Williams, Pascale Joassart, 2009-09-11 The authors of this volume take the orthodox view of informal work and dismantle it piece by piece presenting an analysis of the extent to which this phenomenon plays a significant role in developing countries across the world International Perspectives on Household Wealth Edward N. Wolff, 2006-01-01 Editor Wolff is a leading authority on income wealth and inequality in the US and contributing authors are well respected experts in their field Overall the research is high quality and most papers include a substantial list of references A plethora of data is considered and much statistical evidence is presented A useful contribution to the literature on income distribution and wealth inequality Recommended E Kacapyr Choice The contributors to this comprehensive book compile and analyse the latest data available on household wealth using as case studies the United States Canada Germany Italy Sweden and Finland during the 1990s and into the twenty first century The authors show that in the US trends are highlighted in terms of wealth holdings among the low income population along with changes in wealth polarization racial differences in wealth holdings and the dynamics of portfolio choices The consensus between the authors is that wealth inequality has generally risen among these OECD countries since the early 1980s although Germany stands out as an exception In the case of the US it is also noted that wealth holdings have generally failed to improve among low income families and that the racial wealth gap widened during the late 1980s International Perspectives on Household Wealth also contains new results on a number of topics including

measures and changes of wealth polarization in the US measurement and changes of portfolio span in the US asset holdings of low income households in the US and the effects of parental resources on asset holdings in Chile Academic government and public policy economists in OECD countries as well as those in so called middle income countries around the world will find much to engage them within this book It will also appeal to academics and researchers of international and welfare economics and other social scientists interested in the issue of inequality

Policies for Small Enterprises Gerhard Reinecke, Simon White, International Labour Office, 2004 Many governments in developing countries are making efforts to support the development of micro and small enterprises MSEs as they recognise their important role in employment creation and poverty reduction However millions of people who work in MSEs are paid low incomes have little or no social protection and are exposed to dangerous working conditions This paradox stems from a policy and regulatory environment that should help the development of MSEs and improve the quality of jobs provided by them but in practice often establishes biases and stifles growth Based on studies carried out in Chile Guinea Pakistan Peru South Africa Tanzania and Vietnam this book looks beyond MSE promotion initiatives to analyse the overall policy and regulatory environment It examines the impact of national business laws and taxation labour regulations trade and finance policies identifies common problems and presents major principles for reform More than simply helping to create more jobs this approach aims to help to create more jobs of better quality

Gender in Latin America Sylvia H. Chant, Nikki Craske, 2003 A comprehensive state of the art review of gender in one of the world's most diverse and dynamic regions The authors draw on a wide range of sources including their own field research to explore changes and continuities in gender roles relations and identities during the late twentieth century into the twenty first Debunking traditional universalizing stereotypes diversity in gender is highlighted in relation to the cross cutting influences of age class sexuality ethnicity rural urban residence and migrant status

**Globalization in Rural Mexico** Frances Abrahamer Rothstein, 2009-06-03 Winner Society of the Anthropology of Work Book Prize 2010 When the ever intensifying global marketplace modernizes rural communities who stands to gain Can local residents most impacted by changes to their social fabric ever recover or even identify what has been lost Frances Abrahamer Rothstein uses thirty years of sustained anthropological fieldwork in the rural Mexican community of San Cosme Mazatecochco to showcase globalization's complexities and contradictions Rothstein's lucid work chronicles the changes in production consumption and social relations during three distinct periods the Mexican miracle when economic development fueled mobility for a large segment of the population including San Cosme's worker peasants the lost decade of the 1980s when much of what had been gained was lost and the recent period of trade liberalization and globalization considered by many in Mexico and beyond as a panacea and a disaster at the same time After Mexico's textile industry decline in the late 1980s some families of former textile workers in San Cosme opened home workshops talleres and a small scale textile based economy took root These families who managed to prosper through their own trade and industry demonstrate that those who rely on consumer

demand for their livelihood need not always follow the dictate of the marketplace but rather can position themselves assertively to influence alternative economic possibilities held close to their culture Employing rich ethnography and broad analysis Rothstein focuses on how everyday life has been transformed by these processes but shows also how important continuities with the past persist She strikes a delicate balance between firmly grounded scientific study and a deep compassion for the subjects of her work while challenging contemporary views of globalization and consumption

The Challenge of Urban Government Mila Freire, Richard E. Stren, 2001-01-01 Cities and towns are vital for the development of economic systems and social organisations However cities face tremendous challenges They have to simultaneously attract business provide a good livelihood for their inhabitants generate enough resources to finance infrastructure and social needs and take care of their poor The Challenge of Urban Government Policies and Practices looks at the consequences of globalisation on city management This book focuses on the complex of issues generated in urban areas such as the dynamics of metropolitan spaces and the need to define strategic territory for operational and policy purposes Some urgent challenges include how to handle spillovers across municipalities and the need to create a new city structure over an existing city to give the suburbs some elements of centrality It examines the dynamics of governance and how to get stakeholders participation in the government process

**Social Sciences** Katherine D. McCann, 2000-12-01. Beginning with volume 41, 1979, the University of Texas Press became the publisher of the Handbook of Latin American Studies, the most comprehensive annual bibliography in the field. Compiled by the Hispanic Division of the Library of Congress and annotated by a corps of more than 130 specialists in various disciplines, the Handbook alternates from year to year between social sciences and humanities. The Handbook annotates works on Mexico, Central America, the Caribbean and the Guianas, Spanish South America and Brazil, as well as materials covering Latin America as a whole. Most of the subsections are preceded by introductory essays that serve as biannual evaluations of the literature and research under way in specialized areas. The Handbook of Latin American Studies is the oldest continuing reference work in the field. Katherine D. McCann is acting editor for this volume. The subject categories for Volume 57 are as follows: Electronic Resources for the Social Sciences, Anthropology, Economics, Geography, Government and Politics, International Relations, Sociology. Los grandes problemas de México. Tomo 5. Desigualdad social Fernando Cortés y Orlandina de Oliveira, coordinadores,

Trade Liberalization and India's Informal Economy Barbara Harris-White, Anushree Sinha, 2007. Papers presented at a workshop held in 2004. **Immigrant Businesses** J. Rath, 2000-02-01. In the past few years a considerable number of immigrants have established their own businesses. In doing so they have contributed in many ways to the economic development of American and European metropolitan areas. Some businesses have been incorporated into the mainstream while others have stayed on the economic fringes and got engaged in the informal economy. The starting point of this book is that a proper understanding of these businesses is served by focusing on the embeddedness of immigrant businesses in their economic, politico-institutional and social environments from a multi-disciplinary perspective rather than confining the attention to ethnic, cultural or economic/sociological aspects only. *South America, Central America and the Caribbean*

Crabtree, 1998. This book provides an evaluation of Peruvian politics and economics in the 1990s on the evidence available up

until the end of 1997 The purpose is twofold to detect continuities and discontinuities between the Fujimori period and earlier ones and to offer an answer however tentative to the question of whether the Fujimori government has laid the basis for greater future stability The answers to these questions are mixed There appear to be more continuities than many suppose even though 1990 in many ways was a turning point And while the Fujimori government helped provide a more stable context than the one it inherited it is by no means clear that the changes it has brought about will prove sustainable over the longer run The political model looks particularly brittle The contributors are Luis Abugatt s Elena Alvarez Javier de Bela nde John Crabtree Carlos Iv n Degregori Francisco Durand Adolfo Figueroa Ra l Hopkins Javier Igu iz Drago Kisic Enrique Obando Martin Tanaka Jim Thomas and Rosemary Thorp
