Activism and Social Justice Gary L. Anderson, Kathryn G. Herr, 2007-04-13 This is an important historical period in which to develop communication models aimed at creating opportunities for citizens to find a voice for new experiences and social concerns. Such basic social problems as inequality, poverty, and discrimination pose a constant challenge to policies that serve the health and income needs of children, families, people with disabilities, and the elderly. Important changes both in individual values and civic life are occurring in the United States and in many other nations. Recent trends such as the globalization of commerce and consumer values, the speed and personalization of communication technologies, and an economic realignment of industrial and information-based economies are often regarded as negative. Yet there are many signs from the WTO experience in Seattle to the rise of global activism aimed at making biotechnology accountable that new forms of citizenship, politics, and public engagement are emerging. The Encyclopedia of Activism and Social Justice presents a comprehensive overview of the field with topics of varying dimensions, breadth, and length. This three-volume Encyclopedia is designed for readers to understand the topics, concepts, and ideas that motivate and shape the fields of activism, civil engagement, and social justice, and includes biographies of the major thinkers and leaders who have influenced and continue to influence the study of activism. Key Features: Offers multidisciplinary perspectives with contributions from the fields of education, communication studies, political science, leadership studies, social work, social welfare, environmental studies, health care, social psychology, and sociology. Provides an easily recognizable approach to topics, ideas, persons, and concepts based on alphabetical and biographical listings in civil engagement, social justice, and activism. Addresses both small-scale social justice concepts and more large-scale issues. Includes biography pieces indicating the concepts, ideas, or legacies of individuals and groups who have influenced current practice and thinking, such as John Stuart Mill, Rachel Carson, Mother Jones, Martin Luther King Jr., Karl Marx, Mohandas Gandhi, Nelson and Winnie Mandela, Dorothy Day, and Thomas Merton. **Writing**

Entries on genres, periods, themes, characters, historical events, texts, places, and other topics are included as well. Each entry is written by an expert contributor and relates its subject to the overall experience of women in African American literature. Entries cite works for further reading, and the encyclopedia closes with a selected general bibliography. African American culture is enormously diverse, and the experience of women in African American society is especially complex.
