

been. The Enlightenment ideal of transparent classification, the universal library, must be abandoned along with any messianic pursuit of an eschatological purity. It must be replaced by an ideal of hospitality ('hospitalière langagière') which combines love of one's own language with acceptance of otherness. Resistance is motivated by fear and hatred of the outsider, seen as a menace to our linguistic heritage and identity. The movement between languages may appear insurmountable (as in Chomsky, 'bien infranchissable'), but the empirical rejoinder is in this case a devastating one: since translation exists it must be possible. This in turn becomes the ethical ideal of conduct to others within one's own language, towards those who are not strangers: it is always possible to say the same thing otherwise ('autrement dit', perhaps better translated as to and for the other, otherly).

The interest of this recent position lies partly in its reformulation of Ricoeur's earlier hermeneutics founded on the dialectic of explanation and understanding of writing conceived in terms of singular artefacts. Instead of a move to generalized textuality (or linguisticity if one prefers Gadamer), it now posits endless transitions between specific writings. Rather than the deconstructive or Heideggerian unmasking of false

origins, acceptance of our condition within writing (as 'nomads errants') implies an opportunity for creative reconstruction and ethical openness to the other. Writing implies writings. This in turn entails a world of divergent but not therefore hostile or incompatible languages and traditions: comprehension of that multiplicity may then become a model for ethical openness to the other both within and outside our own heritages.

The Politics of Metaphor

Don Miller

Keywords boundary, common sense, politics

Metaphor, like any good metaphor, has more than one face: it is, after all, the very stuff of possible worlds promised or denied. It may free or imprison us; it may trumpet its presence or infiltrate unnoticed. We are understandably ambivalent. One moment it appears to be the embodiment of language; the next its betrayer. It indeed troubles us. Little wonder that metaphor can suddenly be seen as the foundation metaphor of politics itself.

There are two related vectors of the politics of metaphor. One is the ostensibly academic question of the place of metaphor, and hence its meaning. Common western thought still welcomes metaphor, after Aristotle, as an attractive accoutrement of things rhetorical but of having no place in other discourse. We are instantly in the politics

of boundaries. Conventional wisdom (and common academic practice) today still insists that metaphor stay in its proper place; elsewhere it is persona non grata.

The Greek tradition gives the modern world a second lean on the issue. Aristotle also saw metaphor as providing a change in perspective, of telling us something new. It is not just a manner of words, it is about thoughts, new thoughts. He was lavish in its praise: it is 'one thing that cannot be learned from others – it is a sign of genius – [it] implies an intuitive perception of the similarity in dissimilars'. Paul Ricoeur, like many others, echoes this sentiment today.

The face of the metaphoric new is one of strangeness, even of a disconcerting incongruity. It upsets the established order. New metaphors may well enthuse those ready to pursue difference; but they frighten others wanting to maintain some existing order of things. Two political moves regularly follow.

Reason Of Metaphor A Study In Politics:

Political Metaphor Analysis Andreas Musolff, 2016-08-25 Political metaphors and related figurative discourse tools are characterised by their variability and contentiousness Using them discourse participants try to gain competitive advantage over others by offering their audiences new meaning nuances challenging each other and announcing political initiatives It is here that metaphor as a means to change meanings and thus to change social and political reality comes into its own Political Metaphor Analysis provides an innovative approach to the study of figurative language use in political discourse by presenting empirical analyses based on a large corpus of political metaphors and metonymies linking these analyses to theoretical positions and assessing their limitations and perspectives for further exploration The classic model of conceptual metaphor analysis pioneered by Lakoff and Johnson 1980 and expanded and amended over the past thirty five years is critically examined with regard to new findings about the variation historicity pragmatic exploitation comprehension and interpretation of metaphors As a central new analytical category the notion of metaphor scenario is proposed and tested against various sub sets of data It allows to link hypothesised conceptual metaphors to narrative argumentative and evaluative patterns in actual discourse and understanding processes so that their cognitive significance can be more reliably gauged and theoretically modelled *Metaphor Studies: Theories, Methods, Approaches, and Future Perspectives* Ilaria Rizzato, Valentina Cuccio, Aletta Gesina Dorst, 2024-12-12 Metaphor has been studied as a linguistic conceptual and communicative phenomenon in a wide range of disciplines including linguistics literary studies philosophy education political science media studies communication science psychology and neurosciences While the Cognitive Theory of Metaphor has dominated the field since the cognitive turn in the 1980s alternatives have been proposed including the Neural Theory of Metaphor the Relevance Theory Approach the Complex Systems Approach and the Dynamic Systems Approach Though studies are still often text based there is a growing body of research on visual metaphor multimodal metaphor and gestural metaphor as well as experimental research ranging from studies on metaphor processing and comprehension to studies in NLP and machine learning Metaphor Studies is thus a highly interdisciplinary field that encompasses a myriad of theories approaches and methods In current metaphor research each of these strands is facing new challenges and offering new venues of cutting edge research using state of the art technologies Researchers tend to focus on their own research areas and provide in depth views within the scope of their own disciplines Metaphor Studies do not seem to escape this phenomenon in spite of the large number of disciplines they draw on ranging from linguistics to psychology to the theory of science Hence there seem to be little cooperation and communication across different fields methods and approaches having metaphors and figurative language as their main object of investigation This Research Topic aims to promote cross fertilization among the many research areas involved in Metaphor Studies thus bringing together different methods and perspectives and offering a comprehensive overview of the possible research scenarios **Slowing Metaphor Down**

European integration elucidating differences in UK and German attitudes and argumentation The corpus analysis leads to a refinement of cognitive metaphor theory by systematically relating conceptual semantic and argumentation levels and incorporating the historical dimension of metaphor evolution Finally drawing on examples of metaphor negotiation and on a reassessment of Hobbes concept of metaphor in Leviathan the book highlights the ethical dimension of metaphor in politics

Variation in Political Metaphor Julien Perrez,Min Reuchamps,Paul H. Thibodeau,2019-08-06 The objective of this book is to understand variation in political metaphor Political metaphors are distinctive and important because they are used to achieve political goals to persuade to shape expectations to realize specific objectives and actions The analyses in the book go beyond the mere identification of conceptual metaphors in discourse to show how political metaphors function in the real world It starts from the finding that the same conceptual domains are used to characterize politics political entities and political issues Yet the specific metaphors used to describe these conceptual domains often change This book explores some of the reasons for this variation including features of political leaders e g their age and gender countries and other sociopolitical circumstances This perspective yields a better understanding of the role s of metaphors in political discourse

Kantian Theory and Human Rights Andreas Follesdal, Reidar Maliks, 2013-11-12 Human rights and the courts and tribunals that protect them are increasingly part of our moral legal and political circumstances The growing salience of human rights has recently brought the question of their philosophical foundation to the foreground Theorists of human rights often assume that their ideal can be traced to the philosophy of Immanuel Kant and his view of humans as ends in themselves Yet few have attempted to explore exactly how human rights should be understood in a Kantian framework The scholars in this book have gathered to fill this gap At the center of Kant's theory of rights is a view of freedom as independence from domination The chapters explore the significance of this theory for the nature of human rights their justification and the legitimacy of international human rights courts

Reconstituting the Body Politic Jonathan M. Hess, 1999 The concept that art must have no instrumental function is a doctrine traditionally traced back to Kant's Critique of Judgment In *Reconstituting the Body Politic* Jonathan Hess proposes that this concept of autonomous art marks not a withdrawal from the political realm but the ultimate embodiment of Enlightenment political culture a response to a crisis in the institution idealized by Jurgen Habermas as the bourgeois public sphere In *Reconstituting the Body Politic* Hess explores the moment in late eighteenth century Germany that witnessed the emergence of two concepts that marked the modern era the political concept of the public sphere and the doctrine of aesthetic autonomy By considering the extent to which at its very inception the concept of aesthetic autonomy is inextricably intertwined with the emergence of the concept of the public sphere he offers both a historical study of the political conditions that produced this concept and a contribution to contemporary literary and political theory Reading texts by Kant alongside the writings of contemporaries like Karl Philipp Moritz Hess examines a wide variety of eighteenth century texts discourses and institutions He then enters into a critical dialogue with Walter Benjamin Reinhart Koselleck and Jurgen Habermas to articulate a political critique of this aesthetic The aesthetic theory of Kant's Critique emerges not as a mere defense of the disinterestedness of aesthetic pleasure but as an engaged response to the political limitations of public culture during the Enlightenment Hess argues for an understanding of these concepts as functionally interdependent and he reflects on what this interdependence might mean for the practice of literary and cultural criticism today His work will interest not only Germanists and critical theorists but also art historians and historians of philosophy and political thought

Meaning-Making and Political Campaign Advertising Dorothea Horst, 2018-10-22 Although recent linguistic and media studies research has increasingly dealt with forms of imagery beyond language such as in audiovisual formats only little attention has been paid to the specific media character of audiovisual images This raises a theoretical as well as methodological problem How can processes of figurative meaning making in audiovisual media be adequately conceptualized and described The book intends to bridge this research gap with an analysis of campaign commercials a hitherto largely underexplored object of study in metaphor and metonymy research To achieve this goal a transdisciplinary film analytical and cognitive linguistic account of audiovisual figurativity is developed and

examined through a comparative analysis of figurative meaning making processes in German and Polish campaign commercials from 2009 and 2011 By setting the inseparable intertwining of language and cinematic staging sensing and understanding center stage the book provides insight into the dynamic nature and embodied affective grounds of audiovisual figurativity and challenges the long known dichotomies of rational discourse and affective manipulation political message and media effect
