Reassessing Asean:

Reassessing ASEAN Jeannie Henderson, 2014-02-25 With the accession of Cambodia in April 1999 the Association of South East Asian Nations ASEAN finally achieved its founding vision the incorporation of all ten South east Asian states However ASEAN 10 faces an unprecedented series of challenges stemming from the organization's rapid enlargement since 1995 economic crisis among key members and political upheavals in Indonesia its largest and most important member ASEAN in 1999 is a pale imitation of the more confident organization which emerged from the end of the Cold War as one of the world's most successful experiments in regionalism This paper asks whether ASEAN can remain relevant to the management of regional problems

ASEAN Regionalism Christopher B. Roberts, 2012-03-15 This book examines the key motivations for and challenges to greater regional integration in Southeast Asia It demonstrates how security and economic concerns domestic regional and international have either contributed to or detracted from an increased level of unity and cooperation in ASEAN It also explores how the patterns of interaction and socialization generated by these issues together with the nature of domestic political systems have affected the emergence of common values norms and interests It covers the full range of issues confronting ASEAN at present and the full range of ASEAN countries and discusses both developments in ASEAN to date and also likely future developments

ASEAN's Myanmar Crisis Christopher Roberts, 2010 In line with recent reviews of policy by Aung San Suu Kyi and the U S Government ASEAN's Myanmar Crisis Challenges to the Pursuit of a Security Community provides a clear and innovative analysis of why it is necessary to reassess regional and international approaches to Myanmar For the first time this book also reveals the full extent to which Myanmar has challenged the solidarity and development of ASEAN itself This is a must read for anyone interested in either Myanmar or the future In line with recent reviews of policy by Aung San Suu Kyi and the U S Government ASEAN's Myanmar Cr

Roadmap to an ASEAN Economic Community Denis Hew Wei-Yen, 2005 At the Ninth ASEAN Summit in Bali on 7 October 2003 the leaders of the Association of Southeast Asian Nations agreed to establish an ASEAN Economic Community AEC by 2020 It is envisaged that the AEC would be a single market and production base with a free flow of goods and services investments capital and skilled labour An integrated ASEAN with a sizeable market of over 500 million people could become an alternative to China as a regional production base for MNCs Although there are roadmaps for the fast track integration of eleven priority sectors an overall longer term roadmap needs to be formulated to realize the AEC This book addresses the main issues

Institutionalizing East Asia Alice D. Ba, Cheng-Chwee Kuik, Sueo Sudo, 2016-03-10 Institutional activities have remarkably transformed East Asia a region once known for the absence of regionalism and regime building efforts Yet the dynamics of this Asian institutionalization have remained an understudied area of research This book offers one of the first scholarly attempts to clarify what constitutes institutionalization in East Asia and to systematically trace the origins discern the features and analyze the prospects of ongoing institutionalization processes in the world's most dynamic region

Institutionalizing East Asia comprises eight essays grouped thematically into three sections Part I considers East and Southeast Asia as focal points of inter state exchanges and traces the institutionalization of inter state cooperation first among the Southeast Asian states and then among those of the wider East Asia Part II examines the institutionalization of regional collaboration in four domains economy security natural disaster relief and ethnic conflict management Part III discusses the institutionalization dynamics at the sub regional and inter regional levels The essays in this book offer a useful source of reference for scholars and researchers specializing in East Asia regional architecture and institution building in international relations They will also be of interest to postgraduate and research students interested in ASEAN the drivers and limits of international cooperation as well as the role of regional multilateralism in the Asia Pacific region

Regional Security in Southeast Asia Mely Caballero Anthony, 2005 The book examines ASEAN's mechanisms in managing challenges and threats to regional security Its extensive analyses of the ASEAN story of managing regional security cover the different phases of ASEAN's development as a regional organization and explore the perceptible changes that have occurred in regional mechanisms of conflict management The book also examines the roles of relevant actors beyond the states of ASEAN and the key interactions that have evolved over time which have been instrumental in moving regional mechanisms beyond the ASEAN way The book argues that the ASEAN way has not been impervious to change As the association finds its way through periods of crises and continues to confront the many challenges ahead ASEAN and its mechanisms are already being transformed beyond the narrow confines of the modalities associated with the ASEAN way The changes in the political and security landscape of the region as well as the democratic transitions taking place in some member states have set the stage for a much more dynamic set of regional actors and processes that bring into question the kind of regionalism that is now taking place in the region the way regionalism is changing in Southeast Asia

Understanding ASEAN's Role in Asia-Pacific Order Robert Yates, 2019-03-25 This book assesses the important role of the Association of Southeast Asian Nations ASEAN in the management of regional political security and economic relations The author argues that ASEAN's prominent role in the region spanning 50 years is largely due to the acquiescence of the great powers who endorsed ASEAN accepted its regional position and accorded the institution a legitimacy and durability that otherwise it would not have This text offers a key intervention into the debate regarding ASEAN and regional order by showing how ASEAN's contribution to order management is part of a negotiated division of labour with the great powers The author applies an innovative social roles analysis which captures the dynamic interactions between ASEAN and the great powers from the Cold War to the present day

A Selective Approach to Establishing a Human Rights Mechanism in Southeast Asia Hao Duy Phan, 2012-02-03 This book proposes a selective approach for states with more advanced human rights protection to establish a human rights court for Southeast Asia It argues the inclusive approach currently employed by ASEAN to set up a human rights body covering all member states cannot produce a strong regional human rights mechanism The mosaic of Southeast

Asia reveals great diversity and high complexity in political regimes human rights practice and participation by regional states in the global legal human rights framework Cooperation among ASEAN members to protect and promote human rights remains limited The time honored principle of non interference and the ASEAN Way still predominate in relations within ASEAN These factors combine to explain why the ASEAN Intergovernmental Commission on Human Rights is unlikely to be strong and effective in changing and promoting regional human rights protection This book suggests a selective approach to establish a human rights court for Southeast Asia It posits that a group of nations within Southeast Asia may be more willing to consider the possibility of a stronger human rights mechanism It investigates the challenges to and the feasibility of such a proposal Furthermore it examines the design of the three existing regional human rights courts in Europe the Americas and Africa and compares the rationales for those institutional designs with the specific context of Southeast Asia A human rights court for all ASEAN members may not be possible at this time but a court for some nations in the region is feasible and worth exploring The path towards this goal is never an easy one however the region possesses the necessary conditions to gradually translate that goal into reality

ASEAN's Diplomatic and Security Culture Jurgen Haacke, 2013-05-13 Member states of ASEAN the Association of South East Asian Nations have developed a distinctive approach to political and security co operation which builds on the principles of sovereign equality non intervention and non interference quiet diplomacy mutual respect and the principle of not involving ASEAN in mediating bilateral disputes among the membership This book examines the origins of ASEAN s diplomatic and security culture and analyses how over time its key principles have been practised and contested as ASEAN states have responded to regional conflicts as well as challenges posed by the major regional powers ASEAN s enlargement and the Asian financial crisis The book goes on to assess whether ASEAN s diplomatic and security culture is likely to remain salient as the political economic and security context in which regional leaderships operate is undergoing further change

Rivalry And Cooperation In The Asia-Pacific: The Dynamics Of A Region In Transition (In 2 Volumes) Mark Beeson, 2019-09-23 Rivalry and Cooperation in the Asia Pacific provides a comprehensive and accessible introduction to the most important strategic and economic region in the world Asia Pacific is a region that is undergoing a major transformation largely as a consequence of the rise of China and its growing rivalry with the United States Whatever happens in the Asia Pacific will profoundly influence global events not just regional ones Looking ahead the region s future direction and even its name is contested and uncertain This two volume reference work by one of the world s leading analysts of regional affairs places these events in historical context and considers what they may mean for future political economic and strategic relations By focusing on the United States China and the region s most significant middle powers the book explains why and how the Asia Pacific has become the fulcrum of international events

Regionalism in Southeast Asia Nicholas Tarling, 2006-09-27 Regionalism in Southeast Asia provides the reader with an historical analysis of Southeast Asia from the distinct perspective of regionalism Southeast Asian history is usually written from a national point of

view which underplays the links between neighbouring states and nations and the effects of these bonds on the development of regionalism This innovative book begins by defining the meaning of region and regionalism and then applies it to periods in history in Southeast Asia looking at how patterns of regionalism have shifted through time to the present day By focusing on the regional perspective Nicholas Tarling gives an original treatment of Southeast Asian history its political dynamics and its international relations Regionalism in Southeast Asia completes a trilogy of books on Southeast Asia by Nicholas Tarling published by Routledge the other two are Nationalism in Southeast Asia and Imperialism in Southeast Asia The International Relations of Japan and South East Asia Sueo Sudo, 2013-01-11 The International Relations of Japan and South East Asia asks three main questions how and when has a new South East Asian regionalism been set in motion what is the nature of Japanese leadership and networking in maintaining and promoting that new regionalism and given the current economic and political crisis what will happen to regionalism in the future This work is an invaluable resource for students and scholars as it gives a complete overview of Japanese foreign policy and Japan South East Asian relations

International Economic Integration: Integration schemes Miroslav Jovanovic, 1998 *Readings in World Development* Kartik Chandra Roy, Srikanta Chatterjee, 2006 Institutions of the Asia-Pacific Mark Beeson, 2008-08-18 The Asia Pacific region is home to the world's largest economies and some of its most volatile strategic relationships But for all its geopolitical importance it has generally failed to develop the sorts of powerful and effective institutions that are found in Western Europe This book explains why and considers the prospects for future institutional development in this pivotal region *Interference in Sovereign Affairs and the Discursive Economy of International Law* Frédéric Mégret, 2025-02-10 Interference in sovereign affairs is seemingly everywhere but nowhere at the same time Whether it is pressure on or corruption of public officials conditionality in development assistance criticism of one's human rights record psychological or propaganda operations instrumentalization of diasporas international organization supervision or meddling diplomats the phenomenon is as amorphous as it is diffuse But what if it was the lens that we use to capture interference that was the problem How do the tools we use in international law blind us to the reality of certain phenomena The urgency of understanding interference on its terms has never been greater and it requires nothing less than a reimagining of the sort of discursive investments on which international law rests **Power Shift** David Shambaugh, 2006-01-17 The dynamics of international relations in Asia are undergoing broad and fundamental changes that are reverberating around the world Primary among the catalysts of change in the region is the rise of China as the engine of regional economic growth as a major military power as a significant voice in regional diplomacy and as a proactive power in multilateral institutions With in depth assessments by seventeen of the world's leading experts on China's foreign relations this groundbreaking volume offers the most timely up to date and comprehensive analysis of China's emerging influence on international relations in Asia The contributors explore the various dimensions of China's rise its influence on the region the consequences for the United

States and alternative models of the evolving Asian order What emerges is a clear picture of China increasingly at the center of the regional web while North Korean and Taiwan could erupt in conflict the predominant trend in Asia is the creation of an extensive web of mutual interdependence among states and non state actors Providing the best overview we currently have of the changing political balance on the Asian continent this accessible volume will be essential reading for anyone concerned with contemporary Asian affairs *Regional Integration in East Asia and Europe* Bertrand Fort,Douglas Webber,2006-06-19

A fascinating insight into how regional organizations in Europe and East Asia are currently grappling with a striking number of essentially similar challenges This issue based overview of political integration focuses on the differences and similarities in regional integration levels and processes in the two regions to examine how the long term future role and impact of organizations such as the EU and ASEAN may depend heavily on how well they deal with complex and conflict laden issues in the next few years This volume analyzes the historical development current state and prospective future evolution of political integration in the two regions These leading authors identify key variables that account for the contrasting political integration levels clearly demonstrating and explaining why the rhythm of integration in both regions varies With contributions from both Asian and European scholars on each topic this book delivers comparative rather than a single region focus breakdowns of regional integration into key issue areas analysis of monetary cooperation and integration incisive assessments of institutional reform key topics of enlargement including identity distributional equity the distribution of power and effectiveness or decision making efficiency discussion of regional and international security crises expert scholarship from both European and Asian perspectives This volume will be of great interest to students and scholars of IPE international relations political science contemporary history and European studies and Asian studies **Japan's new**

security partnerships Wilhelm Vosse,Paul Midford,2018-08-17 After decades of solely relying on the United States for its national security needs over the last decade Japan has begun to actively develop and deepen its security ties with a growing number of countries and actors in the Asia Pacific region and Europe a development that has further intensified under the Shinzo Abe administration This is the first book that provides a comprehensive analysis of the motives and objectives from both the Japanese and the partner countries perspectives and asks what this might mean for the security architecture in the Asia Pacific region and what lessons can be learned for security cooperation more broadly This book is for those interested in Japan s security policy beyond the US Japan security alliance and non US centred bilateral and multilateral security cooperation It is an ideal textbook for undergraduate and graduate level courses on regional security cooperation and strategic partnerships and Japanese foreign and security policy *Status and Security in Southeast Asian State Systems* Nicholas Tarling,2013-05-07 Southeast Asia serves as an excellent case study to discuss major transformations in the relationship between states This book looks at the changing nature of relationships between countries in Southeast Asia as well as their relationships with other states in Asia and beyond A diverse region in many areas open to outside influence in

many fields but not without dynamics of its own Southeast Asia has been through centuries the site of states with very differing levels of power and in a variety of forms It has also been exposed to powerful neighbours seawards empires and contending world powers Adopting a historical approach the book analyses state relations against the background of regional and geopolitical developments from within and without It discusses how Southeast Asian states of the 21st century can best preserve their security in the context of the rise of China and goes on to look at the extent to which they can preserve their autonomy of action Offering a long term perspective on these issues this inter disciplinary study is of interest to scholars and students of Southeast Asian history and politics world history and international relations
