LYRIC SHEET

Welcome to my first verse
This is how it goes
I don't label it "first verse"
Cause everybody knows

Your prechorus – if you have one
Will be a separaste section
With a space before and after
If you follow my direction

This is my **LYRIC SHEET**
The chorus is indented
This is my **LYRIC SHEET** -- for my song
This is my **LYRIC SHEET**
See how it's presented
I'm gonna have a hit -- before too long

Here we go with verse two
It's typed and error free
I don't label it "second verse"
'Cause what else could it be

You can type "repeat pre-chorus"
If it's the same as your first one
Or you can type it out again
If that's your idea of fun

REPEAT CHORUS

If a bridge is included
You don't need to indent it
But you can if you want to
If that makes you contented

REPEAT CHORUS

Franklin, 2021-07-28 Music sampling has become a predominantly digitalized practice. It was popularized with the rise of Rap and Hip Hop as well as ambient music scenes, but it has a history stretching back to the earliest days of sound recording and experimental music making from around the world. Digital tools and networks allow artists to sample music across national borders and from diverse cultural traditions with relative ease, prompting questions around not only fair use, copyright, and freedom of expression, but also cultural appropriation and copywrongs. For example, non-commercial forms of sharing that are now commonplace on the web bring musicians and their audiences into closer contact with emerging regimes of commercial web tracking and state-sponsored online surveillance. Moreover, when musicians actively engage in political or social causes through their music, they are liable to both commercial and state forces of control. Shifts back to corporate ownership and control of the global music business, online and offline, highlight competing claims for commercial and cultural ownership and control of sampled music from local communities, music labels, and artists. Each case study is based on archival research, close listening, and musical analysis alongside conversations and public reflections from artists such as David Byrne, Annirudha Das, Asian Dub Foundation, John Cage, Brian Eno, Sarah Jones, Gil Scott Heron, Karlheinz Stockhausen, Dunya Yunis, and Sonia Mehta. *Sampling Politics* provides ways to listen and hear again how sampling practices and music making work on its own terms and in context. In so doing, M.I. Franklin corrects some errors in the public record, addressing some longstanding misperceptions over the creative, legal, and cultural legacy of music sampling in some cases of rich and complex practices that have also been called musical borrowing, cultural appropriation, or theft. This book considers the musicalities and musicianship at stake in each case as well as the respective creative practices and performance cultures underscoring the ethics of attribution and collaboration when sampling artists make music. *Innovations in Computational Intelligence and Computer Vision* Satyabrata Roy, Deepak Sinwar, Nilanjan Dey, Thinagaran Perumal, João Manuel R. S. Tavares, 2023-10-12 This book presents high-quality peer-reviewed papers from the International Conference on Innovations in Computational Intelligence and Computer Vision (ICICV).
