Cnaan, Carl Milofsky, 2007-12-18 Although the way associations and the organization of local social life are intertwined is one of the oldest approaches to community study the way citizens and residents come together informally to act and solve problems has rarely been a primary focus Associations are central to important and developing areas of social theory and social action This

handbook takes voluntary associations as the starting point for making sense of communities. It offers a new perspective on voluntary organizations and gives an integrated yet diverse theoretical understanding of this important aspect of community life.

Stories, Visions and Values in Voluntary Organisations Christina Schwabenland, 2016-04-01 Christina Schwabenland's book is based on extensive research into stories told by people working in voluntary organizations in the UK and in India. With a view to social change, the author employs hermeneutic methods to explore how stories create and sustain meaning and how storytelling contributes to the making and remaking of our social world. Specific topics addressed in the book include the role of storytelling in starting a new organization, managing hope and despair, empowering participatory leadership, and stimulating creativity and innovation. The book will be of interest to theorists and practitioners interested in the role of storytelling in organizational analysis, the role of organizations in achieving social change, the growing centrality of the voluntary sector in public policy, and the intersection between the corporate, public, and voluntary sectors.

Emerging Voices, Urgent Choices, 2006-02-01 The strength of U.S. Hispanic churches is an untold story documented in *Emerging Voices, Urgent Choices: Essays on Latino Religious Leadership*. In this pioneering volume, experts from various disciplines examine the remarkable contribution of Hispanic churches to U.S. society and the challenges their leaders face in serving the country's growing Latino population. Chapters analyze success stories in Latino ministry, specific issues for Catholic leadership and Protestant denominations, and the political and community serving activities of diverse congregations. Together, the essays demonstrate how Hispanic churches of every denomination are generating social capital in neglected communities. The book updates previous research on religion that largely ignores U.S. Latinos and adds a new dimension to Latino Studies scholarship by recognizing the important role that religion plays in Hispanic life. Contributors are Rebecca Burwell, Jackson W. Carroll, Kenneth G. Davis, Gastón Espinosa, Mary L. Gautier, Mark M. Gray, Andrew Hernández, Edwin I. Hernández, Philip E. Lampe, Adair Lummis, Melissa D. Mauldin, Milagros Peña, Marciana Popescu, Juan Carlos Rivera, and Amy L. Sherman.

The Politics of Latino Faith Catherine E. Wilson, 2008-06 With the 2008 U.S. presidential campaign in full swing, many pundits and commentators are striving to understand the political behavior of Latinos, the largest minority in the United States and a key voting block that presidential candidates in this election and beyond will have to learn how to secure. As the author makes clear, not only are Latinos a religious community, but their religious institutions, in particular faith-based organizations, inform daily life and politics in Latino communities to a considerable degree. Timely and discerning, this unique scholarly work addresses this increasingly powerful political force. Concentrating on urban areas in the South Bronx, Philadelphia, and Chicago, the author provides a systematic look at the spiritual, social, and cultural influence Latino faith-based organizations have provided in American life, as well as in understanding Latino social and political involvement in the United States.
