Reasoned Argument In Social Science Linking Research To Policy:

Reasoned Argument in Social Science Eugene Meehan, 1981-05-22 A Systems-Based Approach to Policymaking

Kenyon B. de Greene, 2012-12-06 This book is based on a number of systems concepts of which the following are emphasized here: oThe interacting systems of society and the environment are dynamic and evolutionary oEvolution of these systems carries them through stages of differential stability and instability continuity and discontinuity oAssociated with evolution and instability is structural change that is essentially irreversible oThe present is a stage of world transformation that may not have been equaled for decades or even centuries oPolicies and decisions must match the times in the present case the stage of world transformation The time 11 59 59 PM approximately on December 31 2000 has an important symbolic meaning It marks the end of a minute the end of an hour the end of a day the end of a year the end of a decade the end of a century and the end of a millennium The time and date provide a convenient yardstick against which we can evaluate the evolution of our thinking and the adequacy of our assumptions mental models paradigms and policies Will the beginning turn out to be appropriately different from the end We hope that this book is helpful in such evaluation This is a new paradigm book which both presents and advances the new way of thinking about the systems of science technology society economics politics and the environment and actively calls for the replacement of the worn out cognitive sociotechnical paradigm The Social Engagement of Social Science, a Tavistock Anthology, Volume 3 Eric Trist, Hugh Murray, Beulah Trist, 2016-01-14 World War II brought together a group of psychiatrists and clinical and social psychologists in the British Army who developed a number of radical action oriented organizational innovations in social psychiatry They became known as the Tavistock Group since the core members had been at the pre war Tavistock Clinic At the post war Tavistock Institute of Human Relations they developed a pioneering mode of relating theory and practice called in these volumes The Social Engagement of Social Science Previous volumes presented two of three interdependent perspectives the socio psychological Volume I 1990 and the socio technical Volume II 1993 The latest volume on the socio ecological perspective completes the set The socio ecological perspective is concerned with the coevolution of systems and their environments It considers the broader environment which shapes not only the task environments of socio technical organizations but the institutional and cultural environment that confronts the individual Volume III focuses on nonhierarchical forms of organization facilitating inter organizational relations in complex and rapidly changing environments This perspective provides a guide to institution building for the future *The Impact of Policy Analysis* James M. Rogers, 2010-11-23 Government agencies spend billions of dollars each year for policy analysis with the expectation that improved policy will follow Although civil servants conduct some analysis themselves more frequently they contract with research organizations to assess the probable consequences of new social policies and to answer other policy questions James M Rogers develops a theory that explains and predicts the impact of policy analysis He illustrates his theory through welfare reform where policy analysis is caught in political warfare

and has little chance to improve actual policy During the 1960s and 1970s over 108 million was spent on four unprecedented social scientific experiments to test the effectiveness of a major proposal to reform the welfare system Now out of favor the negative income tax was then considered to be an appealing alternative to welfare Starting in New Jersey and Pennsylvania during the Johnson administration the experimental research continued through Carter's term and helped to keep reform proposal and research organizations alive This book examines the results of these experiments and their effect on Carter's reform attempt the Program for Better Jobs and Income One of the author's main conclusions concerns the role of value conflict If there is strong disagreement within society over the goals of policy analysis will seldom change the minds of decision makers or influence policy Policy analysis is more likely to influence thinking and policy if the issue involves low conflict

The Making of Telecommunications Policy Dick Olufs, 1999 The Making of Telecommunications Policy examines the history politics and impact of telecommunications policy Beginning with a comparison of several alternate views of the future Olufs explains how government action makes the widespread use of some new technologies more likely than others He details the challenges that rapid advances in communications technologies pose for policymaking institutions and considers the ways that government responds to the ideological economic and political interests of industry private advocacy groups and individuals Olufs discussed the recent trend toward deregulation and provides a full analysis of the Telecommunications Act of 1996 including the politics of its enactment and its long term implications for both industry and the daily lives of citizens

The Social Engagement of Social Science, Volume 3 Eric Trist, Hugh Murray, Frederick Edmund Emery, 1990 World War II brought together a group of psychiatrists and clinical and social psychologists in the British Army who developed a number of radical action oriented organizational innovations in social psychiatry They became known as the Tavistock Group since the core members had been at the pre war Tavistock Clinic At the post war Tavistock Institute of Human Relations they developed a pioneering mode of relating theory and practice called in these volumes The Social Engagement of Social Science Previous volumes presented two of three interdependent perspectives the socio psychological Volume I 1990 and the socio technical Volume II 1993 The latest volume on the socio ecological perspective completes the set The socio ecological perspective is concerned with the coevolution of systems and their environments It considers the broader environment which shapes not only the task environments of socio technical organizations but the institutional and cultural environment that confronts the individual Volume III focuses on nonhierarchical forms of organization facilitating inter organizational relations in complex and rapidly changing environments This perspective provides a guide to institution building for the future

The Explanatory Power of Models Robert Franck, 2013-11-11 Empirical research often lacks theory This book progressively works out a method of constructing models which can bridge the gap between empirical and theoretical research in the social sciences This might improve the explanatory power of models The issue is quite novel and it benefited from a thorough examination of statistical and mathematical models conceptual models diagrams and maps machines computer simulations and artificial neural networks These modelling practices have been approached through different disciplines The proposed method is partly inspired by reverse engineering The standard covering law approach is abandoned and classical induction restored to its rightful place It helps to solve several difficulties which impact upon the social sciences today for example how to extend an explanatory model to new phenomena how to establish laws and how to guide the choice of a conceptual structure The book can be used for advanced courses in research methods in the social sciences and in philosophy of science

Social Security Bulletin , 1981 Model-Based Demography Thomas K. Burch, 2017-10-14 Late in a career of more than sixty years Thomas Burch an internationally known social demographer undertook a wide ranging methodological critique of demography This open access volume contains a selection of resulting papers some previously unpublished some published but not readily accessible from past meetings of The International Union for the Scientific Study of Population and its research committees or from other small conferences and seminars Rejecting the idea that demography is simply a branch of applied statistics his work views it as an autonomous and complete scientific discipline When viewed from the perspective of modern philosophy of science specifically the semantic or model based school demography is a balanced discipline with a rich body of techniques and data but also with more and better theories than generally recognized As demonstrated in this book some demographic techniques can also be seen as theoretical models and some substantive behavioral models commonly rejected as theory because of inconsistent observations are now seen as valuable theoretical models for example demographic transition theory This book shows how demography can build a strong

theoretical edifice on its broad and deep empirical foundation by adoption of the model based approach to science But the full fruits of this approach will require demographers to make greater use of computer modeling both macro and micro simulation in the statement and manipulation of theoretical ideas as well as for numerical computation This book is open access under a CC BY license **Crime Policy in America** Shahid M. Shahidullah,2015-11-21 The second edition of Crime Policy in America describes the process of policy making and the substantive nature of policy directions in crime and justice in America particularly from the beginning of the 1970s This book examines the nature of presidential policy making in crime and justice from Nixon to Obama congressional policy making since the birth of the Bill of Rights and judicial policy making since the promulgation of the Judicial Act of 1789 The perspective of this book is deeply historical sociological and legalistic Historically the book has explored the evolution of different policy strategies at different periods of American history sociologically it scrutinized the impact of the get tough policy paradigm on crime and justice and from a legal perspective it has examined the conflict and the consensus of Congress and the federal judiciary on different issues of crime and justice from drug crimes to sex crimes to counterterrorism The second edition of the book has particularly illuminated the changing directions of US crime policy from the dominance of the get tough approach in the 1980s and 1990s to a more balanced approach to crime control and prevention in the beginning of the 21st century **From the Kitchen to the Parlor** Lanita Jacobs-Huey,2006-04-20 When is hair just hair and when is it not just hair Documenting the politics of African American women s hair this multi sited linguistic ethnography explores everyday interaction in beauty parlors Internet discussions comedy clubs and other contexts to illuminate how and why hair matters in African American women s day to day experiences **Everyday Injustice** Maria Chávez,2011-07-15 As members of the fastest growing demographic group in America Latinos are increasingly represented in the professional class but they continue to face significant racism Everyday Injustice introduces readers to the challenges facing Latino professionals today Despite considerable success in overcoming educational economic and class barriers Latino professionals still experience marginalization Everyday Injustice is a powerful illustration of racism and inequality in America **Sociology** ,1982 *Strip Mining, Environmental Aspects* Ina J. Weis,1982 **Management Laureates** Arthur G. Bedeian,2018-04-17 First published in 1993 This volume compiles the autobiographies of the management discipline s most distinguished laureates Prior to this publication the available management literature provided little insight into the personal and intellectual lives the frustrations as well as the triumphs of the individuals in the management discipline Although such understanding could be conveyed in many forms perhaps the most intimate and fascinating of these for gaining behind the scenes insights is the autobiography Thus the autobiographies in this volume as in the five companion volumes offer the reader not only a glimpse of the subjective determinants and personal experiences of the management discipline s most distinguished laureates but also a deeper understanding of what management is and what it is becoming The various accounts reflect a diversity of approaches interests and experiences

The Thinking Game Eugene J. Meehan, 1988 This text provides a generalized framework for understanding how knowledge is developed acquired tested and applied to human affairs enabling the reader to evaluate and criticize the thinking process
