Todd Jr, 2012-08 For those who are new to the Christian faith or outside it this book raises questions asked over and over questions like Is there a God How do you know Who is man What is the point of life Hasn't modern science disproved the Bible If God is good why is there suffering in the world What's so special about Jesus Why do I feel lonely when I have so many friends What does it mean to be a Christian Why is the Church so full of hypocrites Love my neighbors I don't even like them What happens to us when we die What happens to all the good people who are not Christians With well organized discussions thoroughly documented references and clearly written answers to these questions Sam Todd guides you to understand both the Christian vision of life and way of life **The World Perceived** A. J. MACDONALD JR, 2009-08-05 How are we to make sense of the Bible in the context of the modern world In this book you will discover a new way of perceiving the world a way in which the biblical view of the world can be seen as just as true for us as the modern scientific view of the world The World Perceived explores how we think about the world how we perceive the world and how we choose to live our lives in the world Using phenomenology as a philosophical framework for the construction of a biblical theology of appearances the author illustrates how the biblical description of reality is of far greater relevance to us than are the descriptions of reality given to us by modern science and popular science writers By exploring the epistemological bases of both science and theology as a forms of knowledge along with the assumptions implicit within both worldviews The World Perceived invites the reader upon an intellectual journey into the world of phenomenal reality The author makes a strong case for the validity of the biblical description of the world and reality by demonstrating how the modern scientific description of the world and reality are in no way superior to the biblical description Using three examples of conflicting scientific and biblical descriptions of the world i.e the geocentric versus the heliocentric conception of the universe creation versus evolution and absolute time versus relative time The World Perceived demonstrates the Bible's relevancy to the modern world which is often hostile to both religion and the Bible like no other book on the market today
