ABOUT THE BOOK Albert Einstein was born in 1879 By the time of his death in 1955 the world Einstein was born into would be completely foreign to him Scientific breakthroughs and advancement over the 76 years of his life permanently changed the world While Einstein was regarded as brilliant by both his contemporaries and predecessors Einstein had a humble assessment of his mental faculties Einstein published his theory of relativity in 1905 at the tender age of 26 and years later it was all but validated by the scientific community at large Yet the source of his greatest triumph also led to his greatest sources of consternation
