Inclusion in Urban Educational Environments Denise E. Armstrong, Brenda J. of the student and demonstrates the application of this theoretical model for examining legal and ethical dimensions of court cases Discussion questions at the end of each case encourage readers to examine issues from differing viewpoints helping them to become more self reflective school leaders who can effectively address legal dilemmas in their own contexts This important text is a valuable resource for both aspiring and practicing school administrators and leaders This thoroughly revised edition features An entirely new chapter on conceptual and empirical insights grounding our understanding of students best interests 10 new legal cases reflecting recent developments in school law including educational needs of transgender students immunity for student searches conflicts between religious expression and free speech educators access to students cell phone data education for children of undocumented immigrants and access to literacy as a fundamental right A focus on preparing school leaders to meet the Professional Standards for Educational Leaders PSEL Updated information and references throughout to reflect current context resources and education policy

Common Law Judging Douglas E. Edlin, 2020-03-06 Are judges supposed to be objective Citizens scholars and legal professionals commonly assume that subjectivity and objectivity are opposites with the corollary that subjectivity is a vice and objectivity is a virtue These

assumptions underlie passionate debates over adherence to original intent and judicial activism In Common Law Judging Douglas Edlin challenges these widely held assumptions by reorienting the entire discussion Rather than analyze judging in terms of objectivity and truth he argues that we should instead approach the role of a judge s individual perspective in terms of intersubjectivity and validity Drawing upon Kantian aesthetic theory as well as case law legal theory and constitutional theory Edlin develops a new conceptual framework for the respective roles of the individual judge and of the judiciary as an institution as well as the relationship between them as integral parts of the broader legal and political community Specifically Edlin situates a judge s subjective responses within a form of legal reasoning and reflective judgment that must be communicated to different audiences Edlin concludes that the individual values and perspectives of judges are indispensable both to their judgments in specific cases and to the independence of the courts According to the common law tradition judicial subjectivity is a virtue not a vice
