**Real Talk in Elementary Classrooms** Maureen P. Boyd, Lee Galda, 2011-07-07 Describing effective creative strategies for talking with students in ways that enhance literacy learning, this book offers a window into the classrooms of four exemplary teachers. Principles of productive classroom discussions are illustrated with detailed case examples. The book shows how and explains why real talk can enhance student engagement, foster critical thinking, promote mastery of literacy concepts, and instill a lasting love of reading. It offers ideas for selecting

children's literature and fitting a range of interactive literacy activities into the school day. The authors draw on current knowledge about the connections between oral language and literacy development across the elementary grades. **Equal Rights to the Curriculum** Eithne Gallagher, 2008-05-21. The parents of second language children are often seen but not heard in schools. This book is unique in addressing the many issues facing parents of children whose first language is different from that of the school classroom. Drawing on teaching theory, the book provides these parents with a wealth of practical information, guidelines, and checklists enabling them to ask schools intelligent and challenging questions to test whether their children's linguistic diversity is really being properly catered for. The theory review and best practice guidelines should be of value also to teacher trainers, teachers, administrators, and policy makers. They provide an accurate analysis of important issues together with pragmatic pointers towards improving educational practice so that all children growing up in a school's multicultural society will be guaranteed what they deserve. *Equal Rights to the Curriculum*

*Reconceptualising Authenticity for English as a Global Language* Richard S. Pinner, 2016-06-07. This book examines the concept of authentic English in today's world where cultures are in constant interaction and the English language works as a binding agent for many cross-cultural exchanges. It offers a comprehensive review of decades of debate around authenticity in language teaching and learning and attempts to synthesise the complexities by presenting them as a continuum. This continuum builds on the work of eminent scholars and combines them within a flexible framework that celebrates the process of interaction whilst acknowledging the complexity and individual subjectivity of authenticity. Authenticity is approached as a complex dynamic construct that can only be understood by examining it from social, individual, and contextual dimensions in relation to actual people. Authenticity is a problem not just for language acquisition but one which affects us as individuals belonging to society. **Talking to Learn** Pauline Jones, Jennifer Hammond, 2018-10-09. This book examines the place of talk in learning and the role of such talk in literacy education. It builds on a strong tradition of research into the role of talk in constructing curriculum knowledge, the relationship between talking and thinking, and the significance of extended in-depth dialogic interaction in classroom talk. However, it differs from tradition with its emphasis on the need to make the role of language in learning more visible and more explicit. This book places particular emphasis on the relationship between dialogic pedagogy and language-based approaches to learning. Contributions range from discussions on educational linguistics and dialogic pedagogy as complementary perspectives to needs of students for whom English is an additional language or dialect. This volume was originally published as a special issue of *Research Papers in Education*. *Authenticity in English Language Teaching* Leo Will, 2018. Authenticity is one of the most rampant buzzwords in ELT. English Language Teaching. Many have weighed in on what authenticity should mean and on how it may be achieved. The book at hand is an extensive analysis of authenticity as a term and as a concept within the academic field of ELT. The research data comprises virtually all definitions and conceptualizations of authenticity in the international ELT literature. However, only a limited

number of texts contributes to what can be called an explicit negotiation of authenticity. A discourse analytical approach is taken to disentangle the hubbub of commentaries and to eventually extrapolate from it six distinct concepts which are attached to the term authenticity. Michel Foucault's seminal theories are invoked, affording additional insights into discourse dynamics and power structures among individuals and institutions in ELT.

*English as a Lingua Franca* Anna Mauranen, Elina Ranta, 2009-10-02

*English as a lingua franca* has become a hot topic in Applied Linguistics and English Studies. While it has been a subject of controversy for some time, linguistic observations on actual use have largely been missing out of the debate. This is now changing fast, and the study of English as a lingua franca has become a vibrant research field. This book reflects achievements in the growing field; it presents a good selection of empirical findings, thus providing substance to arguments. It comprises contributions from pioneers and established scholars in the field, along with reports from substantial ongoing research projects. The papers offer insights into the workings of English as a lingua franca in different contexts: conversational, academic, professional, and business situations. They tackle essential theoretical issues, analyse linguistic and interactional features of ELF, and discuss attitudes towards ELF. The studies are firmly anchored in analyses of authentic language in social interaction, some also using survey and interview data. Many papers also touch upon debates on language policy and linguistic ideologies. This collection of papers from the key areas of current ELF research will be of interest to English linguists and applied linguists, graduate and undergraduate students of English, educational and language planners, and teachers of English.
