Taking Sides in Social Research Martyn Hammersley, 2005-08-12 In the past it was generally taken for granted that the goal of social research was the production of

objective knowledge and that this required a commitment to value neutrality In more recent times however both these ideals have come to be challenged and it is often argued that all research is inevitably political in its assumptions and effects In this major contribution to the debate Martyn Hammersley assesses the arguments from the classic and still influential contributions of C Wright Mills Howard Becker and Alvin Gouldner to the present day He concludes that the case for partisanship is not convincing and that an intelligent and sceptical commitment to the principles of objectivity and value neutrality must remain an essential feature of research

The Law of War Crimes Timothy L.H. McCormack, Steven Wheatley, 2023-07-24

This original and innovative new text on war crimes asks whether we are any closer to achieving the promise of Nuremberg. Interest in the law of war crimes has resurged in the wake of several recent tragedies including genocide in Rwanda, ethnic cleansing in the former Yugoslavia, and Pol Pot's killing fields in Cambodia. The Law of War Crimes is an important contribution in this field of renewed significance for international and domestic law and brings together a group of leading scholars and practitioners in international criminal law. This volume is the first in which a comprehensive analysis is undertaken of the law of war crimes in both national and international contexts. In two introductory chapters the editors discuss the philosophical and political implications of war crimes jurisprudence as well as the surprisingly rich and unexpected historical record of previous war crimes trials. A sequence of four chapters follows in which legislative and judicial approaches to war crimes in national settings are explored. These essays on European, Israeli, Australian, and North American war crimes initiatives contain a mass of indispensable new material and careful legal analysis. The concluding essays focus on war crimes regimes in international law. In this section the authors anticipate future developments such as the Tribunal for the Former Yugoslavia and the proposed Permanent International Criminal Court and revisit the Nuremberg and Tokyo war crimes trials from a contemporary perspective.
