Racism And The Underclass State Policy And Discrimination Against Minorities:

Racism and the Underclass George W. Shepherd, David Penna, 1991-08-30 A collection of essays analyzing the impact of state policy on minority communities in the USA and the perpetuation of an underclass in American society The contributors argue that there was a resurgence of racism and disadvantage during the Reagan years **Beyond Systemic Discrimination** Päivi Gynther, 2007 This book presents an analysis of international law in support of educationally disadvantaged young people and adults Focusing on Roma it introduces a scheme for identifying situations where they become subjected to discrimination by state parties to relevant international standards *The Convention on the Rights of the Child* A. Glenn C. Mower, 1997-02-28 Based on official records and reports relevant secondary sources and observations of members of the Convention's implementary organ The Convention on the Rights of the Child describes and evaluates the first international human rights treaty to deal specifically with the rights and freedoms of the child Mower deals first with the significance origin and development of the Convention on the Rights of the Child then describes and analyzes its substantive content procedures and mechanisms for the Convention's implementation He concludes with an examination of the factors that are most likely to determine the rate of progress toward the realization of the convention's goals Based on official records relevant secondary sources and observations of members of the Convention's implementary organ the book will be of considerable use to scholars and researchers in the fields of human rights and children's welfare **Ethnic Studies** Philip Q. Yang, 2000-04-13 Defines the field of ethnic studies and explores its methodologies *"Destined to Fail"* Julia Eklund Koza, 2021-08-31 How eugenics became a keystone of modern educational policy **Racial and Ethnic Relations in America: Politics and racial** Carl Leon Bankston, 2000 Volume 2 *Spirit and Resistance* George E. Tinker, 2004-09-15 Writing from a Native American perspective theologian Tinker probes American Indian culture its vast religious and cultural legacy and its ambiguous relationship to the tradition historic Christianity that colonized and converted it He offers novel proposals about cultural survival and identity sustainability and the endangered health of Native Americans **Orientations** Kandice Chuh, Karen Shimakawa, 2001-09-03 A critical examination of what constitutes the varied positions grouped together as Asian American seen in relation to both American and transnational forces **Asian/American** David Palumbo-Liu, 1999 This book argues that the invention of Asian American identities serves as an index to the historical formation of modern America By tracing constructions of Asian American to an interpenetrating dynamic between Asia and America the author obtains a deeper understanding of key issues in American culture history and society The formation of America in the twentieth century has had everything to do with westward expansion across the Pacific frontier and the movement of Asians onto American soil After the passage of the last piece of anti Asian legislation in the 1930's the United States found it had to grapple with both the presence of Asians already in America and the imperative to develop its neocolonial interests in East Asia The author argues that under these double imperatives a great wall between Asian and

American is constructed precisely when the two threatened to merge Yet the very incompleteness of American identity has allowed specific and contingent fusion of Asian and American at particular historical junctures From the importation of Asian labor in the mid nineteenth century the territorialization of Hawaii and the Philippines in the late nineteenth century through wars with Japan Korea and Vietnam and the Cold War with China to today s Asian Pacific Economic Cooperation group the United States in the modern age has seen its national identity as strongly attached to the Pacific As this has taken place so has the formation of a variety of Asian American identities Each contains a specific notion of America and reveals a particular conception of Asian and American Complicating the usual notion of identity politics and drawing on a wide range of writings sociological historical cultural medical anthropological geographic economic journalistic and political the author studies both how the formation of these identifications discloses the response of America to the presence of Asians and how Asian Americans themselves have inhabited these roles and resisted such categorizations inventing their own particular subjectivities as Americans
