centralised state African governments have exacerbated the fragmentation of civil society However political pluralism has slowly been gaining ground since the 1990s This book explores the scope for implementing decentralisation programmes that focus on citizens in rural areas For the purpose of decentralisation civic participation in local politics and user participation in development programmes must be seen as two sides of the coin The book focuses on spatial planning a process concerned with spatial organisation in an integrative manner and incorporates the design establishment and implementation of a desired spatial structural organisation of land This is especially relevant in a context where the formulation of guidelines for spatial development at the overall level of a state is inadequate *Rural Development Planning Design and Method* Shri
