Rearrangements Thomas J. Courchene, 1995 **Rearrangements** Thomas J. Courchene, 1992 Contents Introduction What Does Ontario Want The Coming of Age of John P Robarts Confederation of Tomorrow Conference Forever Amber The Community of the Canadas A First Nations Province Global Competitiveness and the Canadian Federation Grappling with Mobility The Role of the State as a Regulator of Financial Institutions Zero Means Almost Nothing Towards a Preferable Inflation and Macro Stance Canada 1992 Political Denouement or Economic Renaissance In Praise of Renewed Federalism

The Secession of Quebec and the Future of Canada Robert Andrew Young, 1998 Based on the premises that Quebecers vote for independence in a referendum and Canada accepts this result The Secession of Quebec and the Future of Canada is a timely examination of the implications of separation for Quebec and the rest of Canada Secession of Quebec and the Future of Canada Robert Young, 1995-01-23 Robert Young discusses the ways in which Canadians might reconstitute their country after Quebec separates and considers possible political and economic arrangements between Quebec and Canada the association aspect of sovereignty association including the breakdown of economic cooperation Arguing that the long term future of Canada and the shape of Canada Quebec relations will depend on how the transition to sovereignty takes place Young provides a clear and detailed analysis of how the transition is likely to occur His discussion addresses major issues to be negotiated during the secession citizenship national debt borders armed forces and public service commercial and economic relations currency First Nations minority rights mobility and immigration and environmental matters For comparison Young draws on the experiences of other countries where peaceful secession has occurred including Czechoslovakia The second edition includes a new preface and concluding chapter that discuss to what extent the situation has changed since the referendum of 1995 **Thinking Outside the Box** Keith G. Banting, Richard P. Chaykowski, Steven F. Lehrer, 2015-11-30 Building on the work presented in Styran and Taylor's This Great National Object which told the story of the first three Welland canals built in the nineteenth century This Colossal Project chronicles an impressive milestone in the history of Canadian technological achievement and nation building **Unusual Suspects** Gilles Paquet, 2022-08-10 Unusual Suspects Essays on Social Learning looks into the forces at work that have undermined critical thinking and sound intellectual inquiry in the world of public affairs in Canada have fostered reductive perspectives and destructive blockages to collaborative governance to emerge and have succeeded in blinding observers to the real sources of the present Canadian malaise blocking the road to imaginative repairs Part I deals frontally with the twilight of critical thinking that has led to a dramatic weakening of the critical examination of issues and the process of inquiry that has been significantly weakened by ever narrower perspectives Part II focuses on two mental prisons the obsessive and reductive insistence on a quantophrenic twist only that which can be quantified counts and the failure by crucial partners to live up to the requirements of their burden of office in circumstances when disloyalty considerably enfeebles the possibility of effective collaborative governance

and the chance for organizations to succeed Part III suggests that it is not impossible to get rid of the blinders preventing the adoption of more synoptic approaches and the exploration of more imaginative designs to repair our organizations and institutions Ways to deal with the challenges facing the Canadian socio economy are hinted at and the work of a successful social architect showcased The conclusion makes the case for an approach that is both synoptic and guided by reasonableness against the dogmas of disciplines and skimpy rationality

Modern State Intervention in the Era of Globalisation Nikolaos Karagiannis, Zagros Madjd-Sadjadi, 2007-06-26 Modern State Intervention in the Era of Globalisation is a thoughtful and well researched assessment of the evolving role of the state in the contemporary world economy This work is provocative because it goes against the predominant arguments in favor of a minimal state as commonly asserted by neoclassical economics Instead Karagiannis and Madjd Sadjadi think outside of the box and produce both theoretical arguments and evidence from important cases such as the EU Singapore and Hong Kong to support the idea of a viable and continuing role for the Developmental State The scholarship underlying this very readable book which includes contemporary material as well as ancient economic thought is truly impressive Readers will be left with much to reconsider about the benefits of globalisation Patrick James University of Southern California US

In the Long Run We're All Dead Timothy Lewis, 2007-10-01 In *The Long Run We're All Dead* The Canadian Turn to Fiscal Restraint offers the first comprehensive scholarly account of this vital public policy issue Lewis deftly analyzes the history of deficit finance from before Confederation through Canada's postwar Keynesianism to the retrenchment of the Mulroney and Chrétien years In doing so he illuminates how the political conditions for Ottawa's deficit elimination in the 1990s materialized after over 20 consecutive years in the red and how the decline of Canadian Keynesianism has made way for the emergence of politics organized around balanced budgets

Towards North American Monetary Union? Eric Helleiner, 2006 Many believe that Canada's deepening economic integration with the United States and the worldwide trend towards currency blocs will eventually lead to a North American monetary union In the first detailed analysis of Canadian exchange rate politics Eric Helleiner challenges this view Helleiner finds little support in the US for the concessions that would be necessary to make a North American monetary union palatable in Canada Comparing the US Federal Reserve and the European Monetary Union he argues that Canada would exercise far less influence within a North American monetary union than individual countries do within the European community He also analyses the seemingly paradoxical support of Quebec sovereignists for free trade and monetary union

Towards North American Monetary Union explores Canada's unusually strong commitment throughout the twentieth century to a floating exchange rate for its national currency a commitment that Helleiner argues is likely to endure

Seeking a New Canadian Partnership F. Leslie Seidle, Institute for Research on Public Policy, 1994 This document presents asymmetrical and confederal options regarding a new partnership Topics covered are brinkmanship and renewal of Canadian federalism toward a multinational federalism flexibility within the present constitutional framework and the challenge of

A much discussed bestseller in Quebec The Trickster tells the inside story of political events in that province during the tumultuous two years that followed the defeat of Meech Lake As support for Quebec sovereignty reached record proportions Premier Robert Bourassa had a clear opportunity to lead his province out of Confederation For months he led Quebecers to believe that he was moving in this direction while he privately assured prominent English Canadians that he was loyal to federalism Based on interviews with a wide range of political figures strategists pollsters and researchers The Trickster is an unparalleled examination of a crucial period in Quebec s history
