Religion And Economics Normative Social Theory:

Religion and Economics: Normative Social Theory J.M. Dean, A. M. C. Waterman, 2012-12-06 Normative Social Theory James M Dean and A M C Waterman University of Manitoba 1 Economics and Religion Once Again This book is a sequel to Economics and Religion Are They Distinct Brennan and Waterman 1994 That volume was motivated by a frustration born of many disappointing encounters between economists and theologians in the 1980s Can bishops synods and other voices of organized religion bring any interesting and disinterested contribution to the public policy debate If so what is the relation of their contribution to that of the purely secular knowledge economists believe they can supply Can economists bring any interesting and disinterested contribution to the public policy debate If so what is the relation of their contribution to the fundamental values that inform social ethics and that are still guarded to a large extent by religious tradition All too often the two sides talked at cross purposes Well intentioned economists coexisted for a few hours or days with well intentioned theologians whose manner of conceiving social reality was radically incompatible with their own There seemed to be no common ground The first requisite of any genuine conversation is an agreed conceptual framework that is able to accommodate the peculiar social vision both of the economist and of theologian and to display the logical relation between the two

Theology and Economic Ethics Sean Doherty, 2014-03-27 In the wake of the economic crisis few questions are more pressing than those around the ethics of finance and economics Theology and Economic Ethics seeks to expand the self critical resources of contemporary theological economic ethics by bringing the method of a pre modern thinker Martin Luther 1483 1546 into interaction with that of a modern contribution to social ethics the Swiss theologian Arthur Rich 1910 92 The work is undertaken through a close engagement with a selected publication of Luther his 1519 20 Gro er Sermon von dem Wucher and of Rich his masterwork Wirtschaftsethik published in two volumes in 1984 and 1990 respectively It is the first substantial treatment in English of Rich s magnum opus Sean Doherty introduces Luther s sermon on usury situates it in its context then provides a commentary on this work discussing how Luther brings key theological motifs to bear on a particular economic question The study proceeds with a sketch of Arthur Rich s life and work and presents Rich s method as set out in Wirtschaftsethik Doherty illuminates Rich s understanding of ethics his approach to Scripture and his adoption of the thought of Max Weber and John Rawls Bringing insights from the study of Luther to bear in an analysis of Rich s method Doherty questions some of Rich s assumptions and notes ways in which a more self critical approach could have made his project more successful Finally the book makes tentative suggestions as to the wider applicability of these findings for a Christian approach to economic ethics

Pluralist Economics Edward Fullbrook, 2013-07-18 This book is an authoritative and accessible guide to the pluralist movement threatening to revolutionise mainstream economics Leading figures in the field explain why pluralism is a required virtue in economics how it came to be blocked and what it means for the way we think about research and teach economics The first part of the book looks at how neoclassical economics gained its

stranglehold particularly in the United States and how the social and intellectual underpinnings of economics have enabled it to maintain this in the face of inconsistent evidence from the real world This is then contrasted with different approaches to pluralism Pluralist Economics then goes on to address the array of arguments for establishing pluralism showing how economics came to function as a concealed ideology and not as a science and how value free economics is an illusion Finally it addresses the practical problems presented by this different way of doing economics

Political Economy and Christian Theology Since the Enlightenment A. Waterman,2004-11-30 Political economy and Christian theology coexisted happily in the intellectual world of the eighteenth century During the nineteenth century they came to be seen as incompatible even mutually hostile In the twentieth century they went their separate ways and are no longer on speaking terms These fourteen essays by Anthony Waterman serve as snapshots of the history of this estrangement and illustrate the gradual replacement of the discourse of theology by that of economics as the rational framework of political debate Others have recently shown that both political economy and Christian theology are important though somewhat neglected elements in modern intellectual history This book is the first to combine these two lines of inquiry

Sayyid Qutb's Radical Islamism and the Comparative Political Theology Dragos Stoica,2025-02-15 Sayyid Qutb's Radical Islamism and The Comparative Political Theology argues that Sayyid Qutb's radical critique of secular modernity seen as a product of a great theft of sovereignty that usurps the monopoly of God over the entire world of creation is not idiosyncratic or incoherent but a quintessential expression and an extreme type of a specific tradition of political theology that until now has been exclusively the province of the Western thought Dragos Stoica claims that Sayyid Qutb's political theology of Hakimiyyah God's Sovereignty is better understood by integrating it in a wider context of the antimodern political theology Thus throughout this book he compares Qutb's critique of modernity with the Pakistani Islamist thinker Abu al A la Mawdudi 1903 1979 the Spanish Catholic counter revolutionary political theologian Juan Donoso Cortés 1809 1853 as well as the Protestant political theologians Abraham Kuyper 1837 1920 and Rousas J Rushdoony 1916 2001 This book employs a family resemblance cross cultural comparative method and applies a cross disciplinary analytical model that combines comparative political theology with critical discourse analysis Employing these analytical instruments this book compares Qutb and his counterparts via the category of anti modern political theology more precisely through a set of shared antitheses organized around the master concept of God's Sovereignty The ultimate objective is to augment the understanding of the Qutbian critique of secular modernity as an essential dimension of anti modern political theology Thus by recasting Sayyid Qutb as an essential Muslim political theologian of God's Sovereignty placed within a larger cross cultural paradigm this book contributes as well to the necessary process of decolonization of political theology

Economics and Interdisciplinary Exchange Guido Erreygers,2001-04-12 Economists have not always been on friendly terms with scientists from other fields More than once economists have been accused of imperialism or criticized for neglecting the insights obtained in other fields The history of

economics however yields manifold examples of interdisciplinary borrowing where economists have adapted concepts and

The Economics of Paradise S. Wagner-Tsukamoto, 2016-04-30 This book searches for the origins of modern thinking in one of the best known stories of our cultural heritage By applying institutional and constitutional economics to biblical interpretation it uses new approach to reconstruct the Paradise story The author challenges the old conceptual dualism between economics and theology philosophy Overseas Chinese Christian Entrepreneurs in Modern China Joy Kooi-Chin Tong, 2013-10-01 Inspired by Max Weber's thesis on the Protestant ethic *Overseas Chinese Christian Entrepreneurs in Modern China* sets out to understand the role and influence of Christianity on Overseas Chinese businesspeople working in contemporary China Through its in depth interviews and participant observations involving 60 Overseas Chinese entrepreneurs from Hong Kong Taiwan Southeast Asia and the United States the text discusses how Christianity has come to fulfill an increasingly visible and dynamic function in the country most notably as a new source of business morality

IS-LM and Modern Macroeconomics Warren Young, Ben-Zion Zilberfarb, 2012-12-06 IS LM is perhaps the prime example of cognitive dissonance in economics and is problematic to many economists On the one hand the IS LM model is still taught by many academic economists or they use it to derive the AD AS approach On the other hand the same economists realize the limitations of the basic IS LM model and would not now use it for policy analysis as they did in the past The distinction between pedagogical and analytical efficacy is made by all the authors in this volume regarding the IS LM model Indeed even those who would reject using the model for modern policy analysis still see the basic model as useful for teaching purposes Moreover in an augmented form some of the authors in this volume would even see fit to use IS LM for modern policy analysis As will be seen therefore the IS LM model is not yet dead Rather the model's plasticity has enabled it to undergo a metamorphosis into augmented form enabling its continuing utilization in economics accordingly **Morality and Work**

Tibor R. Machan, editor, 2013 Examining some of the special ethical dimensions of work the contributors look at the basic issues of the labor market and offer some controversial alternatives to conventional ways of understanding that market Morality and Work confronts issues with a bold candid approach that is sometimes unsettling but always thought provoking

The Church on Capitalism Eve Poole, 2010-10-27 An examination of the views on capitalism of bishops academics and business people in the Church of England Highlighting the richness and distinctiveness of these arguments it also points to flaws and gaps Offering a new framework for public theology Poole urges the Church to take its proper place in re shaping the global economy Divine Providence in Early Modern Economic Thought Joost Hengstmengel, 2019-05-21 In this

important volume Joost Hengstmengel examines the doctrine of divine providence and how it served as explanation and justification in economic debates in the sixteenth seventeenth and eighteenth centuries throughout Western Europe The author discusses five different areas in which God was associated with the economy international trade division of labour value and price self interest and poverty and inequality Ultimately it is shown that theological ideas continued to influence

economic thought beyond the Medieval period and that the science of economics as we know it today has theological origins Interdisciplinary in nature this book will be of interest to advanced students and researchers in the history of economic thought the history of theology philosophy and intellectual history Theories of Justice Stephanie Mar Brettman,2015-04-30 What is justice How do we know justice How is justice cultivated in society These are the three questions that guide this critical dialogue with two representatives of the Catholic and Protestant traditions Karl Barth and Karol Wojtyla John Paul II Though the two thought leaders are shaped within divergent theological traditions and historical contexts they both appeal to Christian anthropology as a starting point for justice Their explorations into the nature of humanity yield robust new theories of justice that remain relevant for our contemporary era The third interlocutor our female author brings her own voice fully into the dialogue in the third part of the book in order to address the shortcomings in their theories and build upon their insights all the while seeking theories of humanity and social justice that result in justice for all persons Religious Studies: The Key Concepts Carl Olson,2010-09-28 An accessible A Z resource defining and explaining key terms and ideas central to the study of religion Exploring broad and recurring themes which are applicable in both eastern and western religions cross cultural examples are provided for each term to give a comprehensive overview of the subject Property Rights Terry L. Alternatives to Economics Clive Beed, Cara Beed, 2006-12-14 Alternatives to Economics outlines the Christian thought system and its value as an alternative to secular social science in the development of socio-economic policies Co-authors Clive and Cara Beed demonstrate how the Christian thought system could be applied to issues such as distribution of wealth and the growing unemployment problem The Christian thought system provides an alternative way of describing explaining and formulating policies for socio-economic matters from that of secular social science Alternatives to Economics finds the current state of economics severely flawed with no set of value-free
