Lost World Of The Great Spas:

The Lost World of the Great Spas Joseph Wechsberg, Ruth Brandon, 1979 Takes an evocative look at the great spas of Europe and America past and present exploring their histories and telling the stories of the famous people The Grand Spas of Central Europe David Clay Large, 2015-10-08 The Grand Spas of Central Europe leads readers on an irresistible tour through the grand spa towns of Central Europe famed places like Baden Baden Bad Ems Bad Gastein Karlsbad and Marienbad Noted historian David Clay Large follows the grand spa story from Greco Roman antiquity to the present focusing especially on the years between the French Revolution and World War II a period in which the major Central European Kurorte cure towns reached their peak of influence and then slipped into decline Written with verve and affection the book explores the grand spa towns which in their prime were an equivalent of today's major medical centers rehab retreats golf resorts conference complexes fashion shows music festivals and sexual hideaways all rolled into one Conventional medicine being quite primitive through most of this era people went to the spas in hopes of curing everything from cancer to gout But often as not curists also went to play to be entertained and to socialize In their heyday the grand spas were hotbeds of cultural creativity true meccas of the arts High level politics was another grand spa specialty with statesmen descending on the Kurorte to negotiate treaties craft alliances and plan wars This military scheming was just one aspect of a darker side to the grand spa story one rife with nationalistic rivalries ethnic hatred and racial prejudice The grand spas it turns out were microcosms of changing sociopolitical realities not at all the timeless oases of harmony they often claimed to be The Grand Spas of Central Europe holds up a gilt framed but clear eyed mirror to the ever changing face of European society dimples warts and all **The Mechanics of Internationalism** Martin H. Geyer, Johannes Paulmann, 2001 This collection of essays traces the origins of modern internationalism and the emergence of global society in the nineteenth century It offers a fresh approach to the study of international history by looking at the structural prerequisites of the thriving internationalism before the First World War **Healing Waters** Loring Bullard, 2004 Missouri's mineral springs and resorts played a vital role in the social and economic development of the state In Healing Waters Loring Bullard delves into the long history of these springs and spas concentrating particularly on the use and development of the mineral springs from 1800 to about the 1930s During this period there were at least eighty sites in the state that could be described as resorts Because so many people were drawn to the springs by their faith in the healing virtues of the springwater towns were frequently founded at the mineral springs These places fought hard to capture the attention of Missourians who were seeking better health relaxation or good times in the late 1800s and early 1900s Bullard first examines the development of mineral water resorts in Europe from ancient times early spa traditions in America and Missouri's frontier spas He then discusses the establishment of saltworks at the state's saline springs and the importance of the early salt trade the brisk business that grew around the bottling of mineral waters the use and development of mineralized groundwater resources the geologic and biologic factors

that create Missouri's mineral waters and public and professional belief in the curative values of mineral waters. Healing Waters also traces the demise of Missouri's mineral water resorts and towns well into the twentieth century when modern medicine had seemingly taken hold. Many physicians and scientists continued to proclaim the medicinal virtues of mineral waters. However, by the second quarter of the twentieth century, medical science and popular opinion had discounted the immediate medical usefulness of mineral waters. As advances were made in microbiology and biochemistry and with the inherent promise of drug cures, orthodox medicine began to turn a cold shoulder on mineral water treatments. Spa treatments with their long regimens also did not fit well with the increasingly fast-paced lifestyles of the public. By visiting the sites, gathering local historical accounts, interviewing local citizens, and photographing remaining artifacts, Bullard has done a masterful job in providing the answers to why these vibrant social centers came to be and why they faded. *Music in 1853* Hugh Macdonald, 2012. No one composer is at the centre of this fascinating story, but a larger picture emerges of a shift in musical scenery from the world of the innocent Romanticism of Berlioz and Schumann to the more potent musical politics of Wagner and of his antidote as many saw him, Brahms. *British Spas from 1815 to the Present* Phyllis May Hembry, 1997. Phyllis Hembry, author of *The English Spa 1560 to 1815*, wrote about the origins and development of the spas and their flowering in the eighteenth century. Her book deals not only with their healing and recreational aspects but also with their status as political, religious, social, and economic gathering places. Hembry had intended to produce a second volume taking the story further but died before being able to do so. She had gathered a considerable amount of material and written several draft chapters for this volume. Dr and Mrs Cowie have made use of this, revising and supplementing Hembry's text to create a study that continues to the present time and is extended to include Welsh, Scottish, and Irish spas as well.

Emotion in Motion Mike Robinson, David Picard, 2016-05-06. What happens when tourists scream with fear, shout with anger, and frustration, weep with joy and delight, or even faint in the face of revealed beauty? How can certain sites affect some tourists so deeply that they require hospitalisation and psychiatric treatment? What are the inner contours of tourist experience, and how does it relate to specific emotional cultures? What are the consequences of the emotional cultures of tourists upon destinations? How are differences in emotional culture mobilized and played out in the transnational contact zones of international tourism? While many books have engaged with the structural frames of tourist practice and experience, this is the first to deal with the emotional dimensions of tourism, travel, and contact, and the ways in which they can transform tourists, destinations, and travel cultures through emotional engagements. The book brings together an international array of scholars from anthropology, psychiatry, history, cultural geography, and critical tourism studies to explore how the movement to and through the realms of exotic people, wild nature, subliminal art, spirit worlds, metropolitan cities, and sexualised others variably provoke emotions, peak experiences, travel syndromes, and inner dialogues. The authors show how tourism challenges us to engage with concepts of self, other, time, nature, sex, the body, and death. Through a set of ethnographic and historic cases

they demonstrate that such engagements usually have little to do with the actual destination but rather are deeply anchored in personal memories repressed fears and desires and the collective imaginaries of our societies **WATER HEALTH -**
