Reinventing The Feature Story Mythic Cycles In American Literary Journalism:

Reinventing the Feature Story Stephanie Shapiro, 2005 Although literary journalism is now widely accepted as an integral part of all American prose literature there has been scant examination of its underlying themes which have remained constant even as the literature itself has evolved By looking at literary journalism as narrative the artifact of myth its cultural power and history are revealed As a vehicle of myth literary journalism's growth corresponds to the progression of myth through its primary romantic and consummatory stages Each stage of literary journalism is a tool for converting readers through sensational example to the moral values and social obligations of a particular myth stage Each stage of myth creates the need for the subsequent stage in a continual literary cycle *Emotions and Virtues in Feature Writing* Jennifer

Martin, 2021-03-22 This book provides an important and original way of understanding how journalists use emotion to communicate to readers posing the deceptively simple question how do journalists make us feel something when we read their work Martin uses case studies of award winning magazine style features to illuminate how some of the best writers of literary journalism give readers the gift of experiencing a range of perspectives and emotions in the telling of a single story Part One of this book discusses the origins and development of narrative journalism and introduces a new theoretical framework the Virtue Paradigm and a new textual analysis tool the Virtue Map Part Two includes three case studies of prize winning journalism demonstrating how the Virtue Paradigm and the Virtue Map provide fresh insight into narrative journalism and the ongoing conversation of what it means to live well together in community **The A to Z of Journalism**

Ross Eaman, 2009-10-12 Journalism is the discipline of gathering writing and reporting news and it includes the process of editing and presenting news articles Journalism applies to various media including but not limited to newspapers magazines radio television and the internet The word journalist started to become common in the early 18th century to designate a new kind of writer about a century before journalism made its appearance to describe what those writers produced Though varying in form from one age and society to another it gradually distinguished itself from other forms of writing through its focus on the present its eye witness perspective and its reliance on everyday language The A to Z of Journalism relates how journalism has evolved over the centuries This is done through a chronology an introductory essay a bibliography and hundreds of cross referenced dictionary entries on the different styles of journalism the different types of media and important writers and editors Historical Dictionary of Journalism Ross Eaman, 2009-03-02 Journalism is the discipline of

reliance on everyday language The Historical Dictionary of Journalism relates how journalism has evolved over the centuries This is done through a chronology an introductory essay a bibliography and hundreds of cross referenced dictionary entries on the different styles of journalism the different types of media and important writers and editors **Everyman News** Michele Weldon,2008 Examines how newspapers have changed over the past few years becoming story papers Comparing 850 stories story approaches and unofficial sourcing in twenty American newspapers from 2001 and 2004 Weldon reveals a shift toward features over hard news along with an increase in anecdotal or humanistic approaches to all stories Provided by publisher The News Gap Pablo J. Boczkowski,Eugenia Mitchelstein,2015-08-21 An analysis of divergent online news preferences of journalists and consumers and what this means for media and democracy in the digital age The websites of major media organizations CNN USA Today the Guardian and others provide the public with much of the online news they consume But although a large proportion of the top stories these sites disseminate cover politics international relations and economics users of these sites show a preference as evidenced by the most viewed stories for news about sports crime entertainment and weather In this book Pablo Boczkowski and Eugenia Mitchelstein examine the divergence in preferences and consider its implications for the media industry and democratic life in the digital age Drawing on analyses of more than 50 000 stories posted on twenty news sites in seven countries in North and South America and Western Europe Boczkowski and Mitchelstein find that the gap in news preferences exists regardless of ideological orientation or national media culture and that it is not affected by innovations in forms of storytelling such as blogs and user generated content on mainstream news sites Drawing upon these findings they explore the news gap s troubling consequences for the matrix that connects communication technology and politics in the digital age **Model Immigrants and Undesirable Aliens** Christina Gerken,2013-10-01 During 1995 and 1996 President Bill Clinton signed into law three bills that altered the rights and responsibilities of immigrants the Antiterrorism and Effective Death Penalty Act the Personal Responsibility Act and the Illegal Immigration Reform and Immigrant Responsibility Act Model Immigrants and Undesirable Aliens examines the changing debates around immigration that preceded and followed the passage of landmark legislation by the U S Congress in the mid 1990s arguing that it represented a new neoliberal way of thinking and talking about immigration Christina Gerken explores the content and the social implications of the deliberations that surrounded the development and passage of immigration reform analyzing a wide array of writings from congressional debates and committee reports to articles and human interest stories in mainstream newspapers The process she shows disguised its underlying racism by creating discursive strategies that shaped and upheld an image of desirable immigrants those who could demonstrate personal responsibility and an ability to contribute to the U S economy Gerken finds that politicians linked immigration to complex issues poverty welfare reform so called family values measures designed to combat terrorism and the spiraling costs of social welfare programs Although immigrants were often at the center of congressional debates politicians constructed an

elaborate abstract terminology that appeared to be unrelated to race or gender. Instead, politicians promoted neoliberal policies as the avenue to a post-racist, post-sexist world of opportunity for every rational consumer with an entrepreneurial spirit. Still, Gerken concludes that the passage of pathbreaking legislation was characterized by a useful tension between neoliberal assumptions and hidden anxieties about race, class, gender, and sexuality. **American Journalism Review**, 2006

Hartsock, 2000 This book reveals the unfolding of an important but critically neglected genre. Analyzing the rift between literature and journalism, Hartsock demonstrates the ways in which literary journalism attempts to narrow the gulf between subject and object. His scholarship is wide and deep; his prose style highly readable; his conclusions carefully argued. This work will help literary journalism overcome the marginalization from which it

has long suffered

True Stories Norman Sims, Medill School of Journalism, 2007 Journalism in the twentieth century was marked by the rise of literary journalism Sims traces more than a century of its history examining the cultural connections competing journalistic schools of thought and innovative writers that have given literary journalism its power Seminal examples of the genre provide ample context and background for the study of this style of journalism Some Things Never Change David Cawthon, 2012 Myth and its components have structured ancient narratives and modern journalistic works This foundational qualitative study was conducted to understand how myth was used in 15 of the most recent winning Pulitzer Prize features by examining patterns in structural elements and cultural messages communicated in each story This study found myth is inseparable from the feature story and subjective writing In these narratives myth was observed to influence the version of reality authors conveyed Mythic elements found in characters quotes suggested authors internalized myths conveyed by sources and perpetuated them in these stories This cycle suggests myth lives outside journalistic texts and in the writer reader and modern American society Amid negative themes the mythic elements within stories were mended with the values of family hard work duty to profession sacredness of finality and adherence to religion Authors reinforced those values by representing characters complications and the resulting consequences into mythic frameworks By addressing a gap in the literature by building on past research in myth and journalism this study shows that these authors use myth to achieve a variety of effects and that certain components could be considered more award winning than others This study's findings support that viewing journalism as myth can reveal patterns in how stories are crafted and provide clues about a culture's values and beliefs
