New Material As New Media The Fabric Workshop And Museum:

New Material as New Media Marion Boulton Stroud, Kelly Mitchell, 2002 Based on work produced over the past quarter century at the Fabric Workshop and Museum in Philadelphia this stunning retrospective highlights the work of Marina Abramovic Doug Aitken Louise Bourgeois Roy Lichtenstein Chris Burden Faith Ringgold Yinka Shonibare Robert Venturi and other outstanding artists Fine Arts **Artists & Prints** Deborah Wye, Starr Figura, Museum of Modern Art (New York, N.Y.), 2004 Volume covers the Collection of Prints and Illustrated Books not the collection of artists books **Re-framing Representations of Women** Susan Shifrin, 2017-07-05 Crossing disciplinary and chronological boundaries this volume integrates text and image essays and object pages to explore the processes inherent in gender representation rather than resituating women in particular categories or spheres as other scholarly publications and exhibitions have done Taking its lead from the Picturing Women project on which it reflects and builds the volume makes a substantial methodological contribution to the analysis of gender discourse and visibility It offers new and stimulating scholarship that confronts historical patterns of representation that have defined what women were and are seen to be and presents new contexts for unveiling what art historian Linda Nochlin has called the mixed messages of representations of women Ann Hamilton Joan Simon, Ann Hamilton, 2006 Ann Hamilton An Inventory of Objects ISBN 0 9743648 5 1 978 0 9743648 5 8 Hardcover 7 x 10 5 in 264 pgs 150 color and 80 b w U S 60 00 CDN 72 00 November Art **The Social Life of Materials** Adam Drazin, Susanne Küchler, 2020-06-08 Materials play a central role in society Beyond the physical and chemical properties of materials their cultural properties have often been overlooked in anthropological studies finished products have been perceived as social yet the materials which comprise them are considered raw or natural The Social Life of Materials proposes a new perspective in this interdisciplinary field Diverting attention from the consumption of objects the book looks towards the properties of materials and how these exist through many transformations in a variety of cultural contexts Human societies have always worked with materials However the customs and traditions surrounding this differ according to the place the time and the material itself Whether or not the material is man made materials are defined by social intervention Today these constitute one of the most exciting areas of global scientific research and innovation harboring the potential to act as key vehicles of change in the world But this materials revolution has complex social implications Smart materials are designed to anticipate our actions and needs yet we are increasingly unable to apprehend the composite materials which comprise new products Bringing together ethnographic studies of cultures from around the world this collection explores the significance of materials by moving beyond questions of what may be created from them Instead the text argues that the materials themselves represent a shifting ground around which relationships identities and powers are constantly formed and dissolved in the act of making and remaking *Kiki Smith* Wendy Weitman, Kiki Smith, Museum of Modern Art (New York, N.Y.), 2003 This work is published to accompany an exhibition at MoMA QNS devoted to an under
