**Rehabilitation Nursing**, 1981      *Rehabilitation Nursing, Concepts and Practice*, 1987      Rehabilitation Nursing  
Shirley P. Hoeman, 2008-01-01 Providing a solid foundation of concepts and principles this book maintains the fundamental focus of rehabilitation nursing holistic care of the rehabilitation client to achieve maximum potential outcomes in functional and lifestyle independence      A Comprehensive Curriculum for Trauma Nursing Elizabeth W. Bayley, Susan Allyn Turcke, 1992      **Comprehensive Nursing Care in Multiple Sclerosis** June Halper, Nancy Holland, 2010-08-30 This is an excellent resource for those caring for patients with MS In addition to nurses I could easily recommend this book to other physicians and perhaps even to patients Score 91 4 stars Doody's This book represents the most current information on the care of the MS patient This will be an unparalleled resource for all nurses caring for MS patients and families Amy Perrin Ross APN MSN CNRN MSCN Among the many responsibilities of the Multiple Sclerosis MS nurse perhaps the most important is to help patients devise learn and implement self care strategies to improve their wellness and quality of life Taking a fresh perspective on the complex role of the MS nurse this comprehensive clinical reference demonstrates how nurses can change the lives of patients with MS This newly revised edition is completely reorganized refocused and updated throughout to provide a stronger focus on instilling hope in patients and helping them regain their independence The special feature of this new edition is the incorporation of the Morgante Conceptual Framework of Hope a model of care that helps nurses integrate the concept of hope into clinical practice The book also illustrates how to deliver nursing care that is both culturally sensitive and life span appropriate Key features Uses detailed case studies to highlight the various roles of the MS nurse the care provider facilitator advocate educator counselor and innovator Incorporates the Morgante Conceptual Framework of Hope into every chapter Provides practical guidance on disease and symptom management alternative medicine sexuality and family planning and pediatric patients Discusses how to maximize the effectiveness of pharmacotherapeutics      **Rehabilitation Nursing** Sharon S. Dittmar, 1989      **Current Catalog** National Library of Medicine (U.S.), 1992 First multi year cumulation covers six years 1965 70      **National Library of Medicine Current Catalog** National Library of Medicine (U.S.), 1991      Theoretical Basis for Nursing Melanie McEwen, Evelyn M. Wills, 2017-12-28 Access the essential information you need to understand and apply theory in practice research education and administration management The most concise and contemporary nursing theory resource available Theoretical Basis for Nursing 5th Edition clarifies the application of theory and helps you become a more confident well rounded nurse This acclaimed text is extensively researched and easy to read giving you an engaging approachable guide to developing analyzing and evaluating theory in your nursing career      **Dorothea Orem** Donna Hartweg, 1991-09-11 Encapsulating the work of one of the classic nursing theorists Dorothea Orem this booklet provides a unique easily understood overview of Orem's theory The origin of her theory is presented assumptions underlying the theory expounded and the major concepts

and propositions explained By including excellent examples and a glossary of important terms the author helps the reader make the transition from theory to practice Dorothea Orem will be extremely useful to undergraduate students and nursing professionals About the series Designed to provide a concise description of the conceptual frameworks and theories in nursing which have emerged in the last quarter century Though short and succinct they provide a useful overall view for those studying or actively involved in nursing as well as for those interested in the profession and its development A highly recommended series Journal of the Institute of Health Education Slim yet a wealth of information is contained within their pages The most difficult of issues is articulated in a manner which enlightens rather than clouds understanding King s model is notoriously difficult to explain to beginners but Evans does so magnificently Nursing Times
