state of current thinking for the fourth edition of the *Comprehensive Textbook of Psychiatry* and a symposium on culture bound syndromes was organized by Kenny for the Eighth International Congress of Anthropology and Ethnology The strongest impression to emerge from all this recent work is that there is no substantive consensus and that the very concept culture bound syndrome could well use some serious reconsideration As the role of culture specific beliefs and practices in all affliction has come to be increasingly recognized it has become less and less clear
