Lost Language Of Symbolism Volume 2:

The Lost Language of Symbolism Harold Bayley, 2007-07 Symbols tell a story but we must first know how to read them Otherwise one just sees a picture without the intended message There is a wealth of information to be found Bayley was a true master in etymology word origins This book stands well on its own and Volume One does not have to be read first in order to understand it

The Great Secret Maurice Maeterlinck, 2003-04 This book written by Nobel Prize winner Maurice Maeterlinck should be the essential text for those seeking the hidden origin of religion and the meaning of life itself The author explored the world's hidden mysteries for many years until stumbling upon a startling insight This spiritual insight from long ago is revealed early in the book He then follows it with a complete history of what arose on that foundation how the secret was carried to other ancient cultures around the world then up into modern times *Hus the Heretic* Poggius The Papist, Paul Tice, 2003 John

Hus was one of the greatest religious and spiritual pioneers to ever grace this earth and many experts agree that the Reformation would have never been possible without him paving the way He paid for his beliefs however by being burned at the stake in 1415 at the age of 42 This book is composed of three sections meant to provide the most complete picture of Hus that we can assemble The main section is composed of two detailed letters from Poggius a witness to the trial to a friend He appeared on the Church's behalf but became secretly allied with Hus Paul Tice adds a section providing additional background information on Hus including his beliefs motivations and friendships Lastly we find a six page letter written by John Hus to his followers the night before his execution

The Hymn of the Robe of Glory G. R. S. Mead, 2005-02 This hymn or poem is an important Gnostic text and should be essential reading for anyone interested in early mystical literature Also known as The Hymn of the Pearl it is an allegorical tale Instead of an outer journey as it first seems it is interpreted here as a deeper inner one It contains a message that can be quite profound depending on the reader's level of spiritual understanding This book works on the inner psyche creating an interactive balance in some cases between the upper hidden

and lower physical worlds That was the aim of many Gnostic stories poems and parables With that in mind this book has much to offer *The Significance of Jesus Christ* Willard Chamberlain Selleck,2002-06 Written by a minister who had presented much of this material to his congregation A brilliant effort by a devout man to define the importance of Jesus to the world Claims the Gospel stories ring true because they are powerful reminiscences that have survived It is their simplicity that gives them power One is impressed with Sellecks honesty when he states that the miracles of Jesus are largely fictitious however he does support some of the remarkable healings attributed to Christ and other instances of psychic power One of the best parts of the book is his list of five different ways that define the true greatness of Jesus Should be studied carefully by anyone seeking a better understanding of Jesus *William Blake* Basil De Selincourt,2000-01-20 This book outlines Blake s interesting life Some people thought him to be utterly mad others considered him a genius This biography certainly will not be boring to those with an interest in the bold adventures of a unique man who spent his life as a spiritual pioneer **Reason and Belief** Oliver Lodge,2000-01-20 Some claim that scientific proof is more valid than spiritual experience Shows that despite physical proof the impact of science has little effect on spiritual matters Science is a helpful tool that at times allows us to reach spiritual answers that have so far not been found but scientists of today often ignore the seers and prophets of the past who have given us great spiritual truths Lodge reveals the mystical and opens us to the larger possibilities around us *In the Name of Humanity* Joseph Lewis,2003-04 How and why did circumcision begin Does every male child that comes into the world have a birth defect What outdated beliefs have also caused women to suffer for centuries If we were created in the image of God as the Bible tells us then why are we mutilating our children These questions and more and being asked by the author Joseph Lewis In this book he shares extensive research showing why he believes circumcision to be cruel brutal and unnecessary in addition to being completely unnatural **Jesus : God, Man, Or Myth?** Herbert Cutner,2000 Did pagan mythologies represent Christs miracles in order to convince them to accept the Christian faith Beyond these miracles is there enough evidence to prove there was a Jesus Cutner says no He also says that the Apostle Paul never portrayed Jesus as a man but as a spiritual being To Paul Christ is found in a spiritual sense within oneself as opposed to being an actual historical personage When the Church accepted Paul this inner reflection was outwardly projected by the Church into an actual mana saviour according to Cutner This might be why Paul was almost rejected by the Church his views posed a danger to those who might rely on their own spiritual knowledge rather than the authority of the Church Whether Jesus lived or not we still have a lot to learn about ourselves and our true place in the universe This book although critical may be useful in that respect **Highlights of Templar History** William Moseley Brown,Simeon B. Chase,2003-04 The Knights Templar is a secret society that has existed for many centuries Few books have been written about them from an insiders point of view This book was originally released by the Grand Encampment of Knights Templar United States of America after seven years of historical research by an assigned committee The author

Brown was a member of that committee and their purpose was to provide Templars with an accurate history of their organization. It was for members only and much of the information is not found elsewhere. We've also added from another source their Constitution and Abbreviated By Laws out of print for over 100 years as a service for potential members or for those who desire a better knowledge of the inner workings of the Templars. These two works combined together will hopefully shed new light on an interesting and sometimes mysterious organization.

Was Jesus Influenced by Buddhism? Dwight Goddard, 2000. Buddhism began and flourished half a millennium before Jesus was ever born. Five hundred years is a long time for a religion to grow so Jesus could have easily been influenced by Buddhist teachings as proposed by this book. There were many years in the life of Jesus that remain unaccounted for. Goddard reveals evidence that the Essenes of whom Jesus had contact with and may have been a member himself had strong Buddhist influences. Reveals that the parallels between Jesus and the Buddha are more than just a coincidence.

Mushrooms and Mankind James Arthur, 2000. For thousands of years on our planet humanity has been involved in a symbiotic relationship with plants. Not only have plants supplied mankind with a never ending food source, the necessary nourishment for our bodies and life itself, but they have also served us in another way, an extremely important and intricate one yet an often overlooked one. This book uncovers the natural link between man, consciousness and God.

The Key to the Tarot L. W. de Laurence, 2002-10. One of the most in depth books on the Tarot ever written. Any person wishing to conduct readings with Tarot cards will find this book to be highly useful. The standard Rider Waite deck is used here but the book can still be useful for other decks. Each card is pictured as well as a description of the deeper symbolism of the card and its significance. Various layouts and ways to read the cards are provided plus a section on additional meanings is included in the back.

The Social Record of Christianity Joseph McCabe, 2000-04. Includes The Lies and Fallacies of the Encyclopedia Britannica. Shows how Christianity has controlled the functions of society. Western civilization has been dependent upon the Christian religion for its ethical and moral teachings and ultimately its conduct. McCabe demonstrates however that the moral and ethical conduct of western civilization was never good and the chief cause of this has been Christianity. The Renaissance was a rebirth or revival of art, literature and learning with the major catalyst being Martin Luther's rebellious breakaway from the Church in 1524. It could not get started until the old ways of suppression were shaken and today it has still not happened completely. We still hang on to this socially repressive system according to McCabe because it continues to function as an authority. The Lies and Fallacies continues this theme documenting an effort by clerical forces to remove certain historical facts surrounding Christianity. Shows exactly how and why vital facts were either doctored or removed from the encyclopedia to cast Christianity into a better social and religious light.

Atrahasis Albert T. Clay, 2003. The word Atrahasis means extra wise and refers to the earliest known name of Noah who built an ark and saved mankind from destruction. This is that story from ancient Sumeria which many scholars believe was the original from which all known flood stories came from. This was the most popular story

in the ancient world and has survived for over five thousand years It is the only one that all cultures worldwide seem to share Why Was there really a great flood And why do we not explore the oldest known version carefully for clues That is the purpose of this book which also includes a number of other interesting flood story fragments and documents
