Chinook texts Franz Boas, 1894 **A Supplement to A Guide to Manuscripts Relating to the American Indian in the Library of the American Philosophical Society** American Philosophical Society. Library, 1982 A supplement to A Guide to Manuscripts Relating to the American Indian in the Library of the APS published by the Society in 1966. In only a dozen years since the publication of the Guide, substantial additions to the collection reached the point where a revision or supplement to the Guide was desirable and even necessary. For this purpose, the Library was fortunate to obtain the services of Daythal Kendall, then a graduate student in the University of Pennsylvania, whose own research on the language of the Takelma Indians eminently qualified him for the undertaking. As he states in his introduction, Dr. Kendall has not only followed the format of the predecessor volume but has introduced into his own text cross references to the Guide.

Salish Myths and Legends M. Terry Thompson, Steven M. Egesdal, 2008-01-01 The rich storytelling traditions of Salish-speaking peoples in the Pacific Northwest of North America are showcased in this anthology of story, legend, song, and oratory. From the Bitterroot Mountains to the Pacific Ocean, Salish-speaking communities such as the Bella Coola, Shuswap, Tillamook, Quinalt, Colville, Okanagan, Coeur d'Alene, and Flathead have always been guided and inspired by the stories of previous generations. Many of the most influential and powerful of those tales appear in this volume. *Salish Myths and Legends* features an array of Trickster stories centered on Coyote, Mink, and other memorable characters, as well as stories of the frightening Basket Ogress, accounts of otherworldly journeys, classic epic cycles such as South Wind's Journeys, and the Bluejay Cycle tales of such legendary animals as Beaver and Lady Louse from the beginning of time, and stories that explain why things are the way they are. The anthology also includes humorous traditional tales, speeches, and fascinating stories of encounters with whites, including Circling Raven and the Jesuits. Translated by leading scholars working in close collaboration with Salish storytellers, these stories are certain to entertain and provoke, vividly testifying to the enduring power of storytelling in Native communities.

Washington, D.C. National Anthropological Archives, 1975 Trip of the Tongue Elizabeth Little, 2012-02-28 Though we speak English as a nation it is no secret that America is far from uniform Spanish in particular has long been touted as the language that will figure into our national future much has been written about the need to recognize it in our laws and schools Yet billing America as a bilingual country is a gross misrepresentation They speak Basque in Nevada Hindi in San Jose and Gullah in South Carolina We speak European Asian and Native American languages as well as hybrids like Creole and Spanglish And Elizabeth Little's home Queens New York is among the most ethnically culturally and linguistically diverse places on the planet Small surprise then that Little felt a yearning to find the cultural and linguistic soul of the country And she has done it in the most American way imaginable on a road trip This book is the result a festive roadmap of the bounties of our country We'll learn about the struggle of the French speaking population of Maine to get along with the community around them the traditional ways of the German speaking Amish in Pennsylvania and the rich history of the little known African population of Nantucket Elizabeth Little is a witty and endearing tourguide for this memorable and original trip

Wendy Leeds-Hurwitz, 2004-01-01 Rolling in Ditches with Shamans charts American anthropology in the 1920s through the life and work of one of the amateur scholars of the time Jaime de Angulo 1887 1950 Although he earned a medical degree de Angulo chose to live on an isolated ranch in Big Sur California where he participated fully in the lives of the people who were his ethnographic informants The period of his most extensive research coincides almost perfectly with the professionalization of anthropology and de Angulo provides a link between those who are generally recognized as the most important figures of the day Franz Boas Alfred Kroeber and Edward Sapir The fields of salvage ethnography and linguistics which Boas emphasized were aimed at recording the culture language and myths of the Native groups before they became completely acculturated In keeping with these dictates de Angulo recorded data from thirty groups mostly in California which otherwise might have been lost In an unusual move for that time he also wrote fiction and poetry describing the modern lives of the people he studied something of little interest to Boas but of great interest today His most enduring work is Indian Tales a fictional synthesis of myths learned from various California Indians De Angulo's range of interests originality and expertise exemplified the curiosity and brilliance of those who pioneered American anthropology at this time
