The Woman Who Stole Vermeer Anthony M. Amore, 2020-11-10 The extraordinary life and crimes of heiress turned revolutionary Rose Dugdale who in 1974 became the only woman to pull off a major art heist In the world of crime there exists an unusual commonality between those who steal art and those who repeatedly kill they are almost exclusively male But as with all things there is always an outlier someone who bucks the trend defying the reliable profiles and leaving investigators and researchers scratching their heads In the history of major art heists that outlier is Rose Dugdale Dugdale's life is singularly notorious Born into extreme wealth

she abandoned her life as an Oxford trained PhD and heiress to join the cause of Irish Republicanism While on the surface she appears to be the British version of Patricia Hearst she is anything but Dugdale ran head first towards the action spearheading the first aerial terrorist attack in British history and pulling off the biggest art theft of her time In 1974 she led a gang into the opulent Russborough House in Ireland and made off with millions in prized paintings including works by Goya Gainsborough and Rubens as well as Lady Writing a Letter with her Maid by the mysterious master Johannes Vermeer Dugdale thus became to this day the only woman to pull off a major art heist And as Anthony Amore explores in *The Woman Who Stole Vermeer* it s likely that this was not her only such heist *The Woman Who Stole Vermeer* is Rose Dugdale s story from her idyllic upbringing in Devonshire and her presentation to Elizabeth II as a debutante to her university years and her eventual radical lifestyle Her life of crime and activism is at turns unbelievable and awe inspiring and sure to engross readers

Studies on Eighteenth-Century Geology Rhoda Rappaport, edited by Kenneth L. Taylor, 2023-04-21 In a scholarly career spanning five decades Rhoda Rappaport published perceptive analyses of science in the culture of early Modern Europe France in particular with strong emphasis on geology s early development Of the sixteen papers in this volume most focus on aspects of geology s cultivation during the long 18th century from the times of Hooke Leibniz and Fontenelle to those of Lavoisier Werner and Cuvier Among the topics most closely treated here are the French mineralogical mapping project initiated by Guettard contemporary efforts to interpret the earth historically such as through Noah s Flood and difficulties presented by the vocabulary often used in traditional histories of geology Much of Rappaport s research addressed two problems prevalent within 18th century earth science the proper understanding of petrifications or fossil objects and struggles to establish reliable knowledge of the earth s past She also examined the chemistry of G F Rouelle which she saw as effectively an attempt at systematic comprehension of the entire mineral realm trans national features of scientific pursuits as illustrated in the careers of the naturalist Vallisneri and the mineralogist and philosophe d Holbach and aspects of science s promotion in France through government patronage and academic privilege *Education and the Female Superhero* Andrew L. Grunzke, 2019-12-17 Considering a variety of female superhero narratives including World War II era Wonder Woman comics the 1970s television programs *The Secrets of Isis* and *The Bionic Woman* and the more recent *Buffy the Vampire Slayer* *Education and the Female Superhero* Slayers Cyborgs Sorority Sisters and Schoolteachers argues that they share a vision of education as the path to female empowerment In his analysis Andrew L Grunzke examines female superheroes who are literally teachers or students exploring examples of female superheroes whose alter egos work as schoolteachers or attend school during the workday and fight evildoers when they are outside the classroom Taking a broader view of education Grunzke argues that the superheroine in popular media often sees and articulates her own role as being an educator In these narratives female superheroes often take it upon themselves to teach self defense tactics prevent victimization and encourage people especially female victims to pursue formal education Moreover Grunzke shows how

superheroines tend to see their relationship with their adversaries as rehabilitative and educative trying to set them on the correct path rather than merely subdue or dominate them
