Quintilian Laura Loporcaro, 2025-01-30 Reading Quintilian takes Quintilian's Institutio oratoria as a coherent literary work one worth reading in full. This book examines how didactic authority is created and how readers are guided through the Institutio thanks to an overarching framework that holds it together. This framework is composed of several leitmotifs: the author's self-staging statements of didactic intent and method; the depiction of an ideal didactic constellation; remarks suggesting that the work proceeds in parallel with the pupil's training and the author's life polemics against other authorities and proleptic strategies deflecting responsibility for students' potential failures. As Reading Quintilian shows, the pervasiveness of that framework and the implementation in the Institutio of the same rhetorical strategies it describes indicate that the work is not a mere accumulation of precepts but an artfully crafted whole. All the stops of rhetorical art are pulled out to engage readers and to persuade them that the teachings conveyed are valid. Laura Loporcaro grounds her analysis of the leitmotifs in the discussion of central themes including Quintilian's reception of Cicero and Seneca the Younger, his conception of the ideal orator and his polemic against corrupt oratory. Combining a panoramic view with in-depth study of single leitmotifs and themes, Reading Quintilian investigates the construction goals and models of the Institutio, thereby shedding new light on the treatise as a whole.

Schelling on Truth and Person Nikolaj

Zunic,2022-08-09 Positive philosophy is the name that Friedrich Schelling 1775 1854 gave to a new type of philosophizing that stands in contrast to the so called negative philosophy that is predominant in modern rationalism But what exactly is positive philosophy Schelling on Truth and Person The Meaning of Positive Philosophy argues that its meaning lies in a distinctive view of the human person as a seeker of truth Truth is presented as historically woven in the movement of life with the phenomena of mythology and religion that reveal the human being s falling away from and return to the truth Nikolaj Zunic demonstrates that this novel understanding of truth accompanies the development and expression of positive philosophy itself The anthropological dimension of truth relates to self knowledge the soul spirit and personality and Schelling s positive philosophy sheds light on the grand themes of the meaning of life the ontological question why is there something rather than nothing the enigma of knowledge and reason and the affirmation of the existence of God This book will appeal to students and scholars interested in Schelling s late philosophy as well as broader questions in philosophy concerning meaning truth human nature and rationality

A Synoptic History of Classical Rhetoric James Jerome Murphy,Richard A. Katula,Donovan J. Ochs,Forbes I. Hill,Prentice A. Mendor,1995 The purpose of history is to help people understand the present by providing a sense of continuity to their lives The history of western civilization begins in Ancient Greece So much of what we observe around us art architecture poetry drama and political systems is derived from the Greeks Even religious beliefs and beliefs about the solar system emanate from the writings of Greek and Roman philosophers Writing itself is a phenomenon of Greek civilization Students seeking to understand the social impact of technologies such as writing print and television must begin their study with figures such as Socrates who was one of the first to be concerned with the changes in social interaction and consciousness wrought by the emergence of writing on portable material For students of language an awareness of the classical world is particularly important The study of human discourse is an entirely western phenomenon As far as one can judge from surviving evidence the Greeks were the only people of the ancient world who endeavored to analyze the ways in which human beings communicate with each other Greece is therefore the birthplace of the art of discourse which includes not only rhetoric but also logic and grammar Although many other ancient civilizations produced literature only the Greeks produced analytic expository treatises that attempted to discover the actual bases of human communication Written treatises and school systems which allowed rhetorical discoveries to be transmitted to others enabled the Greeks and later the Romans to amass a considerable body of precepts to guide speakers and writers This body of precepts forms the basis for the study of rhetoric the art of human discourse This book provides a clear understanding of the classical roots of rhetoric While no single volume can account for every idea developed by the ancients on the art of rhetoric this book seeks to present the concepts that will most effectively provide today s student with a basis for understanding human communication The text contains essays about the period original treatises by ancient writers with modern analyses that elaborate on their rhetorical precepts and representative speeches given by celebrated orators of the

ancient world In addition a bibliography of readings is presented for those who want to study this period more deeply

Tacitus the Sententious Historian Patrick Sinclair, 1995 A study of Greek and Latin rhetorical and historical culture centering on the Roman historian Tacitus and his use of aphorisms and maxims known as *sententiae* More than any other single rhetorical device in Latin oratory and literature the *sententia* is the supreme expression of the self image of Rome during the imperial period the Principate Whether one defines *sententia* as a generalizing maxim or a prose epigram its importance in Roman rhetoric literature and public life during the early Principate indicates that it is a literary form intimately connected with the unique social code of that period An illuminating example of the skillful use of *sententiae* is found in the Roman historian Tacitus's narration of the history of Emperor Tiberius A.D. 1437 in Books 1-6 of the *Annales*
