McDonald, 2012-02-01 Hugh P McDonald s John Dewey and Environmental Philosophy breaks new ground by applying Dewey s insights to a new approach to philosophy of the environment the concern for the rights of animals the preservation of rare species habitats and landscapes and the health of the whole ecology The book summarizes much of the current literature on environmental ethics concentrating on the writings of major figures in the movement Tom Regan J Baird Callicott Holmes Rolston and Bryan Norton The heart of the book consists of a detailed analysis of Dewey s ethics his theory of intrinsic value and his holistic approach to moral justification Arguing against the idea that Dewey s philosophy is anthropocentric McDonald makes a strong case that using Dewey s philosophy will result in a superior framework for environmental ethics **Human Cognition and Social Agent Technology** Kerstin

Dautenhahn, 2000-03-15 Human Cognition and Social Agent Technology is written for readers who are curious about what human social cognition is and whether and how advanced software programs or robots can become social agents Topics addressed in 16 peer reviewed chapters by researchers at the forefront of agent research include Narrative intelligence and implementations of story telling systems socially situated avatars and conscious software agents cognitive architectures for socially intelligent agents agents with emotions design issues for interactive systems artificial life agents contributions to agent design from artistic practice and a Cognitive Technology view on living with socially intelligent agents The book addresses both software and robotic agents On the one hand justice is done to the scientific and technical aspects and on the

other hand the reader will learn about pioneering technological developments which are necessary for a public discourse and critical evaluation on where social agent technology is leading us and how such a development can be shaped in order to meet the social cultural and cognitive needs of humans The book is suitable for students researchers and everyone interested in this emerging and quickly growing field it does not require any specialist background knowledge Series B

The Mystery of Values Ludwig Grünberg, 2021-11-08 This study of axiology explores the axiocentricity of being human Human beings dwell in the realm of value Values are not simply what persons have values in large part are what persons are The mystique of values is analyzed here in terms of their cultural phenomenological and ontological status The relationship between science and values is debated Values should not be submitted to reductionism Postmodernism raises new problems for the future of a philosophy of values Yet we may direct our hopes toward happiness universalism and humanism as inseparable from value life

The Genealogy of Values Edward Andrew, 1995 Until the time of Karl Marx and John Stuart Mill philosophers generally held economics to be an integral element of moral philosophy These days the language of values moral aesthetic and cognitive dominates philosophic discourse even though contemporary philosophers rarely hold economics to be integral to moral philosophy Examining the thought of Friedrich Nietzsche and the art of Marcel Proust Edward Andrew provides the first sustained critical analysis of values discourse an analysis that deconstructs its content and its form

Encyclopedia of Ethics: P-W Lawrence C. Becker, Charlotte B. Psychology & Christianity Integration Daryl H. Stevenson, Brian E. Eck, Peter C. Hill, 2007

Phenomenology of Values and Valuing J.G. Hart, Lester Embree, 2013-04-17 Although a key aspect of the phenomenological movement is its contribution to value theory axiology and value perception almost all the

major figures devoted a great part of their labors to these topics there has been relatively little attention paid to these themes This volume in part makes up for this lacuna by being the first anthology on value theory in the phenomenological movement It indicates the scope of the issues by discussing e g the distinctive acts of valuing openness to value the objectivity of values the summation and combination of values the deconstruction of values the value of absence and the value of nature It also contains discussions of most of the major representative figures not only in their own right but also in relationship to one another Von Ehrenfels Brentano Scheler Hartmann Husserl Heidegger Schutz and Derrida Radical Axiology Hugh P. McDonald,2021-11-08 This book treats values as the basis for all of philosophy an approach distinct from critiquing theories of value and far rarer First Philosophy the effort to justify the foundations for a system of philosophy is one of the main issues that divide philosophers today McDonald s philosophy of values is a comprehensive attempt to replace philosophies of existence being experience the subject or language with a philosophy that locates value as most basic This transformation is a radical move within Western philosophy as a whole since it has never been done in such a thoroughgoing way Hugh P McDonald makes a comprehensive case against first philosophy as metaphysical by mounting a case against all metaphysical systems of philosophy Radical Axiology A First Philosophy of Values is a fresh start for a rebirth of philosophy While other movements debate the death of philosophy this book radically re evaluates the direction of philosophy by discovering values at the basis of all philosophy This reorientation addresses the question of what the love of wisdom can mean for us today **Encyclopedia of Ethics** Lawrence C. Becker,Charlotte B. Becker,2013-10-18 The editors working with a team of 325 renowned authorities in the field of ethics have revised expanded and updated this classic encyclopedia Along with the addition of 150 new entries all of the original articles have been newly peer reviewed and revised bibliographies have been updated throughout and the overall design of the work has been enhanced for easier access to cross references and other reference features New entries include Cheating Dirty hands Gay ethics Holocaust Journalism Political correctness and many more **The Language of War** James Dawes,2009-07 Focusing on American literature from the Civil War World War I and World War II Dawes develops two primary questions How does the strategic violence of war affect literary legal and philosophical representations And in turn how do such representations affect the reception and initiation of violence itself **Value Theory** Deshun Li,2013-07-12 Humankind s progress has always been driven by two momentums the pursuit of truth and the creation of value But our understanding of value and our ability to reflect on its complexity has long lagged behind our constant search for truth This has in turn limited our grasp of the essence of truth This book takes philosophical contemplations on value to a new level while also explicating some contemporary Chinese styles of philosophical thought Over the past 25 years this book has been having an increasing impact on Chinese readers and researchers and it also provides a good platform for international dialogue on several key issues of philosophical studies
