Charter Schools and Accountability in Public Education Paul T. Hill, Robin J. Lake, 2004-05-13 Charter schools are among the most debated and least understood phenomena in American education today At the heart of these matters is a contested question of accountability To survive charter schools must make and keep promises about what students will experience and learn under their purview However unlike public schools charter schools do not rely exclusively on their relationship with school districts They must also look to parents teachers and donors to cooperatively establish expectations of a particular school and its mission Aimed toward elected officials school reform activists and educators this book is the result of the first national scale study of charter school accountability The authors researched one hundred fifty schools and sixty authorizing agencies in Arizona California Colorado Georgia Massachusetts and Michigan These states contain the majority of charter schools that have been operating for three years or more and represent the major differences in state charter school legislation The authors include interviews from a range of participants in the field from state legislators and administrators to principals teachers and parents In assessing the structure of accountability as it works internally to bolster external confidence Hill and Lake suggest the struggle of charter schools actually complements those of standards based reform Both seek to transform public education to make schools responsible for performance not compliance *Reinventing Public Education in America* Benno C. Saltman,2015-11-17

Corporate school reforms especially privatization union busting and high stakes testing have been hailed as the last best hope for public education Yet as Kenneth Saltman powerfully argues in this new book corporate school reforms have decisively failed to deliver on what their proponents have promised for two decades higher test scores and lower costs As Saltman illustrates the failures of corporate school reform are far greater and more destructive than they seem Left unchecked corporate school reform fails to challenge and in fact worsens the most pressing problems facing public schooling including radical funding inequalities racial segregation and anti intellectualism But it is not too late for change Against both corporate school reformers and its liberal critics this book argues for the expansion of democratic pedagogies and a new common school movement that will lead to broader social renewal From Reopen to Reinvent Michael B.
