Reincarnation and Karma Rudolf Steiner, 1960 **Reincarnation and Karma** Rudolf Steiner, 2001-05 5 lectures
Berlin and Stuttgart January March 1912 CW 135 Just as an age was once ready to receive the Copernican theory of the universe so is our own age ready for the ideas of reincarnation and karma to be brought into the general consciousness of humanity Rudolf Steiner introduced the West to his detailed scientific knowledge of reincarnation and karma He gave concrete descriptions of the way individuals transform during the course of successive incarnations and specific examples of how karma works Steiner also provides practical exercises that lead us to experience the reality of reincarnation He believed that by experiencing the reality of successive earth lives we can form a foundation for a spiritual understanding of the relationship between humankind and the cosmos These talks contain some of Steiner's most important teachings on reincarnation and karma His examples and exercises can lead us to direct knowledge of the laws of reincarnation and karma Topics include How to perceive directly the part of our being that passes through many lives on earth How to develop a feeling memory which we need before we are able to experience reincarnation Thought exercises for gaining knowledge of reincarnation and karma Examples of how karma works between incarnations How knowledge of reincarnation and karma affects our moral life This volume is a translation from German of Wiederverkörperung und Karma und ihre Bedeutung für die Kultur der Gegenwart

Karma in Human Life Bob Woodward, 2022-10-17 Whilst the concept of karma is derived from ancient Eastern religious tradition the word is very much part of contemporary vocabulary We speak of karma in the sense of individuals getting what they deserve usually in a negative sense But is karma a retributive law or is it based on healing and love In his latest thought provoking work Dr Bob Woodward investigates such issues in conversation with his spirit guides Beginning with the most basic question What is karma they discuss how this law of destiny relates to illness human freedom relationships and individual development but also to major crises on the world stage such as the coronavirus pandemic wars and conflict global warming and climate change They also examine how such key matters might relate to world karma rather than personal destiny Bob's spiritual guides speak of the law of karma as being filled with compassion It is not a law which makes people or beings subservient to some almighty and dictatorial power It is a law which is generated by love itself and is there to bring order recompense and compassion to all beings and their mutual relationships Karma in Human Life offers answers to many puzzles and enigmas relating to modern day life on earth Man and World In

the Light of Anthroposophy Stewart C. Easton, **Rudolf Steiner's Vision of Love** Bernard Nesfield-Cookson,2011-03-14
Gathering together references to the logic of the heart from throughout Steiner's work the author encapsulates the great teacher's revelations on the meaning of love and indicates the supreme importance of the greatest of all deeds of love Cover

The End of Medicine Kaare Bursell,2009-01-29 At the tender age of 15 the author set out to discover the answers to two questions What is disease and What does disease signify His quest began in 1966 when he enrolled in the School of Veterinary Medicine and Science at the University of Liverpool After 5 years of study he then worked as a Veterinary Clinician and Surgeon in large animal practice for 8 years This experience did not answer the questions In 1975 he began living thinking and eating according to macrobiotic principles and philosophy and as he did the answers to these questions began to become clearer In 1982 he discovered the work of Rudolf Steiner and as he began to study his lecture cycles and books the answers became revealed The End of Medicine is the result of over 40 years of study experience and learning working with thousands of sick individuals from all walks of life The contents of the book describe how and why illnesses develop what illness signifies and makes a distinction between illness disease and health The crucial significance of the digestive processes of assimilation and elimination in the onset of illnesses and recovery of health are described in detail The book thus fulfils the indication given by Rudolf Steiner in a lecture given in 1923 where he says a modern system of medicine must always take the metabolic system that is to say the normal processes of digestion as its point of departure and starting from there it must deduce how internal illnesses in the widest possible sense can arise from the metabolism In addition the book contains instruction on how to do self diagnosis and then gives the reader speaking imaginatively a pair of new legs a compass and a map The reader who is sufficiently inspired can then learn to use the new pair of legs comprising a change to a macrobiotic way of eating and doing the ginger compress regimen described learning how to use the compass yin and yang theory and use the map contained in the latter chapters to explore the new territory which opens up before us as we do so

The Driving Force of Spiritual Powers in World History Rudolf Steiner,1972 Steiner focuses here on spiritual events as causes of transformations in human consciousness as well as outer historical events He also sheds light on a variety of other topics such as speech experiences during sleep and the future tasks of humanity **A Quest for Wisdom** David Lorimer,2021-03-24 A Quest for Wisdom is a wide ranging volume which brings together 25 of David Lorimer's highly acclaimed essays Among the significant thinkers featured here are many who have shone their light on his path and which can provide enriching nourishment for readers on their own life journeys The essays explore philosophy meaning and spirituality consciousness death and transformation and responsibility ethics and society Perceptive and illuminating they examine the nature of life and death questions of meaning and purpose and the challenge of how we can live more harmoniously together David hopes that readers will be inspired as Dr Albert Schweitzer put it in our common task to become more finely and deeply human **The Burning Bush** Edward Reaugh Smith,1997 Even more significant for

Christianity in the long run than the twentieth century Dead Sea and Nag Hammadi discoveries is the growing North American awareness of Rudolf Steiner's works. Virtually unavailable until the end of the twentieth century, English translations from the German archives are gradually coming into print. Both Steiner and his works have thus far been virtually unknown in traditional theological circles. No Bible commentary has yet reflected the remarkable spiritual insights of Anthroposophy. Now ten years after first encountering a written comment about Rudolf Steiner, Ed Smith combines his own extensive traditional biblical knowledge with his years of concentrated study and reflection on hundreds of assembled works by Steiner. The result is the first Bible commentary in the light of anthroposophic insight. This is the first volume of a series of Bible commentary by the author. It is based on the anthroposophic understanding given to humanity by Rudolf Steiner during the first quarter of the twentieth century. Bible commentaries have always reflected the general line of thinking of their authors. However, the dramatic newness of anthroposophic thought means that perhaps the usual method of using a Bible commentary is not appropriate here. A large part of *The Burning Bush* is necessarily devoted to laying an anthroposophic or spiritual scientific groundwork. A major assumption indulged in most Bible commentaries that one can go directly to portions dealing with given passages of scripture and understand what is being said about them does not fit. *Trusting in Spirit—The Challenge*. Dr. Bob Woodward, 2018-04-17. In this unique book, Spirit Guides are invited to communicate to us teachings which they consider relevant and important at this time. However, the author also questions and challenges what the Guides have to say instead of just acquiescing to their messages. The book is intended to help awaken people to the reality that they each have Spirit Guides who are more than willing to be of help and service to them. However, since they always respect our free will, they depend on us taking the initiative to get to know them. This is precisely the challenge of learning to trust in Spirit and in our own potential abilities. I can honestly say that when I read the manuscript, I was amazed at its power to inspire and heal. As you read this book, your spirit guide will be close and help you understand the teachings that are relevant to you. Anne Lewis, Spiritual Medium and Healer. You are only limited in your abilities by your own set beliefs and expectations. If your beliefs grow and widen, then so do your abilities to contact beings on all different levels. Philip, The Angel. *The Bhagavad Gita and the West*. Rudolf Steiner, 2006-12. 5 lectures. Cologne, Dec 28, 1912; Jan 1, 1913. CW 142. 9 lectures. Helsinki, May 28, June 5, 1913. CW 146. 1 lecture. Basel, Sept 19, 1912. CW 139. This combination of two volumes in Rudolf Steiner's *Collected Works* presents Steiner's profound engagement with Hindu thought and, above all, the Krishna in the Bhagavad Gita as they illuminate Western Christian esotericism. In his masterly introduction, Robert McDermott, a longtime student of Rudolf Steiner as well as Hindu spirituality, explores the complex ways in which the Song of the Lord or Bhagavad Gita has been understood in East and West. He shows how Krishna's revelation to Arjuna, a foundation of spirituality in India for more than two and a half millennia, assumed a similarly critical role in the Western spiritual revival of the nineteenth and twentieth centuries. In the West, for instance, leading up to Steiner's engagement, McDermott describes the

various approaches manifested by Emerson Thoreau H P Blavatsky and William James In the East he engages with interpretations of historical figures such as Mahatma Gandhi and Sri Aurobindo relating them to Steiner's unique perspective In addition and most important he illumines the various technical terms and assumptions implicit in the worldview expressed in the Bhagavad Gita The main body of The Bhagavad Gita and the West consists of two lecture courses by Rudolf Steiner The Bhagavad Gita and the Epistles of Paul and The Esoteric Significance of the Bhagavad Gita In the first course his main purpose is to integrate the flower of Hindu spirituality into his view of the evolution of consciousness and the pivotal role played in it by the Mystery of Golgotha the incarnation death and resurrection of Jesus Christ Steiner views Krishna as a great spiritual teacher and the Bhagavad Gita as a preparation though still abstract for the coming of Christ and the Christ impulse as the living embodiment of the World Law and Devotion represented by the three Hindu streams of Veda Sankhya and Yoga For Steiner the epic poem of the Bhagavad Gita represents the fully ripened fruit of Hinduism whereas Paul is related but represents the seed of something entirely new In the last lecture of part one Steiner reveals Krishna as the sister soul of Adam incarnated as Jesus and claims Krishna's Yoga teachings streamed from Christ into Paul In the second lecture course five months later Steiner engages the text of the Bhagavad Gita on its own terms as signaling the beginning of a new soul consciousness To aid in understanding both of these important cycles this book includes the complete text of the Bhagavad Gita in Eknath Easwaran's luminous translation In our age when East and West are growing closer and we live increasingly in a global intercultural and religiously pluralistic world this remarkable book is required reading The Bhagavad Gita and the West is a translation of two volumes in German Die Bhagavad Gita und die Paulusbriefe CW 142 and Die okkulten Grundlagen der Bhagavad Gita CW 146 The lecture in the appendix is translated from Das Markus Evangelium CW 139 and was published in The Gospel of St Mark Anthroposophic Press 1986

Psychoanalysis and Spiritual Psychology Rudolf Steiner, 1990-08 In these five lectures Steiner lays the foundations for a truly spiritual psychology The first two lectures constitute a critical examination of the principles of Freud and Jung The last three lectures begin with a description of the threefold structure of human consciousness and go on to outline a psychology that takes into account both the soul's hidden powers and the complex connections between psychological and organic bodily processes Robert Sardello co director of the Dallas Institute for Humanities and Culture has contributed an important introduction from the perspective of a practicing psychotherapist

Freud, Jung, and Spiritual Psychology Rudolf Steiner, 2001-05 12 Lectures Leipzig September 2 14 1908 CW 106 Rudolf Steiner emphasizes the astonishing and special relationship between our own time and that of ancient Egypt how in the natural rhythm of the ages the so called third post Atlantian Egyptian epoch is mirrored by the fifth present epoch In this sense today it is especially relevant to look at ancient Egypt with fresh eyes The evolution of Western civilization has been profoundly influenced by Egyptian myths through the Greek mysteries Because of other influences however this heritage has degenerated thinking has mummified and myth has all but disappeared Consequently it is

important to revive the seed of goodness passed down to us from ancient Egypt Through true imagination it is our task to renew human knowledge related to the creative forces in nature which the Egyptians attempted through the Osiris Isis myth and the Greeks through the myth of Demeter This is what Rudolf Steiner attempts in this lecture cycle Steiner's subjects include experiences of Egyptian initiations esoteric anatomy and physiology the stages of evolution of the human form and much more The final lecture is on the Christ impulse as the conqueror of matter This volume is a translation from German of *gyptische Mythen und Mysterien im Verhältnis zu den wirkenden Geisteskräften der Gegenwart* GA 106 *Christianity as Mystical Fact* Rudolf Steiner, 1997-05 Written 1902 CW 8 As simultaneously mysticism and fact Christianity is a breakthrough in the historical development of humanity for which the mysteries with the results that they brought about form a prior evolutionary stage Rudolf Steiner During the fall and winter of 1901-02 Steiner gave a series of lectures called Christianity as Mystical Fact to members of the Theosophical Society The lectures were rewritten and issued as a book later that year They mark a watershed in the development of Western esotericism Steiner wrote of the idea behind his book The title Christianity as Mystical Fact was one I gave to this work eight years ago when I gathered together the content of lectures given in 1902 It was meant to indicate the special approach adopted in the book Its theme is not just the mystical side of Christianity in a historical presentation It was meant to show from the standpoint of a mystical awareness how Christianity came into being Behind this was the idea that spiritual happenings were factors in the emergence of Christianity which could only be observed from such a point of view It is for the book itself to demonstrate that by mystical I do not in any way imply a vague intuition rather than strict scientific argument In many circles mysticism is understood as just that and therefore it is distinguished from the concerns of all genuine science In this book however I use the term to mean a presentation of spiritual reality a reality accessible only to a knowledge drawn from the sources of spiritual life itself Anyone who denies the possibility of such knowledge in principle will find its contents hard to comprehend any reader who accepts the idea that mysticism may coexist with the clarity of the natural sciences may acknowledge that the mystical aspect of Christianity must be described mystically This is a significant book for Steiner's own development that of Western esotericism and our own understanding of the Christ event Readers will find the evolutionary development from the ancient Mysteries through the great Greek philosophers to the events portrayed in the Gospels Included are an informative introduction and annotated notes by Andrew Welburn and an afterword by Michael Debus a priest of The Christian Community who summarizes the book and places it in context This book is a translation from German of *Das Christentum als mystische Tatsache und die Mysterien des Altertums* GA 8 Cover image Photo of Bordeaux Cathedral by James Nicholls

The Seasons and their Festivals Karl König, 2022-05-26 Through his work as a physician Karl König explored the relationship between the rhythm of the seasons the Christian festivals thinking in particular about their effect on human beings and communities This fascinating collection of König's essays lectures and notes looks at the cycle of the year and the different aspects of all the Christian festivals from

Easter to the Twelve Holy Days of Christmas King discusses the idea that human beings can derive inner strength from festival celebrations through an active social life and participation in community and also that a strong healthy community life relies on the celebration of festivals *The Spiritual Guidance of the Individual and Humanity* Rudolf Steiner, 1992-04

The spirit is very near Only turn ask and listen When her first book of guidance Turning was published anonymously in 1994 many readers responded gratefully to its message It quickly became one of those secret books of consolation that is passed from heart to heart In Becoming a treasury of meditations received in the soul Claire Blatchford leads us more deeply into a way of spiritual trust and confidence and will be a further source of growth and renewal for many in times of need Becoming is a wonderful gift for yourself or for a friend in need of inspiration and courage in life
