Duval, 1998 **Lucian and the Latins** David Marsh, 1998 Explores Lucian's influence on Renaissance writers *Marguerite de Navarre's Shifting Gaze* Elizabeth Chesney Zegura, 2016-11-10 Reading between the lines political allegory and metonymy in the *Heptameron* Conclusion Selected bibliography Index **Villainy in France (1463-1610)** Jonathan Patterson, 2021-04-15 Obscene poetry servants slanderers against their masters the diabolical acts of those who committed massacre and regicide This is a book about the harmful outward manifestation of inner malice villainy in French culture 1463-1610 In pre-modern France villainous offences were countered if never fully contained by intersecting legal and literary responses Combining the methods of legal anthropology with literary and historical analysis this study examines villainy across juridical documents criminal records and literary texts Whilst few people obtained justice through the law many pursued out of court settlements of one kind or another Literary texts commemorated villainies both fictitious and historical literature sometimes instantiated the process of redress and enabled the transmission of conflicts from one context to another Villainy in France follows this overflowing current of pre-modern French culture examining its impact within France and across the English Channel Scholars and cultural critics of the Anglophone world have long been fascinated by villainy and villains This book reveals the subject's

significant Frenchness and establishes a transcultural approach to it in law and literature In this study villainy's particular significance emerges through its representation in authors remembered for their less than respectable even criminal activities François Villon Clément Marot François Rabelais Pierre de L'Estoile Christopher Marlowe Ben Jonson John Marston and George Chapman Villainy in France affords legal literary comparison of these authors alongside many of their lesser known contemporaries in so doing it reinterprets French conflicts within a wider European context from the mid fifteenth century to the early seventeenth century

Intertextual Masculinity in French Renaissance Literature David P. LaGuardia, 2016-05-06 Intertextual Masculinity in French Renaissance Literature is an in depth analysis of normative masculinity in a specific corpus from pre modern Europe narrative literature devoted to the subject of adultery and cuckoldry The text begins with a set of general questions that serve as a conceptual framework for the literary analyses that follow why were early modern readers so fascinated by the figure of the cuckold What was his relation to the real world of sexual behavior and gender relations What effect did he have on the construction of actual masculinities To respond to these questions David LaGuardia develops a theoretical approach that is based both on modern critical theory and on close readings of records and documents from the period Reading early modern legal texts penance manuals criminal registers and exempla collections in relation to the Cent nouvelles nouvelles Rabelais's Tiers Livre and Brantôme's Dames galantes LaGuardia formulates a definition of masculinity in this historical context as a set of intertextual practices that men used to relay and to reinforce their gender identities By examining legal and literary artifacts from this particular period and culture this study highlights the extent to which this supposedly normative masculinity was historically contingent and materially conditioned by generic practices

Homer and the Question of Strife from Erasmus to Hobbes Jessica Wolfe, 2015-01-01 From antiquity through the Renaissance Homer's epic poems the Iliad the Odyssey and the various mock epics incorrectly ascribed to him served as a lens through which readers translators and writers interpreted contemporary conflicts They looked to Homer for wisdom about the danger and the value of strife embracing his works as a mythographic shorthand with which to describe and interpret the era's intellectual political and theological struggles Homer and the Question of Strife from Erasmus to Hobbes elegantly exposes the ways in which writers and thinkers as varied as Erasmus Rabelais Spenser Milton and Hobbes presented Homer as a great champion of conflict or its most eloquent critic Jessica Wolfe weaves together an exceptional range of sources including manuscript commentaries early modern marginalia philosophical and political treatises and the visual arts Wolfe's transnational and multilingual study is a landmark work in the study of classical reception that has a great deal to offer to anyone examining the literary political and intellectual life of early modern Europe

The Complete Works of François Rabelais François Rabelais, 1991 Presents the complete works

of French writer Francois Rabelais **Dispositio** Paul J. Smith, 2007 Drawing on the classical concept of rhetorical dispositio this study gives new interpretations of a number of literary texts of the French Renaissance Rabelais Du Bellay Montaigne and others The often problematic ordering of these texts is studied from a variety of perspectives historical theoretical and cultural **The Shaping of Text** John Porter Houston, 1993 The Shaping of Text pays homage to the work of the late John Porter Houston who wrote extensively on style rhetoric and narrative and poetic techniques in Western European literature It is appropriate that the essays in this volume focus on the form of the literary work and the ways in which form determines meaning William Calin's essay on the saint's life analyzes the use of antithesis as a poetic and structural device that illustrates the saint's fundamental understanding of the relationship between the ephemeral reality of his physical existence and the absolute timeless reality to which he aspires Raymond LaCharite's study of Rabelais focuses on the author's self-conscious awareness of this relationship and of Renaissance preoccupation with reading as both an act of creation and interpretation George Joseph's study of three Renaissance poets focuses on the use of paradox as both a figure of speech and as a genre that serves both as a structure and as a basis for the interaction in the poetry David Rubin's essay on La Fontaine emphasizes the ways in which the register of style in the Fables is used to set the tone and control the meaning of the language In the chapters devoted to nineteenth and twentieth century literature one can see the continuing closer relationship between the book as a work of art and the reality in which it interacts Suzanne Nash analyzes the strategy Mme de Stael uses in writing *De l'Allemagne* a book written less to present an accurate portrayal of Germany than to promote her own republican ideals for France Ross Chambers's essay probes the question of the theme of melancholy in Romantic writing and its relationship to the social and political structures of the period Edward Kaplan shows how a growing ethical social concern can be seen in Baudelaire's revised *Les Fleurs du Mal* Rima Reck and Edward Kaplan reflect the growing use of literature as a vehicle for influencing public opinion Stirling Haig analyzes Flaubert's careful use of style and his awareness that reality is ultimately shaped by the beholder's perspective Finally Virginia La Charite's chapter on Proust returns to the idea of a structure within a structure in this case the architecture of the cathedral as a metaphor of synthesis an aesthetic device that gives an intelligible structure to Proust's enormous but intricately complex mass of details If John Porter Houston focused on form and style it is because he understood the semiotic nature of all things that a writer's style is a subtle form of refined communication or as Houston wrote style is an absolute manner of seeing things for Proust a question of vision and so constitutes the ultimate reality of literature

Albrecht Classen, 2010-09-22 Despite popular opinions of the dark Middle Ages and a gloomy early modern age many people laughed smiled giggled chuckled entertained and ridiculed each other This volume demonstrates how important laughter had been at times and how diverse the situations proved to be in which people laughed and this from late antiquity to the eighteenth century The
