Quran An Introduction To Its Message:

Marked Word Order in the Qurān and its English Translations Dr Ahmed Saleh Elimam, 2013-10-28 The literature on Balaghah the art of Arabic eloquence and commentaries on the Qur n stress that the style of the Qur n is beautiful eloquent and inimitable This literature identifies word order as one of the most distinctive aspects of Qur nic style One of the main reasons for this is that compared to English Arabic has fewer restrictions on word order thanks to its elaborate verb inflection system and case marking This flexibility allows for the foregrounding of some elements within the sentence resulting in a marked or non canonical word order and fulfilling certain discursive functions including specification restriction emphasis amplification glorification and denial Marked word order is used to highlight or downplay certain elements in speech or writing It constitutes one way of delivering meanings to the addressee as these meanings are ordered in the mind of the speaker in terms of their importance making the style a precise reflection of the speaker s mind and feelings This book is a descriptive study which attempts to examine how translations of the Qur n have handled yahs verses of the Qur n that feature lexical foregrounding focusing on ten published translations into English carried out by translators from different ideological and linguistic backgrounds It offers a systematic comparison of the ways in which the selected translators deal with the linguistic feature of word order variation and examines issues relating to the translator s style Specifically the book identifies and examines the following instances of marked word order discussed by commentators on the Qur n and the function served by each case of lexical foregrounding secondly the options and or patterns employed by translators to render the different functions of marked word order thirdly the recurrent options and or patterns for rendering different types of word order variation Finally the book explores the factors which may have influenced the choice of particular strategies by different translators including the translators motivations and the various historical contexts in which the translations were made Islam compiled from Wikipedia entries and published by Dr Googelberg, *Interpreting the Qur'an* Clinton Bennett, 2010-01-01 Guides readers through the Qur an by reordering its chapters into a continuous narrative
