Recasting The European Order:

Recasting the European Order James Sperling, Emil Joseph Kirchner, 1997 The dramatic events since the late 1980s which witnessed the end of the Cold War the dissolution of the Warsaw Pact the fragmentation of the Soviet Union and the emergence of a united Germany have set in motion a recasting of the European security order **A Recast Partnership?** Simon Serfaty, 2008-03-03 With new leaders in place in Germany France and Britain and with elections in Russia Spain Italy and the United States in 2008 the stage is set for change and a new transatlantic beginning in 2009 The contributors to this volume offer an agenda for action not to reinvent either NATO or the European Union but rather to recast these two main institutional dimensions of the transatlantic partnership in ways that can make each better suited to the other and make both more effectively prepared to help their 32 members address the issues security economic political and societal they face in common BOOK JACKET *Regionalism, Multilateralism, and the Politics of Global Trade* Donald Barry, Ronald C. Keith, 1999 The essays in this volume reflect the current debate about whether the new regionalism and interregional politics of the last decade support or undermine the global trading system Political scientists and international relations scholars from North America examine the changing relationship between regionalism and multilateralism and discuss the implications for national policy in the globalized economy The essays are arranged into four categories covering regionalism globalism and the state the dynamics of regional integration interregional relations and the policy implications particularly for Canada Annotation copyrighted by Book News Inc Portland OR *The European Security Order Recast* Barry Buzan, 1990 SCOTT copy 1 From the Joohn Holmes Library Collection Recasting the European Order James Sperling, Emil Joseph Kirchner, 1997 The dramatic events since the late 1980s which witnessed the end of the Cold War the dissolution of the Warsaw Pact the fragmentation of the Soviet Union and the emergence of a united Germany have set in motion a recasting of the European security order *A Review of "Europe Recast: A History of the European Union" by Desmond Dinan* Joe Majerus, 2012-11-21 Literature Review from the year 2010 in the subject History of Europe European Postwar Period grade 2 0 University of Luxembourg language English abstract A critical and comprehensive review of Desmond Dinan s book on the history of the European integration process Divergent Pathways: Turkey and the European Union Meltem Müftüler-Baç, 2016-01-18 Should Turkey become a part of the European Union This heated debate has been going on for many years now always under the assumption that it is the membership candidate alone who needs to adjust to the EU s influence The book s main argument is precisely that the Turkish accession needs to be analyzed not only by looking at the EU s impact on Turkish transformation but also from an angle that captures the Turkish role in recasting Europe **The Interconnection of the EU Regulations Brussels I Recast and Rome I** Christoph Schmon, 2020-03-17 This book deals with the interconnection between the Brussels I Recast and Rome I Regulations and addresses the question of uniform interpretation A consistent understanding of scope and provisions is suggested by the preamble of the Rome I Regulation

Without doubt it is fair to presume that the same terms bear the same meaning throughout the Regulations. The author takes a closer look at the Regulations systems guiding principles and their balance of flexibility and legal certainty. He starts from the premise that such analysis should prove particularly rewarding as both legal acts have their specific DNA. The Brussels I Recast Regulation has a procedural focus when it governs the allocation of jurisdiction and the free circulation of judgments. The multilateral rules under the Rome I Regulation by contrast are animated by conflict of laws methods and focus on the delimitation of legal systems. This fourth volume in the Short Studies in Private International Law Series is primarily aimed at legal academics in private international law and advanced students. But it should also prove an intriguing read for legal practitioners in international litigation. Christoph Schmon is a legal expert in the fields of Private International Law, Consumer Law and Digital Rights. After serving in research positions at academic institutes in Vienna and London, he focused on EU policy and law making. He is appointed expert of advisory groups to the EU Commission.

The Eclipse of the Legality Principle in the European Union Leonard F. M. Besselink, Frans Pennings, Sacha Prechal, 2011-01-01

Legality is a traditional normative concept to regulate the relationship between those in power and those subjected to that power. The principle of legality protects the citizen against the arbitrary use of power or more precisely it demands a legal basis which itself must be of a certain standard to legitimize State action. Is legality under siege in Europe? The authors contributing to this provocative and important book answer this question in the affirmative. Twenty one outstanding European legal scholars expose a spectrum of ways in which the traditional legality principle is under pressure because of the creation of new legal orders including that of the EU and the interaction between these new orders and that of the State combined with such factors as expertise driven governance, difficulties of international organizations to meet their objectives due to a lack of adequate powers and lack of parliamentary control. The question of whether the main functions of legality – legitimating, attributing and regulating the exercise of public authority – are still fulfilled in the context of the overlapping, interacting and mutually dependent legal orders of the EU, the ECHR and the Member States is at the background of all the essays in this volume. Recognizing that legality if it is to survive demands rigorous reconsideration of its scope and application, the authors interrogate not only such fundamental democratic issues as who has legitimate power to perform legislative acts and through these to exercise of public power over citizens, but also such urgent European problems as the following: the use of the precautionary principle in EU decision making; the scope of the principle that the exercise of public authority must rest on an act of Parliament; the extent to which the EU can provide a legal basis for action of Member State authorities in the absence of such a basis within Member State legal orders; the constitutional position of independent regulators; the requirements that ECJ and ECHR case law impose on the exercise of public authority; whether legislative results are coherent in the sensitive area of equal treatment, transparency, legal certainty, enforceability and implementation of EC Directives in the field of workers involvement; new instruments as the Open Method of Coordination and the involvement of social partners in decision

making the de facto harmonization of national criminal justice systems and the prominent role of the EU in the field of data protection There can be little doubt that the issue of legality and to whom it applies in a world in which the role of the modern State is changing profoundly is a crucial one It is highly important in the context of the ongoing discussion on the meaning of democracy and citizenship This volume with its clear message that reconsidering legality demands taking serious issue with the uncertainty engendered by the processes of globalization will resonate profoundly among practitioners and policymakers in this time of momentous change

Europe's Franco-German Engine David P. Calleo, Eric R. Staal, 2010-12-01 Throughout the postwar era a special relationship between France and Germany has often been the catalyst for European integration The two countries have achieved jointly the leadership that neither could sustain alone However the Soviet collapse has presented them with a new agenda of problems German unification has resurrected old geopolitical fears and has had disruptive economic consequences Central European states are struggling to transform themselves into liberal democracies with market economies and clamoring to join the European Union posing a formidable challenge to its practical cohesion organizational patterns and economic resources Events in the former Yugoslavia have lent urgency to the need for decisive action on enlargement and exposed the fragility of Europe's capacity for collective military action The Franco-German response has been to deepen the EU while proceeding slowly on enlarging to the east The partners have pursued their monetary goal with extraordinary fortitude and most observers believe they will achieve it in 1999 However opinion is deeply divided over the wisdom or sustainability of such a course This book explores how these issues are currently understood by French and German elites who have generated the current policies and are carrying them out The essays by three French three German and two American authors reveal an impressive consensus as well as widely differing views They analyze the broad diplomatic security and economic dimensions of the bilateral relationship The contributors are Gilles Andrani Klaus Peter Klaiber François Heisbourg Michael Stürmer Jean Pierre Landau Ernst Welteke and Patrick McCarthy SAIS European Studies
