Islamic and Comparative Religious Studies William Albert Graham, 2010. William A. Graham, a leading international scholar in the field of Islamic Studies, gathers together his selected writings in this volume under three sections: 1. History and Interpretation of Islamic Religion; 2. The Qur'an as Scripture; and 3. Scripture in the History of Religion. This invaluable resource will be of primary interest to students of the Islamic tradition, especially in regard to Qur'anic piety, Muslim ritual practice and fundamental structures of Islamic thought. It will also be of interest to students of the comparative history of religion, especially as regards the phenomenon of scripture and its analogs. Graham's work in Islamic studies focuses largely on the analysis and interpretation of the religious dimensions of ritual action, scriptural piety, textual authority, revelation, tradition and major concepts such as grace and transcendence. His work in the comparative history of religion has focused in particular on the problem of scripture as a cross-cultural religious phenomenon that is more complex than simply sacred text. This invaluable resource will be of primary

interest to students of the Islamic tradition especially as regards Qur'anic piety Muslim ritual practice and fundamental structures of Islamic thought and to students of the comparative history of religion especially as regards the phenomenon of scripture and its analogs

Embodying the Vedas Borayin Larios, 2017-04-10 Popularly Hinduism is believed to be the world's oldest living religion. This claim is based on a continuous reverence to the oldest strata of religious authority within the Hindu traditions: the Vedic corpus which began to be composed more than three thousand years ago around 1750-1200 BCE. The Vedas have been considered by many as the philosophical cornerstone of the Brahmanical traditions, *stika* even previous to the colonial construction of the concept of Hinduism. However, what can be pieced together from the Vedic texts is very different from contemporary Hindu religious practices, beliefs, social norms, and political realities. This book presents the results of a study of the traditional education and training of Brahmins through the traditional system of education called *gurukula* as observed in 25 contemporary Vedic schools across the state of Maharashtra. This system of education aims to teach Brahmin males how to properly recite, memorize, and ultimately embody the Veda. This book combines insights from ethnographic and textual analysis to unravel how the recitation of the Vedic texts and the Vedic traditions, as well as the identity of the traditional Brahmin in general, are transmitted from one generation to the next in contemporary India.

The Functions and Significance of Gold in the Veda Gonda, 2023-07-03 In this study, the author considers the functions and significance attached in ancient India to gold in all its aspects. Among these is the belief that gold is or represents light or the sun is essentially identical to fire, fiery or brilliant energy, truth, ritual exactitude, prestige, royalty is regarded as a symbol of life and human spirit of purity and incorruptibility, its function as amulets and talismans, its relations with the gods, the various uses made of it in rites and ceremonies, soma and animal sacrifices, royal and funeral rites, and so on, ritual utensilia made of gold, symbolic actions transferring its inherent power, and finally its use as a means of purification and expiation. This study leads to a better understanding of many Vedic texts, of various details of the ancient Indian sacrificial ritual theology, including, for example, the deification of the sacrificer, speculative thought, cosmogony, of the significance of figures such as the golden goose, the golden Purusa, and Hira-yagarbha.

David M. Knipe, 2015-04-01 For countless generations, families have lived in isolated communities in the Godavari Delta of coastal Andhra Pradesh, learning and reciting their legacy of Vedas, performing daily offerings and occasional sacrifices. They are the virtually unrecognized survivors of a 3,700-year-old heritage, the last in India who perform the ancient animal and soma sacrifices according to Vedic tradition. In *Vedic Voices*, David M. Knipe offers, for the first time, an opportunity for them to speak about their lives, ancestral lineages, personal choices, as pandits, wives, children, and ways of coping with an avalanche of changes in modern India. He presents a study of four generations of ten families from those born at the outset of

the twentieth century down to their great grandsons who are just beginning at the age of seven the task of memorizing their Veda the Taittiriya Samhita a feat that will require eight to twelve years of daily recitations After successful examinations these young men will reside with the Veda family girls they married as children years before take their places in the oral transmission of a three thousand year Vedic heritage teach the Taittiriya collection of texts to their own sons and undertake with their wives the major and minor sacrifices performed by their ancestors for some three millennia Coastal Andhra famed for bountiful rice and coconut plantations has received scant attention from historians of religion and anthropologists despite a wealth of cultural traditions Vedic Voices describes in captivating prose the geography cultural history pilgrimage traditions and celebrated persons of the region Here unfolds a remarkable story of Vedic pandits and their wives one scarcely known in India and not at all to the outside world
