G. A. Hughes, 1997 This bibliography of works on Samoa seeks to dispel the myth of sunbaked carefree islands by directing the reader to resources which discuss its difficult past and current challenges Provides informative annotations on a wide range of books and articles dealing with all aspects of American Samoa and Western Samoa including geography climate flora and fauna history society language politics culture and the arts Maps and a chronology are included Annotation copyrighted by Book News Inc Portland OR **Embodying Aga Tausili** Mercy Ah Su-Maliko, 2021-02-04 This book breaks new ground in the field of public theology by constructing a public theology which is built on interwoven cultural and Christian values Writing from the Oceanian context Samoa Ah Siu Maliko unpacks the complementary Samoan and Christian core values of service respect dialogue love and justice as the foundation for a values centered response to the social realities confronting Oceania Drawing on the indigenous research paradigm known as talanoa the author grounds the public theology that emerges in extensive interviews with 75 Samoans from all walks of life the public who are the subjects of public theology The resulting framework is then applied to a specific social problem the crisis of violence against women in Samoa This pioneering contribution to public theology discourse opens up possibilities for similar contextual approaches to public theology not only across Oceania but around the world *Native Peoples of the World* Steven L. Danver, 2015-03-10 This work examines the world s indigenous peoples their cultures the countries in which they reside and the issues that impact these groups *The Athletic Crusade* Gerald R. Gems, 2006-01-01 The Athletic Crusade is the first book to systematically analyze the role of sports in the expansion of U S empire from the 1890s through World War II Gerald R Gems details how white Anglo Saxon Protestant males set the standard for inclusion within American society transferred that standard to foreign territories and subtly used American sports to instill allegedly desirable racial moral and commercial virtues in colonial subjects In the realm of such expansion sports provided a less harsh less militaristic means of instilling belief in a dominant system s values and principles than more overt methods such as war The process of change however had unexpected consequences as subordinate groups adapted or even rejected American overtures Sport

became a means for nonwhites to challenge whiteness Social Darwinism and cultural hegemony by establishing their own physical prowess claiming a measure of esteem and creating a greater sense of national identity Gems shows the direct influence of sports in Hawaii the Philippines Puerto Rico Cuba and the Dominican Republic and explores their comparatively minimal influence in countries such as China and Japan Amid increasing globalization The Athletic Crusade offers a welcome perspective on how the United States has attempted to spread its influence in the past and the implications for the future of indigenous and other societies Tourism, Ethnicity, and the State in Asian and Pacific Societies Michel Picard, Robert E. Wood, 1997-05-01 The expansion of international tourism is changing the relationship between ethnic groups and states around the globe Yet tourism's importance for the understanding of ethnicity in the modern world has been generally neglected within the field of ethnic studies This pioneering volume investigates how international tourism development state policies of ethnic management and the active responses of local ethnic groups intersect to reshape ethnic identities and ethnic relations in Asian and Pacific societies It analyzes the ways in which the very meaning of ethnicity and culture are being contested and reworked in the wake of tourism's impact Following an introduction that explores the close but often ambivalent relationship between tourism promotion and state ethnic policies individual contributors examine tourism's varied effects in China Singapore Malaysia Thailand Indonesia and the island Pacific in rich ethnographic detail **Pacific Collection Acquisitions List** University of Hawaii at Manoa. Thousands of studies have been conducted by social scientists in the villages and islands and increasingly in the towns of the Pacific Despite this there are few longitudinal studies of any great depth and sophistication in the region The contributors to this book have all conducted long term research in the islands of the Pacific During their visits and revisits they have witnessed first hand the many changes that have occurred in their fieldsites as well as observing elements of continuity They bring to their accounts a sense of their surprise at some of the unexpected elements of stability and of transformation The authors take a range of disciplinary approaches particularly geography and anthropology and their contributions reflect their deep knowledge of Pacific places some first visited more than 40 years ago Many of the chapters focus on aspects of socio economic change and continuity while others focus on specific issues such as the impact of both internal and international migration political and cultural change technological innovation and the experiences of children and youth By focusing on both change and continuity this collection of 11 case studies shows the complex relationships between Pacific societies and processes of modernity and globalisation By using a long term lens on particular places the authors are able to draw out the subtleties of change and its impacts while also paying attention to what in the contemporary Pacific has been left remarkably unchanged Filling a gap in the studies of the Pacific region this book will appeal to an interdisciplinary audience in the fields of anthropology development geography and Asia Pacific studies
