Shakespeare and the Victorians Stuart Sillars, 2013-11 Shakespeare and the Victorians explores the place of Shakespeare in Victorian culture and shows how the plays and the man became central to all levels of Victorian life and thought *Translation Under State Control* Gaby Thomson-Wohlgemuth, 2011-01-13 In this book Gaby Thomson Wohlgemuth explores the effects of ideology on the English to German translation of children's literature under the socialist regime of the former German Democratic Republic Giving prominence to extra textual factors the study undertakes a close investigation of the East German censorship machinery showing that there was a close correlation between the socialist ideology propagated by the regime and the book selection process itself Through an analysis of the contents of the print permit censorship files and the afterwords found in many books Thomson Wohlgemuth demonstrates that literature was re written not only to placate the censor but also to directly guide the reader down the correct ideological path both in the selection and interpretation of each translated text Thomson Wohlgemuth begins this engaging study with a concise but thorough historical background of East German children's literature setting the context for an examination of how the state and party operated to control the development of the genre She highlights the fact that there was multi level censorship at work with the Unity Party propagating certain ideological literary policies and the publishers self censoring when selecting suitable texts for translation and publication This book serves as an exemplary study of how publishers collaborated with the state in all Eastern European countries and should be of interest to historians and children's literature scholars alike *The Children's Book Business* Lissa Paul, 2010-12-14 By focusing on the children's book business of the long eighteenth century this book argues that the thinking knowing children of the Enlightenment are models for the technologically connected socially conscious children of the twenty first The increasingly obsolete images of Romantic innocent and ignorant children are bracketed between the two periods *Picturing the Wolf in Children's Literature* Debra Mitts-Smith, 2012-12-06 From the villainous beast of Little Red Riding Hood and The Three Little Pigs to the nurturing wolves of Romulus and Remus and

Rudyard Kipling's *The Jungle Book* the wolf has long been a part of the landscape of children's literature. Meanwhile since the 1960s and the popularization of scientific research on these animals children's books have begun to feature more nuanced views. In *Picturing the Wolf in Children's Literature* Mitts Smith analyzes visual images of the wolf in children's books published in Western Europe and North America from 1500 to the present. In particular she considers how wolves are depicted in and across particular works, the values and attitudes that inform these depictions and how the concept of the wolf has changed over time. What she discovers is that illustrations and photos in works for children impart social, cultural and scientific information not only about wolves but also about humans and human behavior. First encountered in childhood picture books act as a training ground where the young learn both how to decode the symbolic wolf across various contexts and how to make sense of real wolves. Mitts Smith studies sources including myths, legends, fables, folk and fairy tales, fractured tales, fictional stories and nonfiction, highlighting those instances in which images play a major role including illustrated anthologies, chapbooks, picture books and informational books. This book will be of interest to children's literature scholars as well as those interested in the figure of the wolf and how it has been informed over time. **Children's Fiction about 9/11** Jo Lampert, 2009-09-10 Looking at examples including picture books, young adult novels and DC Comics, Lampert explores ethnic, national and heroic identities in this pioneering and timely book that examines the ways in which cultural identities are constructed within young adult and children's literature about the attacks of September 11, 2001.

Fundamental Concepts of Children's Literature Research Hans-Heino Ewers, 2009-06-15 This book provides students and professors with a much needed new system of categories for a differentiated description of children's literature, systematically analyzing the field of children's literature and articulating its key definitions, terms and concepts. **The Role of Translators in Children's Literature** Gillian Lathey, 2010-09-13 This book offers a historical analysis of key classical translated works for children such as writings by Hans Christian Andersen and Grimm's tales. Translations dominate the earliest history of texts written for children in English and stories translated from other languages have continued to shape its course to the present day. Lathey traces the role of the translator and the impact of translations on the history of English language children's literature from the ninth century onwards. Discussions of popular texts in each era reveal fluctuations in the reception of translated children's texts as well as instances of cultural mediation by translators and editors. Abridgement, adaptation and alteration by translators have often been viewed in a negative light yet a closer examination of historical translators' prefaces reveals a far more varied picture than that of faceless conduits or wilful censors. From William Caxton's dedication of his translated *History of Jason* to young Prince Edward in 1477 to the extent he may begin to learn to read English to Edgar Taylor's justification of the first translation into English of Grimm's tales as a means of promoting children's imaginations in an age of reason, translators have recorded in prefaces and other writings their didactic, religious, aesthetic, financial and even political purposes for translating children's texts. *Neo-Imperialism in Children's Literature About Africa*

Yulisa Amadu Maddy,Donnarae MacCann,2008-12-28 In this book the authors expose the neo imperialist overtones of contemporary children s fiction about Africa Examining the portrayal of African social customs religious philosophies and political structures in fiction for young people Maddy and MacCann reveal the Western biases that often infuse stories by well known Western authors **Critical Approaches to Food in Children's Literature** Kara K. Keeling,Scott T.

Pollard,2012-03-20 This book is the first scholarly volume to connect children s literature to the burgeoning discipline of food studies Spanning genres and regions the essays utilize a variety of approaches including archival research cultural studies formalism gender studies post colonialism post structuralism race studies structuralism and theology *The Shakespearean International Yearbook* Professor Alexa Huang,Professor Stuart John Sillars,Professor Tom Bishop,2013-11-28 As the guest editor of the special section in this issue points out Macbeth is one of the most frequently performed edited adapted translated and appropriated plays across distances temporal and topographical In both the global range of their writers and in the performances that are their concerns the essays comprising the special section of The Shakespearean International Yearbook Volume 13 demonstrate the play s continuing appeal throughout the world and over time This issue reveals with great subtlety and force the power of the play in the eyes of scholars and creative artists beyond the boundaries of the Anglo American critical frame focusing on the play as it is mediated through cultural and belief systems very different from those in which it is most often seen read or studied The volume also includes essays on Shakespeare and The King s Speech and on recent books and digital databases in the field The Shakespearean International Yearbook continues to provide an annual survey of important developments and topics of concern in contemporary Shakespeare studies across the world Among the contributors to this volume are Shakespearean scholars from Hungary India Italy Malta New Zealand Norway Poland the UK and the US
